

Dr. Syed Khader Basha pursued his doctorate degree from Jawaharlal Nehru Technological University, Hyderabad. His area of specialization is thermal science. He obtained his B.E(Mechanical Engineering) from osmania university and M.E(Turbomachinery) from University college of Engineering, osmania university, hyd. His previous work experiences includes, Research Asst. at centre for energy technology., osmania university, shaaz college of engineering & technology, DVR college of engineering & technology, MLR institute of technology, hyd. In Aug 2012 he joined MJCET as Asst.Professor and working till date. He has served as co-convener for work shop on Advances in Research and Innovations in mechanical engineering, conducted by MED,MJCET,Hyd. He has contributed as teaching assistant for two week ISTE work shop on Engineering Thermodynamics. He handled subjects like, Thermodynamics, Applied Thermodynamics, Heat transfer, Thermal Turbomachinery. He is having various national international conferences into his credit. He published 4-international journals and 4-international conferences.
