NEW YORK INSTITUTE OF TECHNOLOGY

November 15, 2021

ID #: 1306779

Zeba Urooj Zeba Urooj
5-6-46/A, Falah Sultan Lane
Hyderabad, Telangana 500001
India

Dear Zeba Urooj,

Congratulations! On behalf of the admissions committee, I am pleased to extend you an offer of admission to New York Institute of Technology. You have been admitted to the Bioengineering, M.S. program at our Long Island campus beginning in the Spring 2022 semester. I am pleased to congratulate you on this fine achievement!

As you prepare to enroll at New York Institute of Technology, there are certain conditions that you must fulfill to ensure a successful and smooth matriculation. The Bioengineering, M.S. Department has granted you admission on the condition that you fulfill the below item(s). Assigned core coursework may be discussed with your academic advisor. A list of graduate advisors can be found online at nyit.edu/admissions. You will need to speak to your advisor in order to schedule classes.

Conditions of Acceptance:

Must submit official GRE test scores; Must submit official IELTS test scores

One additional course: BIOL 310. Must submit Official Transcript, & Proof of Original Degree Certificate.

You will receive an official letter with your I-20 in your acceptance package, which will be delivered to you via UPS. This will be prepared once you have submitted your financial documents required for your I-20, including a notarized Affidavit of Support and bank statement with bank seal from your or your sponsor's bank demonstrating financial support.

Please review your official letter for more information about the terms of your admission.

Zeba Urooj, we are quite proud of your accomplishments. When you join us at New York Tech, we'll challenge you with a career-oriented curriculum that will encourage you to develop critical skills and give you hands-on experiences both inside and outside of the classroom.

Your admission is contingent upon successful completion of your academic work now in progress. We encourage you to keep up the good work.

Next Steps

Check your Admitted Student Portal frequently for details about all of your next steps and any upcoming events. We will also send you email reminders to help guide you through your next steps. We look forward to you joining New York Tech! Please accept our offer of admission and secure your place. To deposit, select the "reply to offer" button in this letter. If you are ready, select "accept offer." You will then be prompted to complete your \$500 payment within four weeks.

If you have any questions about your acceptance to the Bioengineering, M.S. program, please email us at nyitgrad@nyit.edu or call us at 810.686.7520 with questions about your admission or any other issues that will help you choose New York Tech as your new home.

Congratulations again, Zeba Urooj! I look forward to personally welcoming you to campus this Spring 2022 semester.

Sincerely,

Karen Varney

LETTER OF RECOMMENDATION

I am delighted to recommend **Mr. Yahya Mujtabab Shareef** to pursue higher studies at your world-recognized and esteemed university. I have known him from past 3½ years studying **Electrical Engineering** at this college, during which I have taught him **Power System Operation & Control (PSOC), Signals & Systems** and **Micro Processor & Micro Controllers** in his past semesters. In the meantime, I have noticed that he has been quite attentive and has always been on time for the assigned tasks.

Mr. Yahya Mujtabab Shareef is a sincere and hardworking student who works independently to excel in his chosen field of study. He has been consistently working on his academic performance while maintaining his class rank in the top 10 students during his undergraduate program.

His abundant personal charm and excellent manners have made him popular among his peers. Undoubtedly, he will be a course of inspiration for others. He keeps himself updated with all the latest technologies. He is always committed and sincere towards his work.

I strongly recommend you consider **Mr. Yahya Mujtabab Shareef** for admission into your reputable university. In my opinion, a student like him should be eligible for admission and financial support in your esteemed university.

Mohd Abdul Mussavir Ahmed is a sincere and hardworking student who works independently to excel in his chosen field of study. He has been consistently working on his academic performance while maintaining his class rank in the top 10 students during his undergraduate program. His ability to ask the right questions at the right time and to do his own research and study outside the classroom not only helped to strengthen the conversation in the classroom but also demonstrated his ability to do research.

His abundant personal charm and excellent manners have made him popular among his peers. Undoubtedly, he will be a course of inspiration for others. He keeps himself updated with all the latest technologies. He is always committed and sincere towards his work. His optimism helps him in handling even the most complex situations. This kind of attitude will surely help him achieving great heights in his life.

I strongly recommend you consider **Mohd Abdul Mussavir Ahmed** for admission into your reputable university. In my opinion, a student like him should be eligible for admission and financial support in your esteemed university.

LETTER OF RECOMMENDATION

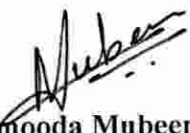

I am delighted to recommend **Syed Sameeruddin** to pursue higher studies at your world-recognized and esteemed university. I have known him from past 3½ years studying **Electrical Engineering** at this college, during which I have taught him **Linear Control Systems and Micro Processor & Micro Controllers** in his past semesters. In the meantime, I have noticed that he has been quite attentive and has always been on time for the assigned tasks.

Syed Sameeruddin is a sincere and hardworking student who works independently to excel in his chosen field of study. He has been consistently working on his academic performance while maintaining his class rank in the top 10 students during his undergraduate program. His ability to ask the right questions at the right time and to do his own research and study outside the classroom not only helped to strengthen the conversation in the classroom but also demonstrated his ability to do research.

LETTER OF RECOMMENDATION

I am delighted to recommend **Shaik Zuber** to pursue higher studies at your world-recognized and esteemed university. I have known him from past 3½ years studying **Electrical Engineering** at this college, during which I have taught him **Electrical Drives & Static Control and Electrical Machine Design** in his past semesters. In the meantime, I have noticed that he has been quite attentive and has always been on time for the assigned tasks.

Shaik Zuber is a sincere and hardworking student who works independently to excel in his chosen field of study. He has been consistently working on his academic performance while maintaining his class rank in the top 10 students during his undergraduate program. His ability to ask the right questions at the right time and to do his own research and study outside the classroom not only helped to strengthen the conversation in the classroom but also demonstrated his ability to do research.

His abundant personal charm and excellent manners have made him popular among his peers. Undoubtedly, he will be a course of inspiration for others. He keeps himself updated with all the latest technologies. He is always committed and sincere towards his work. His optimism helps him in handling even the most complex situations.

I strongly recommend you consider **Shaik Zuber** for admission into your reputable university. In my opinion, a student like him should be eligible for admission and financial support in your esteemed university.

LETTER OF RECOMMENDATION

I am pleased to express my opinion about one of my dedicated students, Ms. Syeda Fatima, who hopes to attend the masters program at your university. I have had the opportunity of observing her closely while teaching electrical technology and Linear Integrated Circuits. Her brilliance and quick grasp power provides an added motivation to her professors.

I would comfortably rate her among the top 10% of the students in her class of 130 students. I got a chance to observe her active participation in many technical events held inside and outside the college. She has a strong desire to pursue something new and different.

I am pleased to know that Syeda Fatima wishes to pursue her higher studies in your esteemed university as step forward towards honing her technocrat attributes and finding a role in research work. I wish her good luck for her future and hope you approve his admit.

LETTER OF RECOMMENDATION

It gives me great pleasure to recommend **Miss Shagufta Rehman** who is aspiring to pursue higher studies at your esteemed university. I have been closely acquainted with her for past three years of her undergraduate course during which I had the opportunity to assess her personality and scholastic capabilities.

During my period of acquaintance with her, as an instructor for various courses, I have observed that **Miss Shagufta Rehman** has the potential to grasp new concepts quickly and constantly takes active part in discussions and has strong ability to defend her ideas. She also accepts beneficial criticism and instructions concerning her work.

Mis Shagufta Rehman has a commendable academic record throughout her studies. She is a hard working, sincere and dedicated student. She has the ability to complete assigned tasks with minimum time that makes her intellectually independent. Creativity, individuality and hard work have been some of the characteristics that I identify her with and these have helped her stand apart from the crowd. It is these qualities that also help her to maintain a good rapport with all faculty members and her fellow students.

Based on her performance, I rank her in top 10% of my students and I believe that she will be a great asset to your university. I wish her all the very best in her future endeavors and strongly recommend her for admission at your university and also for an extension of financial assistance.

LETTER OF RECOMMENDATION

I take this opportunity to write this letter of Recommendation for **Mohammad ArbazAhmed**, who is desirous to continue his further studies from your eminent University. I have taught him courses like Digital Electronics and Logic Design, integrated Circuits and Microprocessors during his second and fourth year of under graduation and his performance during this time have been noteworthy. I also took his Microprocessor Lab course.

He has always been an enthusiastic student, willing to learn new things. As far any coursework or assignments submissions is considered, he has always been punctual for that , making sure everything gets submitted way before the deadlines. This shows his dedication and commitment towards the subjects. He was among the very few students who would meet me after the class to clear his doubts, some of which may go beyond the course curriculum.

During these two years of association, I have even witnessed his certain personal traits which are seen in a good student. He is emotionally matured and good-natured. He has the ability to grasp new concepts quickly.

Taking into consideration all these aspects, I would rate him among the top 5% of all the students I have taught. I would be pleased to recommend him for his graduate studies from your university with suitable assistance.

LETTER OF RECOMMENDATION

I take immense pleasure to recommend Mohd. Wasiuddin for a Master's program in Electrical Engineering at your university. I have known him for the past 4 years during which I had taught him the subjects "Electromagnetic Theory", "Linear Integrated Circuits". I have also taken up a Lab sessions. As a student he is very dedicated to the assignments given to him and finishes them on time. Perseverance, sincerity and thirst for knowledge have always been the hallmark of his personality.

Mr. Wasiuddin is methodical and systematic in approach. He has an analytical bent of mind. His innovative perspective of viewing practical problems based on the fundamental knowledge he acquired all through his course are displayed in his practical courses & other Co-curricular activities, like representing our college in various forums and technical contests.

In fact he has very good ability in solving problems. Not one to prepare monotonously for exams, his approach has always been one of having a thorough understanding of the concepts rather than merely having an exam-centric approach. He also tries answering from what he thinks might happen in the particular system. He tries to link various theories to derive an answer. It would not be out of place to mention that he was the only student who tried to solve a challenging problem in one of my papers and did not attempt any other question for he claimed other ones to be expected questions. This clearly indicated his unconventional character and abstract thinking.

Personally he possesses a zealous attitude towards learning and is always ready to share his knowledge with his batch mates. This became very evident when he volunteered to conduct numerous classroom seminars on various technical and non-technical topics and has handled my lecture hours with his juniors a couple of times.

Wasiuddin is sincere and detailed in his approach and with his positive attitude and willingness to learn more; he will go far in his career and I believe he will be an extremely valuable addition to your university and department. I wish him all the success in his future.

LETTER OF RECOMMENDATION

I am honored to recommend Mr. C.M. Suhail Ahmed as a candidate for the Master's program at your highly regarded university. He has pursued his engineering courses Digital Signal processing, Digital Integrated Circuits under my guidance, I feel there was ample time to judge his caliber.

Based on my affiliation with him, I can vouch for his commitment and perseverance to achieve a goal. With a sound knowledge in electronics, his efficient program writing and hardware designing skills are impeccable. His adaptable nature and conceptual understanding have helped him throughout his engineering. I am impressed by his ability to solve involute quandaries, his competence and efficiency are proved in his achievements. All these qualities have fetched him preeminent offers from companies like Infosys and Tata Consultancy Services Ltd.

