

IEEE EDS MJCET EVENTS

The following events were organized by IEEE EDS Chapter.

Event 1: Wireless Power Transmission by Ky Sealy

The IEEE EDS SB MJCET organized a webinar on the topic 'Wireless Power Transmission' by Ky Sealy, WiTricity Engineering Fellow on 25th July 2022 from 5:30 pm (IST). WiTricity Corporation is world-renowned for its magnetic resonance wireless power transfer (WPT). In the webinar speaker shared his knowledge on the various wireless power transmission technologies. Like EV cars wireless charging using WPT.

Venue: Google Meet

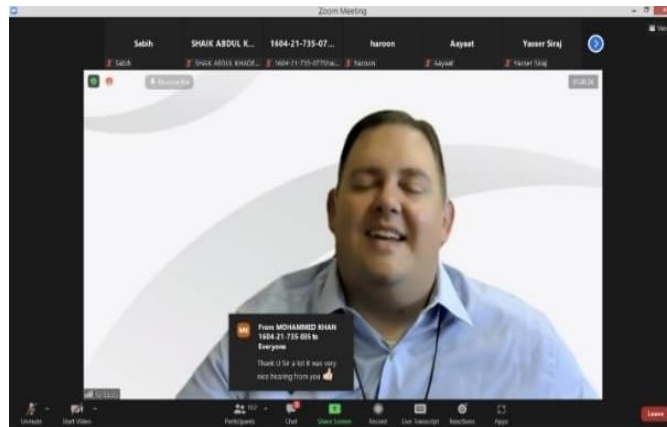

Number of Attendees: IEEE Members – 54, Non IEEE Members – 93, Total- 147

Event 2: Induction Program Membership Drive

The IEEE EDS SB MJCET introduced about the student branch to the first years on their induction program on 5th November 2022 from 11:30 am where vice chairperson and team has spoken about the benefits of joining the EDS and previously conducted events followed by a membership drive to encourage students to join the IEEE Electron Device Society as member.

Venue: Ghulam Ahmed Hall, MJCET

Number of Attendees: 432

Webinar on Wireless Power Transmission by Ky Sealy

Induction Program Membership Drive by EDS EXECOM
