## Preamble

Muffakham Jah College of Engineering and Technology follows a principle of implementing the finest teaching learning processes. The College had always encouraged to adopt new, vital, flexible and relevant curriculum across all the programmes, offered by various departments. The Institution adopts a policy to take special care for the students who are academically weak by providing extra lectures and remedial classes. Similarly, students who are identified as academically bright are encouraged to perform well beyond classroom and think out of the box.

## 1. Identifying Slow and Advanced Learners

### I. Objective

- To identify the students whose performance is not satisfactory and train them to meet their respective academic goals.
- To identify the students who perform well in academia and encourage them to adopt new techniques that put them apart from the rest so they excel in their higher studies, in industry or perform better in placements of Public Sector Undertakings.

### II. Identification

- Once the list of students registered in the semester reaches the concerned faculty member, the faculty is advised to prepare a detailed lecture plan including the schedule of all internal assessments.
- The schedule is to be circulated to the students and all the assessments are to be evaluated in the prescribed stipulated time.
- *Students scoring less than 45% in the 1<sup>st</sup> Class-Test or in two consecutive Internal Tutorials or Quizzes shall be identified as Slow Learners.*
- *Students scoring more than 75% in the 1<sup>st</sup> Class-Test or in two consecutive Internal Tutorials or Quizzes shall be identified as Advanced Learners.*

## 2. Course of action to improve/encourage the performance

### I. Slow Learners

- Slow Learners, after being identified shall be counseled and be mandated to attend the remedial classes scheduled by the faculty.

- The schedule of the remedial class shall be circulated by the faculty well in advance.
- Every course has to have a remedial class where the performance of the students, post 1<sup>st</sup> Class test and 2<sup>nd</sup> Class test shall be recorded.
- A faculty may indulge the students in remedial classes individually or conduct a group lecture wherein doubts of all the Slow learners shall be appropriately addressed.

## II. Advanced Learners

- Advanced Learners are to be identified by the concerned faculty and the list be shared to the HoD.
- The HoD shall further encourage the faculty mentors to be in regular contact with the students.
- Faculty mentors are to guide them appropriately to perform any research oriented project and communicate a research paper in a peer reviewed journal or a conference.
- Alternatively, the faculty mentor may encourage the students to conduct a socially impactful industry oriented project in active collaboration with the industry personal.
- Students may also be encouraged to undertake appropriate training in advanced tools and software's to conduct quality research or benefit from the workshop conducted by the department to excel in higher education or for good placements.