He has demonstrated his practical skills in manufacturing robots in his engineering. With expertise in electronics and programming, he has exhibited his extraordinary leadership skills organizing workshops and nurturing juniors in the field of robotics. His exhaustive contribution to the Robotics club was appreciated. These experiences prove his capabilities as a team worker and a leader. His ability to work under pressure manifests his dedication to complete a task.

As his preceptor, I am certain that Mr. Suhail will continue to achieve his goals and strive for excellence. He is an individual who relishes going the extra mile and grabs the opportunity. I rank him among the exceptional students in my class who leave his impression on everyone he meets. Hence, I strongly recommend him as a felicitous candidate for the Master's program at your reputed university.

LETTER OF RECOMMENDATION

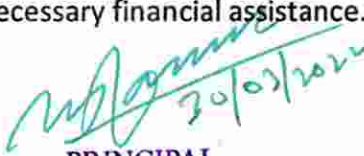

I am indeed very happy to give this recommendation to MR. Mohammed Asif Ali who is known to me very well as a student of our EIE Department.

I had the opportunity to teach him subjects **Digital Electronics and Logic Design** and **Microprocessors and Microcontrollers**. I found him to be particularly good in mathematical derivative analysis and problem analysis towards practical solution and real time models.

Mr. Asif Ali throughout his course of study had consistently a good academic record ranking him among the top 10% of the students have taught. Guiding him in various laboratory and practical sessions I found him to possess good analytical ability.

He gets along very well with others and his work habits are good. All along, I have found him to preserving and dynamic. His distinct expression, resourcefulness and pleasing nature mark him out as man of bright future and remarkable potential. He bears good character and conduct.

Considering his academic performance, aptitude and proven capacity for hard work, explicitness of the thought and expression, I strongly recommend him for higher studies in your esteemed institution with necessary financial assistance.

LETTER OF RECOMMENDATION

I, Md. Umair Quadri, take great pleasure in recommending Mr. Ishran Ali Mohiuddin Shaik to your esteemed university. My interaction with him during the course of his engineering gave me adequate scope to examine him intimately, and to form opinion about his personality and scholastic capabilities and I am glad to present this testimonial for your reference.

Mohiuddin Shaik has been a very interactive and forthcoming student from the beginning. He has been associated with me for past three years where I taught him Instrumentation Systems, Digital Electronics and also carried out the laboratory work for the Linear Integrated Circuits. He has always been at the helm of college events, organizing and managing them with utmost tranquility. Due to these activities, he's constantly in touch with the staff and faculty at every level for directions or permissions and I must say that they are very impressed with his imperturbable nature. All these qualities in him are what I think will help get through his masters course despite the challenging situations.

As far as his academics are concerned, Mohiuddin Shaik has always been inclined towards the practical applications of any subject and this can be noticed by way of very good grades on all practical courses which I consider to be a very essential quality of any perspective graduate student. His punctuality and independence in doing a given job are commendable.

I have no misgiving that he will succeed in achieving his goals. I therefore robustly recommend his application for enrollment in your college's Masters program, and in doing so, I wish this bright young lad the very best for a brilliant and flourishing future.

LETTER OF RECOMMENDATION

I am pleased to express my opinion about one of my dedicated students, Ms. Syeda Zainab Mujeeb, who hopes to attend the masters program at your university. I have had the opportunity of observing her closely while teaching Control Systems. Her brilliance and quick grasp power provides an added motivation to her professors.

I would comfortably rate her among the top 5% of the students in her class of 66 students. I got a chance to observe her active participation in many technical events held inside and outside the college. She has a strong desire to pursue something new and different.

I am pleased to know that Zainab wishes to pursue her higher studies in your esteemed university as step forward towards honing her technocrat attributes and finding a role in research work. I wish her good luck for her future and hope you approve his admit.

Recommendation Letter

I am writing to you in support of Mr. Karrar Nawaz Khan and his desire to attend your university for the master's program. I have had the pleasure of knowing him for the last three years. I have handled some courses for him namely Process control and I have also supervised him in PLC lab work.

I have had the opportunity of observing him closely in my class. In the class, I remember him as a very interactive student who is active in thinking and innovative in viewpoint. His exceptional analytical skills of the subject makes him an ideal student for a research-based course this is evident from his mini projects. He is sincere and hard working. He bears a good character and conduct.

He is responsible and mature person who has good originality, creativity, determination, at the same time he is very hardworking. His excellent analytical abilities and grasping power will prove to be an asset for him in his higher studies.

I consider him to be an indispensable member; he is both professionally and academically sound in his chosen field of specialization. I am pleased to strongly recommend him for admission in your master's program. I am confident that he will show excellent performance in higher studies.

LETTER OF RECOMMENDATION

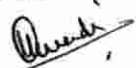

I am writing this letter to recommend Mr. Shaik Faiz Ahmed, who is seeking admission into a Master's Program at your university.

Faiz Ahmed is passionate about learning every possible new idea in the courses he attended. I taught him Digital Electronics and a lab course on Linear Integrated Circuits in 3rd year of his undergraduate studies. He always showed keen interest during lectures and was among the students to respond to my questions. He is sincere, dedicated and has fast grasping skills.

One characteristic point, worthy of apprising, would be his ability to manage extracurricular activities along with academics. Although he was part of various college organizations and their activities, his scores were well above par. The submission of assignments well before the deadlines and being receptive to the corrections also reflected his dedication towards the subject. He was always confident in public relations and welcomed opportunities to share ideas and knowledge with others. Altogether with his mature outlook, learning abilities, problem-solving skills, and keen observation, I consider him a dedicated and hard-working personality.

His intense enthusiasm, persistent attitude, and intellectual curiosity led him to become deeply involved in his work and to succeed in it. In consideration of these attributes, I believe that the graduate program at your esteemed university may fulfill his professional ambition. I strongly recommend him for higher studies in the field of his choice.

LETTER OF RECOMMENDATION

I find great pleasure in outlining the achievements of Mr. Jassim Abdul Rahman who under my guidance showed immense competitiveness and interest in various areas during the course duration in this institution. My interaction with him was initiated when I had an opportunity to teach him Electrical Technology, Electromagnetic fields and waves.

Secondly, early in his student life, he acknowledged the importance of a hands-on approach; I made aware of him inquisitive nature towards experimenting with my colleagues. This precedence gave me the interest to guide him in his final year project. He worked on the tools like MATLAB and Python to execute this project. His different and wide viewpoints on various topics amazed me; also his technical and analytical thinking was appreciated at various levels. Further, Abdul Rahman is unusually gifted with a keen sense of finding nuances also he is unrelenting and tireless when it comes to meeting deadlines. I find him extremely forward-looking by challenging the existing status quos which is in my view the first step towards innovation.

In addition to that, his persistence application of ideas when met by hurdles and bottlenecks is extraordinary. While he launched himself effectively into various programs, he was also found motivating others.

I would strongly recommend him for an admission to your Post-Graduate Program preferably with financial aid and Assistantship that you may have to offer to a deserving student. I wish him every success in his Postgraduate studies and further his successful career.

LETTER OF RECOMMENDATION

It gives me great pleasure in recommending **Mr. S Pavan**. I know him for the past four years as I have taught him the courses namely **Control Systems and Process control**.

Pavan is a diligent student, dedicated to his work. A notable thing about him is that he is not a procrastinator - and usually ends up finishing his work ahead of time. These very qualities, coupled with a friendly and engaging demeanor, brought him to my notice very quickly. During my interactions with him, he has impressed me with his outstanding ability to grasp and understand concepts quickly. His excellent grades in the courses reflect his logical thinking and analytical mind. Pavan was an active participant in class discussions and the nature of doubts he brought to the fore clearly showed how well he related the theoretical concepts to real life practical situations. His enthusiasm in learning the subject and a liking to go beyond the theoretical purview is exceptionally commendable and well demonstrated by his projects.

I am sure that the young gentleman will succeed academically at a foreign university and will adjust well to a different cultural environment. The exceptional maturity that he has displayed at such a young age will stand him in good stead. Given all these attributes I have no doubt whatsoever that he will be an asset to the research group at your university. I highly recommend pavan to the graduate program in Electrical Engineering at your university.

LETTER OF RECOMMENDATION

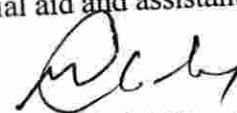

It is with utmost pleasure and enthusiasm that I recommend Ms. P. Swapna to your institution. She was my student for the subjects 'Digital Signal Processing, PLC and embedded Systems' during her study in Engineering in the department of EIE at MJCET. As her course instructor I have had the opportunity to observe Swapna and I can without any hesitation say that she is one of the most humble and dedicated students of her batch.

She portrayed excellent academic skills in my subject. During my interactions with her, I have observed that she is open to criticism and praises alike. Her willingness to accept suggestions and her constant strive to better herself despite being one of the top students of her batch, makes her, in my opinion, eligible to face any challenge in life.

Swapna is a reliable and disciplined person. Further, she has the capacity of adapting herself to new and challenging environments. She also has sound communication skills and interacts well with her teachers and fellow students.

Her academic excellence along with her other qualities according to me, will benefit any institution that she is a part of and she aspires to be a part of your esteemed university. I therefore wholeheartedly recommend Swapna to your institution with full financial aid and assistantship.

LETTER OF RECOMMENDATION

As the Lecturer, I have been closely associated with **Ms. Chunarkar Priya** in laboratory sessions and classes, for the past 3 years. I have taught her subjects **Digital Electronics, Linear Integrated Circuits Lab**. Her performance in all these subjects is excellent. I would rate her in the top 10% of the students I had been teaching in the last 10 years.

In this long association I had ample opportunity to access her Professional and Personal abilities and I must say **Ms. Priya** is a person with good grasping and analyzing abilities. The most important point I personally noticed in her is whenever any work is assigned to her, she takes it with a challenge and works on it to the maximum extent possible to complete the work in time. She goes through all the available material, collects information from library, discusses it with her colleagues, her seniors and the related faculty to do the assigned work differently and precisely. This makes her Unique among other students.

Other than Academics she is one of the best students in **Extra Curricular Activities**. She is successful in implementing a **mini project** during her Second year. She is a positive attitude person with excellent communication skills. She is able to establish a good Rapport with her colleagues and lecturers. She has qualities of a good team leader and has organized various events during the college fests. She has a high potential for Graduate Study. Her sound academic background, ability to think independently and her practicability in tackling innovative problems made her an Ideal Research Student. I strongly recommend **Ms. Priya** for her studies in your University with maximum possible Scholarship and Financial Aid.

Letter of recommendation

It gives me immense pleasure in writing a letter of recommendation for Mr. G. Venkanna, whom I know for almost two years now, having taught him "Digital Electronics and Logic design" in second year, semester 2 and "Microprocessors and Microcontrollers" in fourth year, semester 1, also supervising his "Microprocessors and Microcontrollers lab" in his current semester. So having learned a great deal about him and his abilities, I know he would do well if given the opportunity to continue his education.

He has performed well academically in my subjects and was in top 10% among his class of 60 students. His performance in class has been of a high order and he has shown diligence and serious interest in my subjects. He has always completed his assignments on time and shown his individuality in them.

