CAREER OBJECTIVE

To contribute to academic excellence through effective teaching, student mentoring, and research while leveraging my expertise in Computer Science, Cloud Computing, DevOps, and Software Engineering to foster student learning and professional development.

EDUCATION

Muffakham Jah College of Engineering and Technology Hyderabad, Telangana
Master of Technology (Computer Science and Engineering) - CGPA: 9.07/10 Oct 2023 - Jan 2026

Lords Institute of Engineering and Technology Hyderabad, Telangana
Bachelor of Engineering (Information Technology) - CGPA: 8.16/10 Aug 2019 - July 2023

Noesis Junior College Hyderabad, Telangana
Intermediate (MPC) - Score: 922/1000 Oct 2017 - March 2019

International Indian School Jeddah, Kingdom of Saudi Arabia
Secondary School (CBSE - Class X) - CGPA: 9.2/10 April 2004 - Oct 2017

PROFESSIONAL EXPERIENCE

Muffakham Jah College of Engineering and Technology Hyderabad, Telangana
Assistant Professor, CSE Department June 2026 - Present

- Delivering undergraduate courses in Computer Science and Engineering.

Techdome Solutions Pvt. Ltd. Hyderabad, Telangana
DevOps Engineer Intern I Oct 2025 - Dec 2025

- Worked on provisioning and managing cloud infrastructure using Terraform (Infrastructure as Code).
- Assisted in building and maintaining CI/CD pipelines for automated build and deployment.
- Collaborated with the DevOps team to troubleshoot pipeline failures and optimize deployments.

Full Stack Academy Hyderabad, Telangana
DevOps & AWS Mentor Nov 2024 - Jan 2025

- Conducted practical and theory sessions for 30+ students on AWS and DevOps tools.
- Guided students in designing and implementing CI/CD pipelines and deploying applications using Kubernetes.
- Provided project mentoring, performance evaluation, and technical feedback to enhance students' understanding and problem-solving skills.

AREAS OF INTEREST

- Cloud Computing
- DevOps Engineering
- Machine Learning
- Software Engineering
- Operating Systems

TECHNICAL SKILLS

Operating Systems: Linux, Windows

Cloud Platform: AWS (EC2, S3, IAM, VPC, Route53)

DevOps Tools: Docker, Kubernetes, Terraform, Ansible, Jenkins

Scripting & Programming: Python, Bash, SQL, HTML/CSS (basic)

Developer Tools: Git, GitHub, VS Code

M.TECH PROJECT

Ensemble Framework for Fine-Grained Cyberbullying Detection

- Developed an ensemble-based ML framework for detecting cyberbullying and hate speech on social media.
- Performed text preprocessing, TF-IDF feature extraction, and class balancing using SMOTE.
- Implemented soft voting ensemble using Boosted Decision Trees and Bagging Random Forest.
- Evaluated performance using Accuracy, Precision, Recall and F1-score.

ACHIEVEMENTS & CERTIFICATIONS

- Silver Medalist – B.E. (Information Technology), LIET
- Overall 2nd Rank in B.E. (Information Technology)
- Certified in AWS & DevOps (Full Stack Academy)
