

MUFFAKHAM JAH COLLEGE OF ENGINEERING AND TECHNOLOGY

Electrical and Electronics Engineering Department

VISION

To produce proficient engineers who illuminate the nation, drive the industry and innovate in the field of power and automation.

MISSION

Provide futuristic and comprehensive technical education to equip students with core competencies and relevant skill sets through effective teaching learning methods and state of art laboratories thus preparing them for global careers.

Pursue need based research and provide consultancy and testing services to address contemporary issues in the fields of electrical and instrumentation engineering.