At a personal level, Mr. Venkanna is a well disciplined, industrious student with a pleasant personality. He is unstinting in his efforts to keep abreast with the latest technologies, indefatigable in showing the application of theory to practice in the laboratory.

Given his ability and commitment I believe that Mr. Venkanna has the potential to undertake higher studies. I therefore strongly endorse his application for admission and also for financial aid.

Email ID: ayeshanaaz@mjcollege.ac.in

To Whomsoever It May Concern

I am glad to recommend **Ms. Faiza Tarannum** for the master's program at your excellent university. I was not only her teacher but also her major project guide. In the 5th and 6th semesters of her studies, I taught her **Digital signal processing** and **Digital Image processing**, respectively. I found him to be very obedient, focused on her studies, and eager to put his knowledge into practice by making projects.

In terms of academics, she is a bright student who has regularly performed well and received decent grades. She is well-versed in the principles of these areas. Before the commencement of her seventh semester, she created a **Image processing** project in MATLAB. Not limiting their knowledge to themselves, she and her peers used to conduct workshops for their juniors, assisting them in gaining knowledge and developing creative projects. She is expressive and can effectively express herself in formal teaching and as well as in informal chats. In addition, she and two friends completed their final year project with my assistance as their project mentor. They were also able to integrate software and hardware on a microcontroller. As a mentor, I've had the opportunity to observe him up close. She is a person who is motivated and enjoys his work.

I concur with his desire to pursue a Master's degree and am confident that she will continue to do well. As a result, I strongly urge you to consider her for admission to your prestigious institution. Please contact me if you have any questions about this recommendation, and I will try my best to help you.

To Whomsoever It May Concern

I have had the pleasure of knowing **Ms. Damisetti Savitri Devi** during my teaching her batch. She has been a wonderful student and an asset to our college. I would like to take this opportunity to recommend her for the Graduate program at your esteemed university. I have known her for the past three years as an undergraduate student. I interacted with her both in the classroom and in the laboratory. I taught her subject like "Electronic Measurement and Instrumentation" and also I mentored him in "Analog Communication LAB".

I feel confident that she will continue to succeed in his studies. She comes across as a sincere, diligent, and self-reliant person with a pleasing demeanour. She is a dedicated student, and she has proven to be a take-charge person who is able to successfully develop plans and implement them. Her knowledge of the fundamentals, analytical ability, and effortless assimilation of concepts accompanied by his assiduous efforts are commendable. She has the right sense of merit, understanding, and dedication in the assignments and in-class topic seminars she had presented.

In my view, **Savitri Devi** compares favourably among my students. I am sure she will make an outstanding graduate student. I take great pride to recommend her strongly, as she will undoubtedly prove to be an asset to any institute she chooses to join. Considering her motivation, perseverance, and intelligence, I strongly believe that she will scale the highest peaks in his fields of interest. Hence, I strongly recommend her, without any hesitation, for admission into your graduate program.

To Whomsoever It May Concern

It gives me immense pleasure to write this letter of recommendation for **Ms. Jahnavi Potluri**, who is keen on pursuing a master's program at your prestigious university. For the last three years, she is well-known to me as a brilliant student in the department. I have taught her "**Digital Signal Processing**" in the 5th semester which has given me enough opportunity to assess her commitment and enthusiasm towards her studies. I would like to say a few facts about her that impressed me the most.

Jahnavi Potluri is sincere, honest, and a workaholic. She is a sharp learner with strong analytical and computational skills. She regularly follows the classwork thoroughly to understand the course concepts. Throughout his course of study, she has shown great interest in the subjects and always aimed at digging deeper into the concepts and how to apply them practically. During the classes, I always found her to be very innovative in solving complex problems. We engaged in several course-related discussions as well in which she confidently talked about his aspirations towards higher education and research work in robotics.

Her organized approach and constructive attitude set her apart from others. She is also held in good esteem by many other faculty members. I rank her among the top 5% of his Graduating class in all respects of his curricular and extra-curricular performances.

I have no hesitation in recommending **Jahnavi Potluri** for the master's program in your esteemed university as she is a keen student willing to invest every ounce of her time and energy on studies. I am sure that she will meet the requirements of your stringent selection process and make your institution proud. I wish her success in her future academic and professional studies.

LETTER OF RECOMMENDATION

As a Professor of Department, I am pleased to recommend Ms.Mohammed Amreen Sultana for the Masters Program in your esteemed university. I have known her for the past 7 years as she has maintained good contact with me even after graduation. I have supervised her in Final year project in the area of Signal Processing. During this time I have had interactions with her on an academics and personal level.

I have known her to be an amicable person with excellent communication skills. She has taken up several other initiatives and excelled in them. Her sound academic background; ability to think independently and her practical ability in tackling innovative problems make her an idle research student. Her presentations of report and Project seminar have been profound. She is well focused with a keen interest in the practical application of the subject.

Sultan is skilled at identifying the most important issues, even in the most complex situations. Doing well academically has not limited her involvement in other sectors. She has successfully represented college at various external competitions and also organized events and Student Technical festivals in the college in an exceptional way. She has excellent command over written and spoken English; therefore communication with her has never been a problem. Her interaction within peer group and helping nature is a quality that is commendable in her.

I found her highly motivated to do graduate studies and research. I believe that she will do well in a PG course and will blend well into the any new environment. Hence, I strongly recommend her for admission into your esteemed university. I wish her all the success in academic and professional carrier.

To Whomsoever It May Concern

It is my honour to give a testimonial demonstrating the qualities and skills of **Mr. Mohd. Safwan Hussain** who is seeking to pursue higher education at your esteemed university. During his undergraduate program I have closely mentored him and taught Switching Theory and Logic Design (STLD) and Data Communication and Computer Network (DCCN) as theory subjects in the third semester and sixth semester respectively. I was also in charge of the Pulse Digital and Integrated Circuit (PDIC) Laboratory in the fourth semester and the Integrated circuits (IC) Laboratory in the fifth semester. He showed a keen interest in his lab work and is eager to learn practical concepts.

I have noticed his meticulous determination and attentive nature in my subjects which made me have great expectations from him, and I also observed growth in his talent and skills throughout our journey as teacher and student. His ingenious mind has the ability to comprehend concepts and apply them in practical scenarios is extraordinary and has impressed me. He has been one of the brilliant students of my class and fervent in the labs and did exceptionally well by scoring 10/10 in Pulse Digital and Integrated Circuit (PDIC) Laboratory and 9/10 in Integrated circuits (IC) Laboratory. He is a sincere, hardworking, and industrious student.

As an initiative-taking person with a cheerful outlook towards any aspect whether it be in regard to life or academics, I have a sincere belief that **Safwan** is a person who can bring uniqueness, energy, and creativity with his enthusiasm in any program he joins. With his positive mentality, he can accomplish his ambition of pursuing higher education in the domain of computer science. He will have advancement in his knowledge and become an elite professional person under the guidance of your esteemed faculty and staff. From my experience with him and his merits, I would like to recommend him to your university for the graduate program.

LETTER OF RECOMMENDATION

I am glad to give a testimonial attesting the qualities and abilities of **Mr. Syed Sohaib Ali** to pursue higher studies at your esteemed institution. I have closely followed his progress during both of his years during which I have taught him the subject **Neural Networks** as well as served as his Project Supervisor during his 3rd and 4th semesters until the completion and submission of his thesis.

Ali is a student with immense academic potential. As his professor, I have come across many instances of his academic brilliance during his graduate course. I noticed his keen interest when he joined my class "**Modern Digital Communications**". It was evident from the beginning that he had a strong interest in the subject matter. His performance during the course of his project, seminars and thesis writing was par excellence as can be attested by his excellent grades during both semesters of his final year here.

In particular, he has exhibited considerable interest in specializing in "Digital Communications" and "Computer Networks". He has frequently discussed details related to the same and during these interactions with him, I was happy to see that he has a good grasp of these subjects. I am sure he can make a successful researcher through his consistent hard work and dedication.

I am glad to strongly recommend him for Post-Graduate studies with all the necessary financial aid. I wish him luck in all his future endeavours.

LETTER OF RECOMMENDATION

I am delighted to recommend **Mr. Mohammed Saif Ur Rahman** to pursue higher studies at your world-recognized and esteemed university. I have known him from past 3½ years studying **Electronics and Communications Engineering** at this college, during which I have taught him **Neural networks and Digital Design with HDL** in his past semesters. In the meantime, I have noticed that he has been quite attentive and has always been on time for the assigned tasks.

Rahman is a sincere and hardworking student who works independently to excel in his chosen field of study. He has been consistently working on his academic performance while maintaining his class rank in the top 10 students during his undergraduate program. His performance in subjects such as Antenna & Wave Propagation and Microwave Techniques was exemplary, indicating his immense interest in these subjects. His ability to ask the right questions at the right time and to do his own research and study outside the classroom not only helped to strengthen the conversation in the classroom but also demonstrated his ability to do research.

His abundant personal charm and excellent manners have made him popular among his peers. Undoubtedly, he will be a course of inspiration for others. He keeps himself updated with all the latest technologies. He is always committed and sincere towards his work. His optimism helps him in handling even the most complex situations. This kind of attitude will surely help him achieving great heights in his life.

I strongly recommend you consider **Rahman** for admission into your reputable university. In my opinion, a student like him should be eligible for admission and financial support in your esteemed university.

LETTER OF RECOMMENDATION

It is with no hesitation that I write this letter to recommend Mr. **Mohd. Ismail Khan** to your esteemed university. I taught him 'Data communication and computer networking' in his third year second semester in which he performed well.

He has shown a great promise by venturing beyond the scope of the subject. He has drawn my attention to his resourceful ideas. As a student, he is a very diligent person and has good grasping power, he makes sure that he fully understands the basics and applies these concepts to more challenging problems.

His self-confidence, technical optimistic approach and mature outlook hold in good stead for pursuing a course that requires a lot of hard work and dedication. He actively participates in college technical and cultural activities. Being a witness to this kind of dedication I rate his research capabilities are high.

I strongly feel that a student of his caliber and promise will be an asset to your department and therefore, recommend him enthusiastically for a Master's program in your university with maximum possible monetary aid. I wish him all the best and success in his future endeavors.

LETTER OF RECOMMENDATION

It is a great pleasure to write this letter of recommendation for **Mr. Mohammed Mazher Yousuf** to pursue his Master's at your University. I have known **Yousuf** for over four years, primarily as Professor at Muffakham Jah College of Engineering and Technology. I have closely mentored him throughout his undergraduate studies and so can appraise both his technical and managerial abilities.

Yousuf was among the brightest students of his class. I noticed his intellectual inquisitiveness and the passion for engineering when he used to clear his doubts of the concepts taught and was very good at putting the theoretical knowledge in practice during lab sessions

"Signal Processing" was his major project's domain and as his project advisor I noticed his effort and creativity that he put in the project from the start till end, also being one of the member of judging panel I analyzed his logical and analytical skills which were quite astonishing, he successfully completed the project in advanced reserach area with an excellent grade because of his determination and hard work.

