

IEEE STUDENT BRANCH

**MUFFAKHAM JAH COLLEGE OF ENGINEERING
AND TECHNOLOGY, HYDERABAD**

IEEE ROBOTICS AND AUTOMATION SOCIETY

Name of the Event: Unfold Robotics

Date: 29 November 2022

Location: Student Activity Centre, Block 1, 4th Floor

Timings: 11 am - 4 pm (2-day event)

Number of Attendees: 90 - 100

ABOUT THE EVENT:

The Unfold Robotics Workshop, organised by IEEE Robotics and Automation Society (RAS) and Team Robocon MJCET (TRM), successfully concluded with remarkable achievements—the workshop aimed to equip participants with the skills to create a fully functioning robot.

During the workshop, attendees received comprehensive theoretical sessions covering robotics fundamentals. Practical training sessions allowed participants to assemble their robots and gain hands-on experience in hardware integration and troubleshooting.

An exciting highlight of the event was the development of an app for controlling the robots. Participants learned app development techniques and successfully created an app that held an RC car, showcasing their newfound skills.

Bluetooth Module - HC-05

HC-05 Bluetooth Module is an easy to use Bluetooth SPP (Serial Port Protocol) module, designed for transparent wireless serial connection setup.

Its communication is via serial communication which makes an easy way to interface with controller or PC.
