

REPORT ON WEARABLE ELECTRONICS WEBINAR

Date : 3 December, 2021

The IEEE EDS SB MJCET chapter organized a webinar on the topic ‘Wearable Electronics’ on 3rd December in the online mode for the 2nd year Students of all the branches. The virtual talk was delivered by Ms. Maliha Naaz, IEEE EDS Chapter Advisor SB MJCET. The webinar was attended by around 45 students including 15 IEEE Student members from various branches like E.C.E, C.S.E and Mechanical.

The agenda of the webinar was to make students aware of the different applications of Wearable electronics in medical field, textiles, sports, etc. The webinar mainly focused on how wearable electronics are used in prevention of diseases and maintenance of health. Also an overview on patient management and diagnosis was given.