Yousuf is a rare find. He is well-trained, ambitious, and detail-oriented. His enthusiasm reflects in his work. I **strongly recommend** him for admission to the graduate program at your university and also with the possible Financial Aid. Please feel free to contact me for any further clarifications.

LETTER OF RECOMMENDATION

I am pleased to recommend **Mr. Shaik Sohail** for the Master's Programmed of Study at your esteemed university. I have found him to be an extremely hardworking, sincere and industrious student. I have closely observed him as a professor for the "Micro Wave Techniques (MWT)" and "Global Navigation Satellite System (GNSS)", and I am also aware of his academics. He has always been a learning enthusiast and has been quite consistent with his assignments and projects.

From my observation, I would like to say that **Sohail** has been an active participant in the classroom discussions. My interaction with him gave me an ample opportunity to watch him from close quarters in many aspects and to estimate him theoretical and practical capabilities. During his interaction with me, he proved himself to be a student of high potential and a promising talent. He demonstrated a great deal of self-confidence, intellectual ability, personal character combined with leadership qualities.

Sohail has proved equally better both in academics and extra-curricular activities in and out of the college. He actively participated in all the workshops conducted through the technical symposium of our department and gained appreciation at each and every level. Given his passion for the subject and enthusiasm about knowing more about technology. He always used to attend different workshops. He has been a part of IEEE student chapter. He has attended the workshop on Internet of Things (IoT) which helped him understand about the future technologies. Sameer has strong communication and presentation skills. He has given seminars on topics such as Lifi and 5G Technology.

I strongly recommend him for admission in the MS Program at your esteemed University. I wish him all the success in future. Please feel free to contact me for any further information.

LETTER OF RECOMMENDATION

I am pleased to give this letter of recommendation to Mr. **Jakkam Pudi Sathya Trinath** from the Electronics and Communication Engineering Department. I have known **Trinath** for the last three years as a student. In my capacity as Assistant Professor in the department, I have taught him subjects like Neural networks, Digital Design with HDL and also handled lab for these subjects. I was also the Project Seminar incharge for **Trinath**.

During my interaction with **Trinath** I found that he possessed good analytical capabilities and displayed the ability of understanding complex things easily. Further, He is fine with his mathematical and programming skills as observed in the lab. He has had some medical problems during the coursework due to which he could not give his best performance in the exams which is reflected in the mark sheet.

It is also worth mentioning that **Trinath** has got good rank in qualifying exam for Engineering stream and has shown credible performance in GRE exam. But I am strongly of the opinion that he should be given an opportunity to pursue masters in the field of Business Administration because of his specific interest in the field of business. I wish him all the best for his future.

LETTER OF RECOMMENDATION

I write this letter in favor of **Mr. Mohammed Abdul Nayeem**, who is seeking admission in the Master's program at your prestigious university. I have known him for four years of his undergraduate programme. I have taught him core electronic engineering subject like "Pulse Linear and Integrated Circuits" and have supervised him in the allied work.

Nayeem is sincere, honest, hardworking and a focused student. He attends the classes regularly and understands the basic concepts and principles thoroughly in the classroom discussions and co relate to practical engineering applications. He is a quick learner and very good in problem solving and analytical skills.

Nayeem is calm and composed, well balanced in decision making. He mingles with faculties and fellow mates through his positive thoughts and very good interpersonal communication skills. I appreciate his sense of responsibility and belongingness. I consider him as task master who accomplishes the given task with focus on quality and perfection. He is suitable for research and teaching in the chosen field of engineering and will be an asset for the any organization.

I strongly recommend the candidate for higher education at your esteemed university with all possible financial support. I wish him all the best in his future endeavors.

To Whomsoever It May Concern

I am delighted to recommend **Mr. Mohammad Abdul Mannan** to pursue higher studies at your world-recognized and esteemed university. I have known him from past 3½ years studying **Electronics and Communications Engineering** at this college, during which I have taught him **Antenna and Wave Propagation, Microwave Techniques** and **Microwave Lab** in his past semesters. In the meantime, I have noticed that he has been quite attentive and has always been on time for the assigned tasks.

Mr. Mohammad Abdul Mannan is a sincere and hardworking student who works independently to excel in his chosen field of study. He has been consistently working on his academic performance while maintaining his class rank in the top 10 students during his undergraduate program. His performance in subjects such as Antenna & Wave Propagation and Microwave Techniques was exemplary, indicating his immense interest in these subjects. His ability to ask the right questions at the right time and to do his own research and study outside the classroom not only helped to strengthen the conversation in the classroom but also demonstrated his ability to do research.

His abundant personal charm and excellent manners have made him popular among his peers. Undoubtedly, he will be a course of inspiration for others. He keeps himself updated with all the latest technologies. He is always committed and sincere towards his work. His optimism helps him in handling even the most complex situations. This kind of attitude will surely help him achieving great heights in his life.

I strongly recommend you consider **Mr. Mohammad Abdul Mannan** for admission into your reputable university. In my opinion, a student like him should be eligible for admission and financial support in your esteemed university

LETTER OF RECOMMENDATION

I'm pleased to recommend my student, **Mr. Md. Mohammed Yaseen** for admission to the master's program at your esteemed university. I have taught him two courses in his undergrad program namely, **Verilog HDL Design, and Basic Circuit Analysis**. During this time, I've had an opportunity to closely monitor his progress, as I was his counsellor.

To my best understanding and reading of his personality, **Yaseen** is a dedicated, sincere student. He plays utmost attention and actively participates in academic discussion in and outside the class. Besides this, he is also actively participated in several events and workshops on skill development programs on digital systems.

I have observed that he has continuously improved during his course of study. He is regular in his studies and punctual in his submission of records and assignments. I found him to be a highly motivated, competent student. He is capable of understanding the related practical issues involved in the problem and comes up with practical solutions.

I believe his sound knowledge of fundamentals, a truly remarkable capability to apply proposition to practical situations, and a high provocation to keep abreast with the latest information in his field of study will help him in post graduate program also. I strongly recommend him for his admission to the graduate program at your university.

LETTER OF RECOMMENDATION

It is a great pleasure to write this letter of recommendation for **Mr. Mani Harsha Mandalapu** to pursue his Master's at your University. I have known Harsha for over four years, primarily as Professor at Muffakham Jah College of Engineering and Technology. I have closely mentored him throughout his undergraduate studies and so can appraise both his technical and managerial abilities.

Harsha was among the brightest students of his class. I noticed his intellectual inquisitiveness and the passion for engineering when he used to clear his doubts of the concepts taught and was very good at putting the theoretical knowledge in practice during lab sessions

"Signal Processing" was his major project's domain and as his project advisor I noticed his effort and creativity that he put in the project from the start till end, also being one of the member of judging panel I analyzed his logical and analytical skills which were quite astonishing, he successfully completed the project in the field of communication with an excellent grade because of his determination and hard work.

Harsha is a rare find. He is well-trained, ambitious, and detail-oriented. His enthusiasm reflects in his work. I **strongly recommend** him for admission to the graduate program at your university and also with the possible Financial Aid. Please feel free to contact me for any further clarifications.

LETTER OF RECOMMENDATION

I am pleased to give this letter of recommendation to **Mr. Mohd. Tameem Osama** in the Electronics and Communication Engineering Department. I have known **Osama** for the last three years as a student. In my capacity as Assistant Professor in the department. I have taught him subjects like Microprocessor and microcontrollers, Digital Design with HDL and also handled lab for these subjects. I was also the Project Seminar incharge for **Osama**.

During my interaction with **Osama**, I found that he possessed good analytical capabilities and displayed the ability of understanding complex things easily. Further, He is fine with his mathematical and programming skills as observed in the lab. He has had some medical problems during the coursework due to which he could not give his best performance in the exams which is reflected in the mark sheet.

It is also worth mentioning that **Osama** has got good rank in qualifying exam for Engineering stream and has shown credible performance in GRE exam. But I am strongly of the opinion that he should be given an opportunity to pursue masters in the field of Business Administration because of his specific interest in the field of business. I wish him all the best for his future.

LETTER OF RECOMMENDATION

I am glad to give a testimonial attesting the qualities and abilities of **Mr. Mohd. Junaid** to pursue higher studies at your esteemed institution. I have closely followed his progress during both of his years during which I have taught him the subject **Data Communication and Computer Networks** as well as served as his Project Supervisor during his 3rd and 4th semesters until the completion and submission of his thesis.

Junaid is a student with immense academic potential. As his professor, I have come across many instances of his academic brilliance during his graduate course. I noticed his keen interest when he joined my class "**DCCN**". It was evident from the beginning that he had a strong interest in the subject matter. His performance during the course of his project, seminars and thesis writing was par excellence as can be attested by his excellent grades during both semesters of his final year here.

In particular, he has exhibited considerable interest in specializing in "Digital Communications" and "Computer Networks". He has frequently discussed details related to the same and during these interactions with him, I was happy to see that he has a good grasp of these subjects. I am sure he can make a successful researcher through his consistent hard work and dedication.

I am glad to strongly recommend him for Post-Graduate studies with all the necessary financial aid. I wish him luck in all his future endeavours.

LETTER OF RECOMMENDATION

It gives me immense pleasure to recommend **Mr. Mohammed Abdul Quavi Muaaz** for the Master's program in your esteemed university, whom I've known for the past four years where I have taught him two courses – Pulse Linear Integrated Circuits and Micro Wave techniques. He has an inherent desire to improve and work towards perfection, which reflects in his academics.

As a person who is always ready to take up responsibilities, he carries out his duties with diligence and exuberance. He has also demonstrated adeptness at organizational skills. I vividly remember his role, taking part in Lamakaan Amateur Radio Conference (LARC 2018). Keeping in mind his capabilities, I appointed him as the member of the technical team of the HAM Radio Club at MJCET.

In my experience as the Head of Department, I have taught many talented students but **Muaaz** stands out in a number of ways. The first thing I noticed about him was his innovative approach to solve problems. It's common to see a lot of hardworking and determined students in this field, but what makes **Muaaz** unique is his hands-on approach and his drive to get to the depth of things. He keeps himself updated with the latest trends and innovations in science and technology. Above all, he is a humble person and understands the organizational structure and maps the resources to complete the given work.

You can rest assured that he will give his best to accomplish any task assigned to him and will prove to be a valuable addition to your institution. I grade him among the top 5% of the students of his batch of 120 students. I thus strongly recommend his admission to the Graduate program at your esteemed University with adequate financial aid, and also recommend him for teaching/ research assistantship at your preference.

LETTER OF RECOMMENDATION

I have had the pleasure of knowing **Ms. Fatima Fareeha** during my teaching her batch. She has been a wonderful student and an asset to our college. I would like to take this opportunity to recommend her for the Graduate program at your esteemed university. I have known her for the past three years as an undergraduate student. I interacted with her both in the classroom and in the laboratory. I taught her subject like "Wireless Sensor Networks" and also I mentored her in "DCCN LAB".

I feel confident that she will continue to succeed in her studies. She comes across as a sincere, diligent, and self-reliant person with a pleasing demeanour. She is a dedicated student, and she has proven to be a take-charge person who is able to successfully develop plans and implement them. Her knowledge of the fundamentals, analytical ability, and effortless assimilation of concepts accompanied by her assiduous efforts are commendable. She has the right sense of merit, understanding, and dedication in the assignments and in-class topic seminars she had presented.