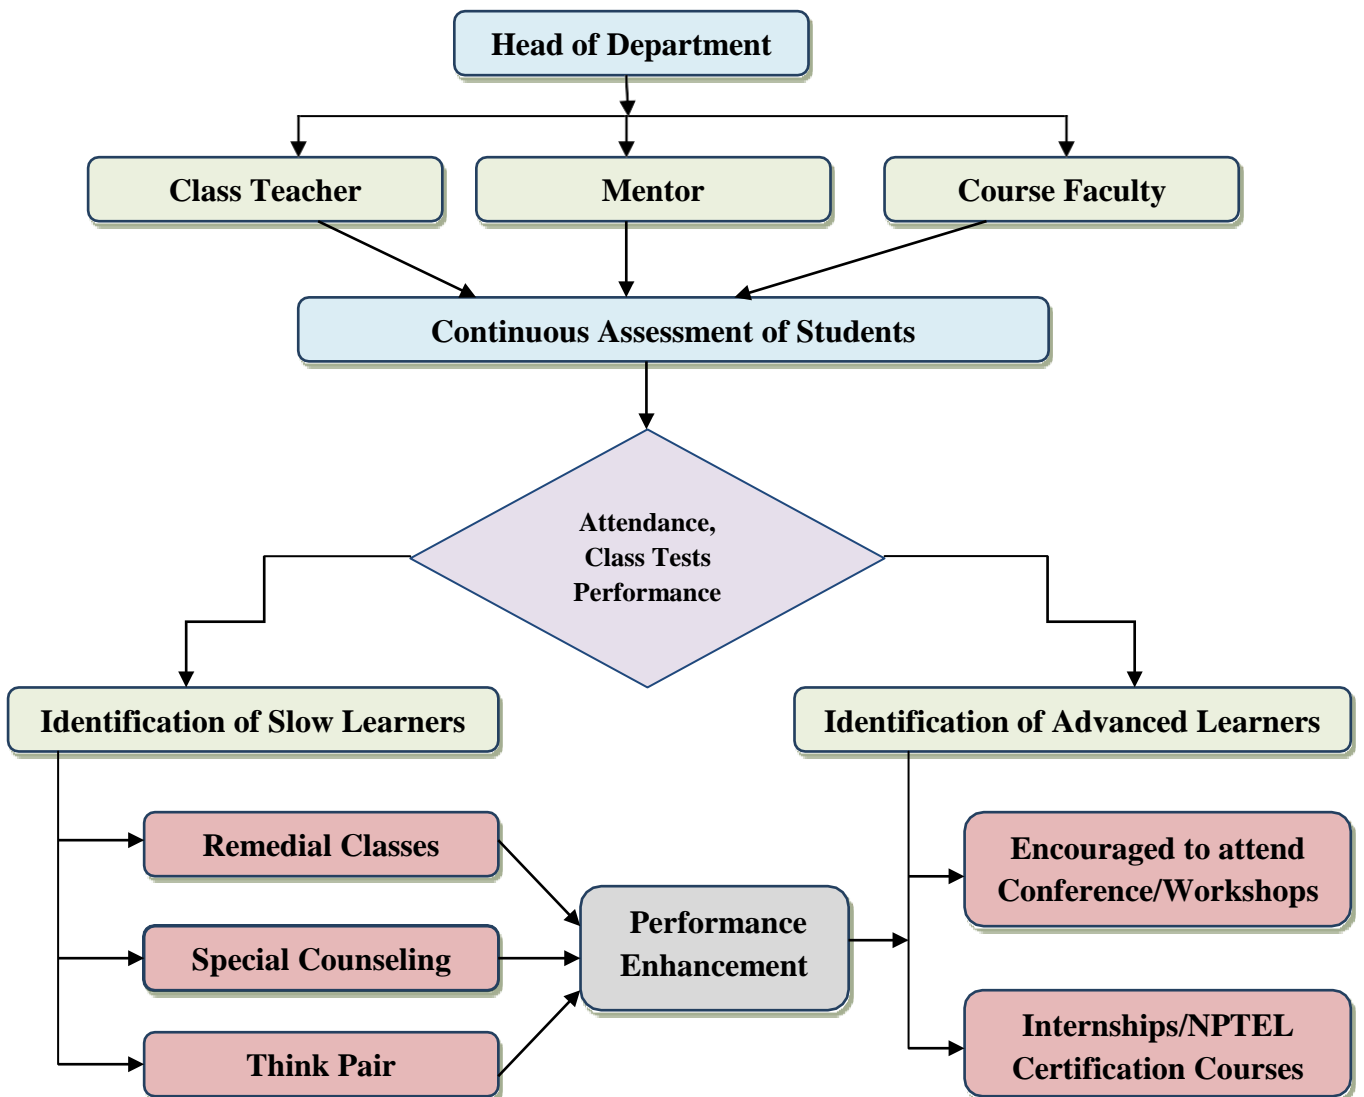

## 3. Re-evaluation

- After the remedial classes, the Slow Learners are to be re-assessed in terms of their performance of next two consecutive Quizzes/Tutorials or 2<sup>nd</sup> Class Test.
- A report stating the improvement in performance of the Slow Learners is to be submitted to the HoD by the faculty.
- If the performance continues to dwindle, the students are to be counselled further by the HoD and the remedial classes (one-on-one) shall be conducted by the faculty of the course.

**Measures taken to encourage advanced learners and slow learners**

**Special programs for advanced learners:**

Advanced learners are identified and they are encouraged to be members of various student chapters like Association for Computing Machinery (ACM), Computer Society of India (CSI), Microsoft Student Society (MSS), Indian Concrete Institute (ICI), Robotics Club, E-Cell, Edification Cell, Engineers Without Borders (EWB), Institute of Electrical and Electronics Engineers (IEEE), Orator's Club, Society for Automotive Engineers (SAE), etc. Some among the members also become office bearers, they are also advised to participate in research and development activities.

**Special programs for slow learners:**

1. For the identified slow learners, is a provision for mentoring system, in order to improve the overall performance. By organizing remedial class in the subjects of difficulty.
2. A personality development workshop and communication enhancement classes are organized to express their knowledge.

Thus it is ascertained that both advanced and slow learners are mentored suitably to cope up with engineering studies.

Dear Fraheen Sultana Mohammed,

Thank you for your interest in pursuing a Master of Science in Electrical Engineering at the University of Colorado Denver.

I am happy to inform you that the Department Graduate Committee approved your application for admission to the Electrical Engineering program beginning spring semester of 2022.

To fulfill the requirements for the MSEE degree, the EE department at CU Denver requires that, within a five-year period, a candidate complete an approved program in one of two options: (a) a thesis option consisting of at least 24 graduate credit hours of coursework, 6 MS thesis graduate credit hours, and completing a MS thesis, or (b) a course only option consisting of at least 30 graduate credit hours of course work, as well as 1 semester of the CEAS seminar.

Please note that only a total of 9 graduate credits can be transferred from other universities to count towards your Master of Science in Electrical Engineering. Also, you are required to begin attending classes the first day of the semester. Based on your stated primary area of concentration within Electrical Engineering, your academic advisor is Dr. Vijay Harid, who may or may not also serve as your research advisor.

This approval does not guarantee or imply financial support. Any questions regarding financial support should be addressed to your advisor. Congratulations on your admission to our MSEE degree program. The faculty and I look forward to your participation in our program.

Sincerely,

Dr. Stephen Gedney  
 Department Chair