In my view, **Fareeha** compares favourably among my students. I am sure she will make an outstanding graduate student. I take great pride to recommend her strongly, as she will undoubtedly prove to be an asset to any institute she chooses to join. Considering her motivation, perseverance, and intelligence, I strongly believe that she will scale the highest peaks in her fields of interest. Hence, I strongly recommend her, without any hesitation, for admission into your graduate program.

LETTER OF RECOMMENDATION

I am writing in support of **Ms. Syeda Azra Mohi** who has applied for the masters program at your university. I have taught her for duration of 2 years over which I have taken up subjects VLSI. In my experience I have found Erum to be a very sincere and attentive student. She is well versed with the basic concepts of electronics and communication which makes her a very intelligent student.

She is quick to adapt and is a very focused person. Her careful attention to details and ability to meet deadlines is commendable. Her organized personality makes her an efficient worker who goes beyond what is required to complete the tasks at hand. Academically, **Mohi** has always proven to be among the top 10 students of my class. The tests and exams conducted are a proof. Through the course she has taken up various research topics related to the communication sector and has shown keen interest to learn further. Her curiosity towards the subjects makes her an asset to the college.

Professionally I have the highest regards for her and personally I would endorse **Mohi** for admission into her desired course at your university. I am strongly convinced she will contribute to the research activities and will be a great addition to your university with her skills and quest for more knowledge. I hence believe that she should be seriously considered as a strong candidate for admission. I hope this letter proves helpful and request you to contact me if you require any further information regarding her exceptional capabilities.

LETTER OF RECOMMENDATION

I have had the pleasure of knowing **Ms Ayesha Sultana** during my teaching her batch. She has been a wonderful student and an asset to our college. I would like to take this opportunity to recommend her for the Graduate program at your esteemed university. I have known her for the past three years as an undergraduate student. I interacted with her both in the classroom and in the laboratory. I taught her subject like "Neural Network" and also I mentored him in "Workshop LAB".

I feel confident that she will continue to succeed in his studies. She comes across as a sincere, diligent, and self-reliant person with a pleasing demeanour. She is a dedicated student, and she has proven to be a take-charge person who is able to successfully develop plans and implement them. Her knowledge of the fundamentals, analytical ability, and effortless assimilation of concepts accompanied by her assiduous efforts are commendable. She has the right sense of merit, understanding, and dedication in the assignments and in-class topic seminars she had presented.

In my view, **Sultana** compares favourably among my students. I am sure she will make an outstanding graduate student. I take great pride to recommend him strongly, as she will undoubtedly prove to be an asset to any institute she chooses to join. Considering her motivation, perseverance, and intelligence, I strongly believe that she will scale the highest peaks in her fields of interest. Hence, I strongly recommend her, without any hesitation, for admission into your graduate program.

To Whomsoever It May Concern

I am glad to recommend Ms. Afroze Unnisa for the master's program at your excellent university. I was not only her teacher but also her major project guide. In the 5th and 6th semesters of her studies, i taught her Microprocessors and Microcontrollers, and VLSI, respectively. I found her to be very obedient, focused on her studies, and eager to put her knowledge into practice by making projects.

In terms of academics, she is a bright student who has regularly performed well and received decent grades. She is well-versed in the principles of these areas. Before the commencement of her seventh semester, she created a Image processing project in MATLAB. Not limiting their knowledge to themselves, she and her peers used to conduct workshops for their juniors, assisting them in gaining knowledge and developing creative projects. She is expressive and can effectively express herself in formal teaching and as well as in informal chats. In addition, she and two friends completed their final year project with my assistance as their project mentor. They were also able to integrate software and hardware on a microcontroller. As a mentor, I've had the opportunity to observe him up close. She is a person who is motivated and enjoys his work.

I concur with her desire to pursue a Master's degree and am confident that she will continue to do well. As a result, I strongly urge you to consider her for admission to your prestigious institution. Please contact me if you have any questions about this recommendation, and I will try my best to help you.

To Whomsoever It May Concern

It is with no hesitation that I write this letter to recommend Ms. *Syeda Adeeba Jahan* to your esteemed university. I taught her Microprocessors and Microcontrollers, and VLSI in which he performed well.

She has shown a great promise by venturing beyond the scope of the subject. She has drawn my attention to her resourceful ideas. As a student, she is a very diligent person and has good grasping power, she makes sure that she fully understands the basics and applies these concepts to more challenging problems.

Her self-confidence, technical optimistic approach and mature outlook hold in good stead for pursuing a course that requires a lot of hard work and dedication. She actively participates in college technical and cultural activities. Being a witness to this kind of dedication I rate her research capabilities are high.

I strongly feel that a student of her caliber and promise will be an asset to your department and therefore, recommend her enthusiastically for a Master's program in your university with maximum possible monetary aid. I wish her all the best and success in her future endeavors.

LETTER OF RECOMMENDATION

I am delighted to recommend Mr. Shaik Noor Mahammad to pursue higher studies at your world-recognized and esteemed university. I have known him from past 3½ years studying Electronics and Communications Engineering at this college, during which I have taught him Neural Networks and VLSI in his past semesters. In the meantime, I have noticed that he has been quite attentive and has always been on time for the assigned tasks.

Noor is a sincere and hardworking student who works independently to excel in his chosen field of study. He has been consistently working on his academic performance while maintaining his class rank in the top 10 students during his undergraduate program. His performance in subjects was exemplary, indicating his immense interest in these subjects. His ability to ask the right questions at the right time and to do his own research and study outside the classroom not only helped to strengthen the conversation in the classroom but also demonstrated his ability to do research.

His abundant personal charm and excellent manners have made him popular among his peers. Undoubtedly, he will be a course of inspiration for others. He keeps himself updated with all the latest technologies. He is always committed and sincere towards his work. His optimism helps him in handling even the most complex situations. This kind of attitude will surely help him achieving great heights in his life.

I strongly recommend you consider Noor for admission into your reputable university. In my opinion, a student like him should be eligible for admission and financial support in your esteemed university.

LETTER OF RECOMMENDATION

It is a great pleasure to write this letter of recommendation for **Mr. Patter Munavar** to pursue his Master's at your University. I have known **Munavar** for over four years, primarily as Professor at Muffakham Jah College of Engineering and Technology. I have closely mentored him throughout his undergraduate studies and so can appraise both his technical and managerial abilities.

Munavar was among the brightest students of his class. I noticed his intellectual inquisitiveness and the passion for engineering when he used to clear his doubts of the concepts taught and was very good at putting the theoretical knowledge in practice during lab sessions

"Signal Processing" was his major project's domain and as his project advisor I noticed his effort and creativity that he put in the project from the start till end, also being one of the member of judging panel I analyzed his logical and analytical skills which were quite astonishing, he successfully completed the project 'Emplementation of Echo Cancellation' with an very good grade because of his determination and hard work.

Munavar is a rare find. He is well-trained, ambitious, and detail-oriented. His enthusiasm reflects in his work. I **strongly recommend** him for admission to the graduate program at your university and also with the possible Financial Aid. Please feel free to contact me for any further clarifications.

Salma

Letter of Recommendation

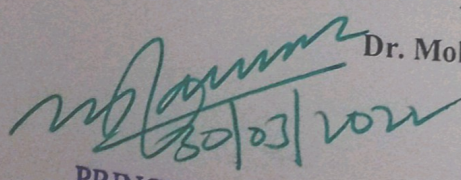

I am pleased to recommend **Mr. Syed Abdul Aziz** for the Master's Programmed of Study at your esteemed university. I have found him to be an extremely hardworking, sincere and industrious student. I have closely observed him as a professor for the "Network Theory" and "Microprocessor and Microcontrollers", and I am also aware of his academics. He has always been a learning enthusiast and has been quite consistent with his assignments and projects.

From my observation, I would like to say that **Abdul Aziz** has been an active participant in the classroom discussions. My interaction with him gave me an ample opportunity to watch him from close quarters in many aspects and to estimate him theoretical and practical capabilities. During his interaction with me, he proved himself to be a student of high potential and a promising talent. He demonstrated a great deal of self-confidence, intellectual ability, personal character combined with leadership qualities.

Abdul Aziz has proved equally better both in academics and extra-curricular activities in and out of the college. He actively participated in all the workshops conducted through the technical symposium of our department and gained appreciation at each and every level. Given his passion for the subject and enthusiasm about knowing more about technology. He always used to attend different workshops. He has attended the workshop on Internet of Things (IoT) which helped him understand about the future technologies.

I strongly recommend him for admission in the MS Program at your esteemed University. I wish him all the success in future. Please feel free to contact me for any further information.

LETTER OF RECOMMENDATION

It gives me immense pleasure to recommend **Mr. M.A. Qayyum Siddiqui** for the Master's program in your esteemed university, whom I've known for the past four years where I have taught him two courses - Basic Circuit Analysis and Internet of Things. He has an inherent desire to improve and work towards perfection, which reflects in his academics.

As a person who is always ready to take up responsibilities, he carries out his duties with diligence and exuberance. He has also demonstrated adeptness at organizational skills. I vividly remember his role, taking part in Lamakaan Amateur Radio Conference (LARC 2018). Keeping in mind his capabilities, I appointed him as the member of the technical team of the HAM Radio Club at MJCET.

In my experience, I have taught many talented students but his stands out in a number of ways. The first thing I noticed about him was his innovative approach to solve problems. It's common to see a lot of hardworking and determined students in this field, but what makes **Siddiqui** unique is his hands-on approach and his drive to get to the depth of things. He keeps himself updated with the latest trends and innovations in science and technology. Above all, he is a humble person and understands the organizational structure and maps the resources to complete the given work.

You can rest assured that he will give his best to accomplish any task assigned to him and will prove to be a valuable addition to your institution. I grade him among the top 5% of the students of his batch of 120 students. I thus strongly recommend his admission to the Graduate program at your esteemed University with adequate financial aid, and also recommend him for teaching/ research assistantship at your preference.

LETTER OF RECOMMENDATION

I Dr. Sabir Hussain Professor and Head at the Department of Electronics and Communication Engineering. I would like to recommend Mr. **Shahebaz Ahamed** for his master's program at your University.

To my best understanding and reading of his personality, **Ahamed** is a dedicated, sincere student. He plays utmost attention and actively participates in academic discussion in and outside the class. Besides this, he is also actively participated in several events and workshops on skill development programs on digital systems and annual technical festival Adsophos organized by the department.

I have observed that he has continuously improved during his course of study. He is regular in his studies and punctual in his submission of records and assignments. I found him to be a highly motivated, competent student. He is capable of understanding the related practical issues involved in the problem and comes up with practical solutions.

I would strongly recommend **Ahamed** Ahmed Mohammed for his graduate studies at esteemed University. He will add a lot of value to your program. Please feel free to discuss this recommendation, if required. I wish him all the success in his future endeavours.

LETTER OF RECOMMENDATION

I am writing this reference letter in support of **Mohammed Sakhib Nehal** who is applying to the Master in Science program at your esteemed University. I have known **Faisal** in my capacity as his Professor for over three years during which, I taught him the courses **Basic Circuit Analysis** and **Neural networks**. Through my observation, I would like to say that he is attentive and studious and always possesses a positive attitude towards academics.

Throughout his course of study, **Neha** has shown great interest in practical aided learning techniques. Besides the academics, His participation in College level and state-level project competition for all Engineering students held in our college, clearly displays his interest in the innovative and creative sector. As a person he has a lot of dedication to everything in which he is involved.

I have the deepest personal and professional respect for him, and sincerely believe that he will bring his unique energy, optimism, passion, and tireless creativity to your class and University as a whole. I would rank him among the top 10% of students in his class. So, he has my highest wishes for admission into his desired course at the University. If you have any questions about this recommendation, please do not hesitate to contact me for I will gladly try to help

LETTER OF RECOMMENDATION

I am writing in support of **Mr. Mohammed Sohail Ahmed** who has applied for the masters program at your university. I have taught him for duration of 2-years over which I have taken up subjects Antenna and wave propagation and Global Positioning Systems. In my experience I have found Sohail to be a very sincere and attentive student. He is well versed with the basic concepts of electronics and communication which makes him a very intelligent student.

He is quick to adapt and is a very focused person. His careful attention to details and ability to meet deadlines is commendable. His organized personality makes him an efficient worker who goes beyond what is required to complete the tasks at hand. Academically, Sohail has always proven to be among the top 10 students of my class. The tests and exams conducted are a proof. Through the course he has taken up various research topics related to the communication sector and has shown keen interest to learn further. His curiosity towards the subjects makes him an asset to the college.

Professionally I have the highest regards for him and personally I would endorse Sohail for admission into his desired course at your university. I am strongly convinced he will contribute to the research activities and will be a great addition to your university with his skills and quest for more knowledge. I hence believe that he should be seriously considered as a strong candidate for admission. I hope this letter proves helpful and request you to contact me if you require any further information regarding his exceptional capabilities.

LETTER OF RECOMMENDATION

It is a great pleasure to write this letter of recommendation for Mr. Dudekula Azmathulla Ashiq Vali to pursue his Master's at your University. I have known Azmathulla for over four years, primarily as Professor at Muffakham Jah College of Engineering and Technology. I have closely mentored him throughout his undergraduate studies and so can appraise both his technical and managerial abilities.

Azmathulla was among the brightest students of his class. I noticed his intellectual inquisitiveness and the passion for engineering when he used to clear his doubts of the concepts taught and was very good at putting the theoretical knowledge in practice during lab sessions

"Communication " was his major project's domain and as his project advisor I noticed his effort and creativity that he put in the project from the start till end, also being one of the member of judging panel I analyzed his logical and analytical skills which were quite astonishing, he successfully completed the project 'Implementation of Echo Cancellation' with an excellent grade because of his determination and hard work.

Azmathulla is a rare find. He is well-trained, ambitious, and detail-oriented. His enthusiasm reflects in his work. I **strongly recommend** him for admission to the graduate program at your university and also with the possible Financial Aid. Please feel free to contact me for any further clarifications.

LETTER OF RECOMMENDATION

It is with no hesitation that I write this letter to recommend **Mr. Mohammed Adnan** to your esteemed university. I taught him 'Data communication and computer networking' in his third year second semester in which he performed well.

He has shown a great promise by venturing beyond the scope of the subject. He has drawn my attention to his resourceful ideas. As a student, he is a very diligent person and has good grasping power, he makes sure that he fully understands the basics and applies these concepts to more challenging problems.

His self-confidence, technical optimistic approach and mature outlook hold in good stead for pursuing a course that requires a lot of hard work and dedication. He actively participates in college technical and cultural activities. Being a witness to this kind of dedication I rate his research capabilities are high.

I strongly feel that a student of his caliber and promise will be an asset to your department and therefore, recommend him enthusiastically for a Master's program in your university with maximum possible monetary aid. I wish him all the best and success in his future endeavors.

PROVISIONAL ALLOTMENT ORDER-FINAL PHASE

This is to inform that the options exercised by the candidate have been processed based on merit, rank, local area, sex, category, Special Reservation Category (OAP/PH/NGC/Sports & Games) etc and you have been allotted a seat in

OW COLLEGE FOR WOMEN SELF FINANCE (OWWSF), NQTL, HYD
in **MASTER OF BUSINESS ADMINISTRATION (MBA)**, under **OC, OJALS, OJ** category.

Tuition Fee fixed for the college/course is Rs. 27000 /-
Tuition fee to be paid by the candidate now is Rs. 0 /-
The fee paid so far is Rs. 0

* Candidates are informed that the amount shown against the entry total fee payable/ refundable is subject to verification of the actual fee paid online in the earlier phase of allotment.

The students belonging to SC/ ST/ BC (OJ) Minority categories will be considered for Reimbursement of Tuition Fee (RTF) which is subject to verification and eligibility criteria prescribed by Government of Telangana from time to time. In the event of the candidate found not eligible for fee reimbursement, the candidate shall have to pay the total fee.

Instructions to Candidates:

1. Last date for payment of Tuition Fee and self reporting through online is 27/11/2021, otherwise this provisional allotment order automatically stands cancelled and candidate has no claim on the provisional allotment now made.
2. Report at the allotted college on 01/12/2021 otherwise this provisional allotment order automatically stands cancelled and candidate has no claim on the provisional allotment now made.
3. Download the allotment order, pay Tuition Fee through online payment (Credit Card/Debit Card/Net Banking).
4. Candidates / Parents are advised to make Tuition Fee Payment from their own Bank Accounts. In case of refund, if any, the amount will be remitted back through online into the same Bank Account from which the payment was made.
5. Candidates / Parents are advised to verify the amount limit of Credit Card / Debit Card / Net Banking before making Tuition Fee payment.
6. Payment through online (Net Banking / Credit Card / Debit Card) : On allotment order click on **Pay Fee Button** you will be directed to Payment Gateway. Make the payment accordingly duly entering the details as per the payment mode selected. Take the print out after payment on which Online Order ID number will appear.
7. **Self Reporting System:** Login to website <https://tsct.nic.in> - Click on **Self Reporting System** - Details of the Candidates along with Order ID will appear - Verify Order ID Number - Click on **Submit Button** - Joining Report will appear - Take the printout, on which Hall Ticket Number, Rank, Name, Father Name, Allotted College, Branch and Admission Number are available. This activity is mandatory as to confirm your admission.
8. Make the payment on or before 27/11/2021. In case of failure to pay the amount on or before 27/11/2021 and not reporting through self reporting system this provisional allotment order automatically stands cancelled and candidate has no claim on the provisional allotment now made.
9. **Self Reporting System for candidates where Tuition Fee to be paid now by the candidate is zero:** Candidates have to login to <https://tsct.nic.in> website - Click on **Self Reporting System** - Joining Report will appear - Take the printout, on which Hall Ticket Number, Rank, Name, Father Name, Allotted College, Branch and Admission Number are available. This activity is mandatory as to confirm your admissions. Do the self reporting on or before 27/11/2021. In case of not reporting through Self Reporting System on or before 27/11/2021, this provisional allotment order automatically stands cancelled and candidate has no claim on the provisional allotment now made.
10. The candidate has to report in person on 01/12/2021 at the allotted college, after special round of counselling and handover a set of Xerox copy of the certificates and Original Transfer Certificate (T.C) otherwise your allotted seat stands cancelled and candidate has no claim on the provisional allotment now made.
11. Last date for cancellation of provisionally allotted seat through online is 27/11/2021. The forfeiture of Tuition Fee will be in accordance with the guidelines laid down in the website <https://tsct.nic.in> in detailed notification.
12. Candidates who are satisfied with the present allotment and paid the Tuition Fee through online and self reported through website need not exercise options in special round of counselling.
13. All the eligible candidates can participate in special round of counselling for change of college / course, if desired.
14. All the provisionally allotted candidates shall report in person at the allotted college on 01/12/2021, after special round of counselling and handover a set of Xerox copy of the certificates and Original Transfer Certificate (T.C) otherwise your allotted seat stands cancelled and candidate has no claim on the provisional allotment now made.
15. **Cancellation of Provisionally Allotted Seat:** Login to <https://tsct.nic.in> website - Click on online cancellation of allotted seat - verify the details of college and course - click on **I Agree - Submit Button**. Your provisionally allotted seat stands cancelled and you will not have any claim on the provisionally allotted seat.

Note : Candidates are informed to verify the transaction limit and validity of Credit / Debit Card before proceeding for payment. Candidates are informed to pay Tuition Fee from their own account or parents account. In case of refund, if any, will be remitted to the same account.

Letter of Admission

Deadline Date for Fees Payment
(MM/DD/YY): 02/16/22

Dear Sohail Ahmed,

Congratulations! You are being offered admission to Fanshawe College for your post-secondary studies in Canada. This letter contains information that you can use to apply for a Study Permit and should be submitted to Immigration, Refugees and Citizenship Canada (IRCC)

Fanshawe College Student ID	: 1088669
Date of Birth	: 06/20/1999 (MM/DD/YY)
Type of School	: Public; Member, CISC www.collegesinstitutes.ca ; DLI # O19361039982
Program of Study	: MAP1 - Mobile Application Development (Co-op), London Campus
Academic Status	: Full Time
Level of Study	: Graduate Certificate
Semester of Study	: Level 1
Program Start Date	: 09/06/22 (MM/DD/YY)
Length of Program	: 2 Years (4 Levels)
Co-Op/Work Term	: YES, coop, 4 months
Expected Date of Completion	: 12/31/23 (MM/DD/YY)
Fees (Approximate and subject to change)	: C\$17487.32
Fees Due	: C\$17487.32
Fees Payment Deadline	: 02/16/22 (MM/DD/YY)
Condition(s) (if applicable)	: NA. Student accepted under SDS.
Last date to update your visa	: 08/20/22 (MM/DD/YY)
Last date for registration	: 08/29/22 (MM/DD/YY)

Program fees for International students for 2022-2023 are listed here by Program Name:
https://www.fanshawec.ca/sites/default/files/2021-06/international_fees_2021.pdf

The Deadline Date is important, as your seat is not confirmed until full payment has been made. Your seat will be confirmed subject to availability of seats in your program at the time of your payment. To hold your place, the fee of C\$17487.32 must be received by the "deadline date" mentioned above. Payment should be made in Canadian dollars through Flywire ONLY. The fee receipt can be downloaded from your Flywire account approximately 48-72 hours after making the payment.

Arrival Services are provided at no additional charge to all new international students. This includes pre-departure briefings, transportation from Pearson Airport to London (or a Fanshawe regional campus), and preferred rates at Fanshawe partner hotels.

In the most recent Ontario College Key Performance Indicators (KPI) survey, Fanshawe ranked above the provincial average for Graduate Employment Rate (85.8%), Graduate Satisfaction Rate (80.8%), Employer Satisfaction Rate (95.8%) and Graduation Rate (69.7%).

Once your visa is approved, you MUST email afandon@fanshawec.ca before 08/20/22 (MM/DD/YY). We look forward to seeing you in Canada at Fanshawe College.

Sincerely,

Wendy Curtis,
Dean, Fanshawe International Centre

LETTER OF RECOMMENDATION

I have had the pleasure of knowing Ms. ALIYA TARRANNUM during my teaching her batch. She has been a wonderful student and an asset to our college. I would like to take this opportunity to recommend her for the Graduate program at your esteemed university. I have known her for the past three years as an undergraduate student. I taught her subject "**Design and Analysis of Algorithms**" and project guide for final year project.

I feel confident that she will continue to succeed in her studies. She comes across as a sincere, diligent, and self-reliant person with a pleasing demeanour. She is a dedicated student, and she has proven to be a take-charge person who is able to successfully develop plans and implement them. Her knowledge of the fundamentals, analytical ability, and effortless assimilation of concepts accompanied by her assiduous efforts are commendable. She has the right sense of merit, understanding, and dedication in the assignments and in-class topic seminars she had presented.

In my view, Ms ALIYA TARRANNUM compares favourably among my students. I am sure she will make an outstanding graduate student. I take great pride to recommend him strongly, as she will undoubtedly prove to be an asset to any institute she chooses to join. Considering her motivation, perseverance, and intelligence, I strongly believe that she will scale the highest peaks in her fields of interest. Hence, I strongly recommend her, without any hesitation, for admission into your graduate program.

LETTER OF RECOMMENDATION

I have no hesitation in enthusiastically recommending Ms. UNNAM POOJITHA-for Masters program in your esteemed institution. I have known her for 1 year in the capacity as her project guide for final year project. Based on my association with her, I would rank her as one of the best students we have.

I would describe Ms. UNNAM POOJITHA as a well-rounded individual, willing to go beyond what is required and willing to take on new responsibilities. She is a quick and competent learner who has always proven equal to the task assigned. Her ability to concentrate all her energies on a task, to execute the task with composure and to produce high-quality results on time is commendable. She is a self-motivated and a tireless student. She has proven time and again her capacity to take on challenges head-on.

As her mentor, I observed remarkable growth in her skills over the duration of the project as she never failed to find solutions whenever there was a challenging situation. I really appreciate her high levels of participation and enthusiasm for anything she gets herself involved in. Whether it is coursework, project work, organizing events, she never lacked zeal or patience. She has a good command of the English language and is able to put forth her opinions clearly and succinctly.

I have no reservations in her outstanding abilities, and I recommend her as a capable candidate for your program with all possible financial aid and assistantships. I am confident that she will be a valuable addition to your university as a whole.

LETTER OF RECOMMENDATION

In my capacity as the Professor of Department of Computer Science & Engineering, MJCET, Hyderabad, I have known **Mr. NARRA SUCHARAN** and have closely followed his progress during his academic years pursuing engineering during which I have taught him the subject "Big Data Analytics" as well as served as the Project Coordinator for the entire class during his final semesters until the completion and submission of his thesis

During my association with **Mr. NARRA SUCHARANI** found him to be a promising and dedicated student with an analytically bent of mind and this was reflected in both his grades and his Thesis work. In particular, he has exhibited considerable interest in specializing in "Big Data". I am happy to note that Mr. NarraSucharan is looking to pursue further studies in his chosen Engineering course at one of the most prestigious universities in the world. I am sure he can make a successful researcher through his consistent hard work and dedication.

Mr. NarraSucharan is a student with immense academic potential and has a natural leaning towards academics. His performance during the course of his project, seminars and thesis writing was par excellence. He has consistently ranked among the Top 10% students of his class and I can say with confidence that he can perform similarly in the future.

In addition to Mr. NarraSucharan impressive academic performance, he has excellent communication skills and teamwork and is able to develop a great rapport with his peers and teachers. He is fully capable of remaining calm and composed and could communicate his ideas with great precision even during high pressure situations. I strongly believe he possesses the capability to successfully complete any research endeavor he takes. It is my pleasure to strongly recommend him for Post-Graduate studies with all necessary financial aid. I wish him luck in all his future endeavors.

LETTER OF RECOMMENDATION

It is a great pleasure to write this letter of recommendation for SYED MUJTABA ALI to pursue his Master's at your University. I have known SyedMujtaba for over two years, primarily as Professor at MuffakhamJah College of Engineering and Technology in the capacity as his project guide for final year project. and so can appraise both his technical and managerial abilities.

Syed Mujtaba was among the bright students of his class. I noticed his intellectual inquisitiveness and the passion for engineering when he used to clear his doubts of the concepts taught and was very good at putting the theoretical knowledge in practice during lab sessions. Apart from academics he was also a part of Entrepreneur Cell (E-Cell) student bodies and organized many events. In those events he acted very responsibly and also proved as an extraordinary team player working with senior and junior fellow mates.

Syed Mujataba is a rare find. He is well-trained, ambitious, and detail-oriented. His enthusiasm reflects in his work. I strongly recommend him for admission to the graduate program at your university and also with the possible Financial Aid. Please feel free to contact me for any further clarifications.

LETTER OF RECOMMENDATION

It is my immense pleasure to support Mr. Mohammed Mushraf candidature to your institution for master's program. Currently I still clearly remember him for his innovative ideas which he showcased as a student.

I had the opportunity to extensively observe him while teaching "Graph Theory and Its applications" and "Oops using JAVA lab", which allows me to quickly assess his skills and abilities. We interacted several times outside the classroom. He also reached out to me during his graduation for professional guidance. He was not only a competitive student but also showed an impressive grasp of technical concepts.

I recall that he was a step ahead than most of his peers when it came to experimenting with his learning. He would often come to me for guidance during the development of his applications. I felt proud as a guide to see my student practically implementing his classroom learning.

Besides the course work, he attended workshops and participated in technical events. He is still eager to pursue masters in computer science. I strongly recommend him for his graduate studies in your institution. His keen desire to explore and learn will take him far ahead in life.

I wish Mr. Mohammed Mushraf all the best for his graduate studies. Please feel free to contact me in case you have any queries on this recommendation.

LETTER OF RECOMMENDATION

I take this opportunity to recommend one of my students, **Mr.SYED SAIFULLAH**, in the master's program at your esteemed university. I taught him **Computer Networks & Programming** and **Computer Networks & Programming Lab**. I know him during his under-graduation at Muffakham Jah College of Engineering and Technology. I also had an opportunity to monitor his work during the associated laboratory sessions of Computer Networks & Programming Lab. He has also done his major project under my guidance.

He has done his final year project, **Wireless networks**. I was very much impressed with his innovative ideas. As the project relies heavily on the use of CST software, Safiullah is painstakingly getting conversant in its use. I can see his determination to become well versed for which he is leaving no stone unturned.

He is quite hard-working and active in his academics, and he is equally enthusiastic about co-curricular activities. He is very regular and punctual in submitting his assignments. He is systematic and assiduous in his approach. He does not hesitate to seek clarification which helps him in a clear understanding of the logic and the concepts. He has been very consistent in his academics, retaining his position in the top 10% in a class of 60 students.

I can firmly say that he is very poised, determined and very much deserves to get the best for his higher studies. I strongly recommend Mr. Syed Safiullah's candidature for graduate studies at your esteemed university with the best suitable financial assistance.

I wish him the best for his future endeavors.

LETTER OF RECOMMENDATION

It is with no hesitation that I write this letter to recommend Mr. ABDUL RAHMAN to your esteemed university. I taught him Computer Networks & Programming and Computer Networks & Programming Lab in his third year second semester in which he performed well.

He has shown a great promise by venturing beyond the scope of the subject. He has drawn my attention to his resourceful ideas. As a student, he is a very diligent person and has good grasping power, he makes sure that he fully understands the basics and applies these concepts to more challenging problems.

His self-confidence, technical optimistic approach and mature outlook hold in good stead for pursuing a course that requires a lot of hard work and dedication. He actively participates in college technical and cultural activities. Being a witness to this kind of dedication I rate his research capabilities are high.

I strongly feel that a student of his caliber and promise will be an asset to your department and therefore, recommend him enthusiastically for a Master's program in your university with maximum possible monetary aid. I wish him all the best and success in his future endeavors.

To Whomsoever It May Concern

It gives me huge delight to compose a letter of recommendation for my ex-student Mr. Afroz Samee who has applied for the master's programme in data science at your venerated university. Afroz is a driven, conscientious, and hardworking individual who has placed a strong emphasis on his studies throughout his education. As the lecturer of his department, I was able to keep a close eye on his performance, and based on my observations, he is one of the most talented students who have demonstrated maturity that is well above his age.

During his graduation, I had the chance to serve his batch as a lecturer on the topics of Computer Networks & Programming Theory. Furthermore, I was also his teacher in Computer networks & Programming Lab. For all the tests and assessments he worked hard to achieve his goals and has scored good marks in all the evaluations. He was quite competent and knew exactly what was needed of him. I realised it was part of his personality to give his one hundred percent after noting a similar propensity during his academic project.

On a personal front, Afroz was a well-behaved student in his own right. He cared deeply about everyone around him and was always willing to provide a hand when the occasion called for it. He greeted me with great respect and has done the same for other professors. He also followed the university's rules and maintained a high level of dignity constantly.

To summarise, Afroz has performed admirably in all fields, and I am confident that he is the ideal prospect for enrolment in a course at your prestigious university. I'm writing to express my complete confidence in his master's degree admissions application. I wish him the best of success.

LETTER OF RECOMMENDATION

I have great pleasure in recommending Ms. **BUSHRA BASEER** in her pursuit of higher educational qualification – Master's Degree. I have been acquainted with Bushra for the past two years as a student of Undergraduate studies under Computer Science and Engineering department in our institute.

I have taught her the course "**Design and Analysis of Algorithms**". She has a good understanding of the fundamentals in the subject which will help her a great deal in furthering her skills during the graduate studies in her proposed field.

She is articulate and can express herself very well both in formal teaching contexts and in informal discussions. In these years of acquaintance I have found her ideas to be innovative and creative. I have observed and monitored her at close quarters. She is a person with positive attitude towards life and enjoys her work. I find her to be a dedicated and industrious student and am confident that she will excel in her higher studies. Her behavior with teacher and reverential attitude towards elders is admirable.

She is interested in strengthening her academic proficiency by pursuing her Master's degree. I believe that her endurance and analytical skills will contribute significantly to the research at your institute. I strongly recommend her for the graduate program at your university with financial aid.

LETTER OF RECOMMENDATION

As the Professor of the Computer Science and Engineering department of MJCET, I have had the pleasure of knowing **SYED SOHAIB UDDIN** for the last 4 years and I have found him to be both a kind and hard-working individual. I would like to take this opportunity to recommend Sohaib for your graduate program. For the past four years, I have observed his progress, and I deem it my pleasure to write on his behalf.

Sohaib is a dedicated and intelligent student and thus far, his grades have been exemplary. He has proven to be a take-charge person who can successfully develop plans and implement them. I taught him Graph Theory and its Applications, Distributed Systems and project reviewer; he was among the top 10 percentile students. Also, I can say that he is a very well-behaved student. In addition, he always completed my assignments on time, something that made him score good grades in my subjects.

As I was the in-charge of reviewing his major project and from a personal level, I can say that his presentation and communication skills are top notch. Sohaib has an active and outgoing presence and strong team working skills. As a genuine and upbeat individual, Sohaib is well-liked by everyone he comes in contact with.

Sohaib has demonstrated excellence in everything he puts his mind to. He will transmute the knowledge gathered from the undergraduate level to develop into a seasoned and tenured professional. I fully expect him to continue being productive and excellent in his future work. I hope you will consider this request and admit him into your esteemed university.

LETTER OF RECOMMENDATION

It is my immense pleasure to endorse this letter of recommendation in favor of AYMAAN GILLANI. I have known Aymaan for two years in my capacity as a professor for both "Computer Organization theory and lab. He has been tremendous student and an asset to our Institution.

I have seen his sensational performance in academics. After knowing him for two years, he has always managed to showcase his talents. For assignments, he not only opted digital methods but also manual forms like referring books and seeking information from professors. His assignments were informative, interesting and creditable.

He is reliable, responsible and has actively participated in seminars and classroom activities. He has very good report with his co-students. His alertness in the labs and involvement in practical experiments were indicative of his enduring interest in the subject. He has also actively participated in all technical activities conducted in our institution under IEEE and other student bodies.

In short, I find Aymaan to be complete over all student with all the required skills and I highly recommend Aymaan for Master's program at your esteemed university. He will be an extremely positive addition to your University. Please feel free to contact me for any further queries.

He has a good understanding of the fundamentals in the subject which will help him a great deal in furthering his skills during the graduate studies in his proposed field.

He is articulate and can express himself very well both in formal teaching contexts and in informal discussions. In these years of acquaintance I have found him ideas to be innovative and creative. I have observed and monitored him at close quarters. She is a person with positive attitude towards life and enjoys her work. I find him to be a dedicated and industrious student and am confident that he will excel in his higher studies. His behavior with teacher and reverential attitude towards elders is admirable.

He is interested in strengthening his academic proficiency by pursuing his Master's degree. I believe that his endurance and analytical skills will contribute significantly to the research at your institute. I strongly recommend him for the graduate program at your university with financial aid.

LETTER OF RECOMMENDATION

It is my immense pleasure to endorse this letter of recommendation in favor of Mr. SHABBAR. I have known Shabbar for two years in my capacity as a professor for both "Computer organization" theory and lab and final Year project guide. He has been tremendous student and an asset to our Institution.

During my association with Shabbar I found him to be a promising and dedicated student with an analytically bent of mind and this was reflected in both his grades and his Thesis work. In particular, he has exhibited considerable interest in specializing in "Network Security". I am happy to note that Shabbar is looking to pursue further studies in his chosen Engineering course at one of the most prestigious universities in the world. I am sure he can make a successful researcher through his consistent hard work and dedication.

Shabbar is a student with immense academic potential and has a natural leaning towards academics. His performance during the course of his project, seminars and thesis writing was par excellence. He has consistently ranked among the Top 10% students of his class and I can say with confidence that he can perform similarly in the future.

In addition to Shabbar's impressive academic performance, he has excellent communication skills and teamwork and is able to develop a great rapport with his peers and teachers. He is fully capable of remaining calm and composed and could communicate his ideas with great precision even during high pressure situations. I strongly believe he possesses the capability to successfully complete any research endeavor he takes. It is my pleasure to strongly recommend him for Post-Graduate studies with all necessary financial aid. I wish him luck in all his future endeavors.

LETTER OF RECOMMENDATION

I have no hesitation in enthusiastically recommending Mr. Saad Mohiuddin for Maters program in your esteemed institution. I have known him for 1 year in the capacity as his project guide for final year project. Based on my association with him, I would rank him as one of the best students we have.

I would describe Saad Mohiuddinas a well-rounded individual, willing to go beyond what is required and willing to take on new responsibilities. He is a quick and competent learner who has always proven equal to the task assigned. His ability to concentrate all his energies on a task, to follow instructions to the tee, to execute the task with composure and to produce high-quality results on time is commendable. He is a self-motivated and a tireless student. He has proven time and again his capacity to take on challenges head-on.

As his mentor, I observed remarkable growth in his skills over the duration of the project as he never failed to find solutions whenever there was a challenging situation. I really appreciate his high levels of participation and enthusiasm for anything he gets himself involved in. Whether it is coursework, project work, organizing events, he never lacked zeal or patience. He has a good command of the English language and is able to put forth his opinions clearly and succinctly

I have no reservations in his outstanding abilities, and I recommend him as a capable candidate for your program with all possible financial aid and assistantships. I am confident that he will be a valuable addition to your university as a whole.

LETTER OF RECOMMENDATION

It is with no hesitation that I write this letter to recommend Mr.MOHAMMED RAHEEL to your esteemed university. I taught him Computer Networks & Programming and Computer Networks & Programming Lab in his third year second semester in which he performed well.

He has shown a great promise by venturing beyond the scope of the subject. He has drawn my attention to his resourceful ideas. As a student, he is a very diligent person and has good grasping power, he makes sure that he fully understands the basics and applies these concepts to more challenging problems.

His self-confidence, technical optimistic approach and mature outlook hold in good stead for pursuing a course that requires a lot of hard work and dedication. He actively participates in college technical and cultural activities. Being a witness to this kind of dedication I rate his research capabilities are high.

I strongly feel that a student of his caliber and promise will be an asset to your department and therefore, recommend him enthusiastically for a Master's program in your university with maximum possible monetary aid. I wish him all the best and success in his future endeavors.

Dear Riyaz Mohammed:

Congratulations! I am pleased to inform you that, after careful assessment of your application, you have been granted admission to the following program:

Master of Engineering
Industrial Engineering

This is your official letter of acceptance. As an international student, you are required to obtain a Study Permit and a Quebec Certificate of Acceptance (CAQ). Please read carefully the enclosed "International Students Pre-Departure Guide" to determine the procedures.

The attached Offer of Admission gives information about the program to which you have been admitted, any conditions that apply to your admission, and further details regarding financial support. If you have any questions regarding your Offer of Admission, please feel free to contact us via email at graduate-admission@uncc.concordia.ca. Please confirm your acceptance of this Offer of Admission in your Student Centre at www.myconcordia.ca by May 1, 2022.

To learn more about your program, please refer to the Gina Cody School of Engineering & Computer Science website at <http://www.concordia.ca/ginacodyprograms>. Please contact the program assistant for course registration procedures. Contact information can be found in the following pages. You should arrive in Montreal and register for your courses by September 6, 2022.

Given your achievements, potential and academic intent, I believe that your academic interests will be well served by this program. I take this opportunity to welcome you to Concordia University and wish you every success in your studies.

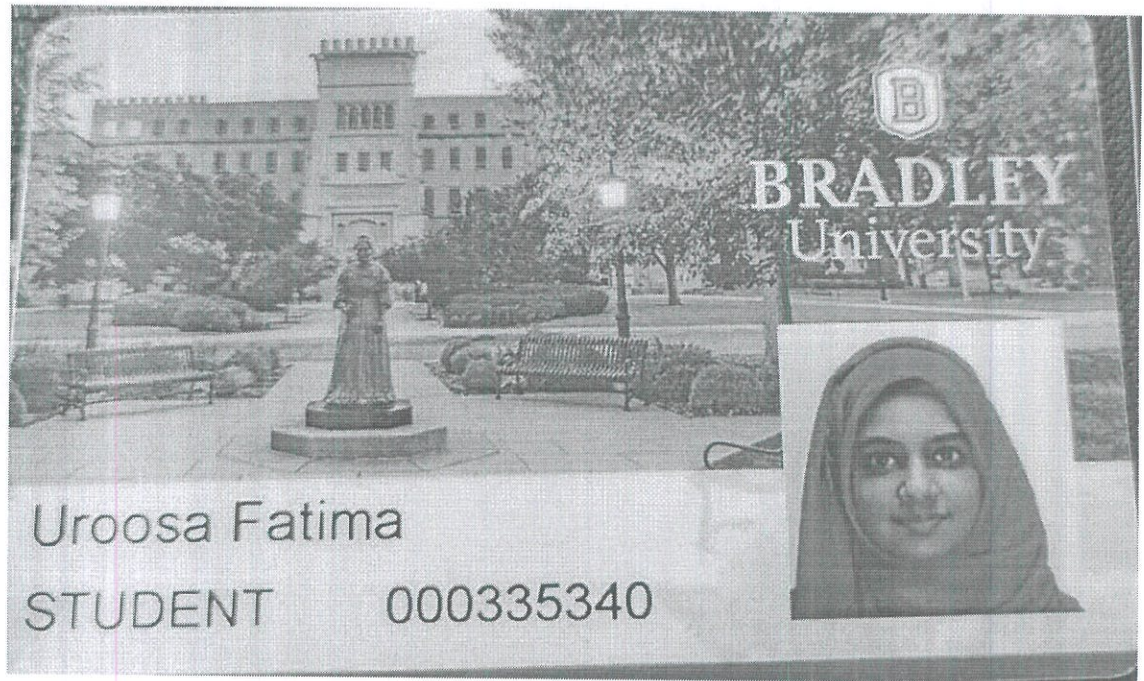

Sincerely yours,

Emad Shihab, Ph.D., P.Eng

OFFICE OF GRADUATE AND PROFESSIONAL ADMISSIONS

March 14, 2022

Mohd Mahmood Mohammadi
1-4-621/1 Sholapur
Muzheerabad
Hyderabad, Telangana 500029
India

Applicant ID (UIN): 664348367

Dear Mohd Mahmood,

Congratulations! I am pleased to inform you that you have been admitted as a student to the Mechanical Engineering MS program at the University of Illinois Chicago (UIC) beginning in the Fall 2022 term.

The Graduate College requires that each degree student work with a department advisor in selecting courses. Details on advising will be communicated to you by the department, if they have not already done so. Available for students admitted to the University is myUIC, a portal designed to assist students with the admission to registration process. Please go to go.uic.edu/gradadmit to access myUIC, if you have not already done so. We encourage you to visit the portal regularly to check your messages and obtain new information.

Newly enrolled students are automatically enrolled in CampusCare, the University-sponsored health benefits program, when assessed the Student Health Insurance Fee along with the tuition. Consult the CampusCare website at campuscare.uic.edu to obtain information about the program including permissible reasons to have it waived.

You have been classified as an international, nonresident student of Illinois. This status is for a person who is a citizen or permanent alien of a country other than the United States, who expects to return to a residence outside the United States, and either is, or proposes to be, a temporary alien in the United States for educational purposes only. As an international student you are required to see an advisor in the Office of International Services (OIS) at UIC to verify your current immigration status upon your arrival at UIC. Failure to do so may jeopardize your stay in the US. Any questions or concerns regarding your immigration status should be addressed to OIS.

Your admission is conditional upon receipt of certain required documents. If you are currently completing your bachelor's degree, you will need to submit a final, official transcript. If your admission is based on unofficial documents, we will need to receive official documents. The required documents that must be submitted are listed on your application status page. See our Admitted Student Guide at go.uic.edu/gradadmit for submission details. For specific questions about your admissions status or required documents, consult the Office of Admissions at (312) 996-4350.

Admission to the Graduate College is for a specific term. However, if you wish to defer admission, it is possible that you may do so for up to one year without reapplying. Please contact your department with any questions concerning deferral.

Again, congratulations! We look forward to providing you with an outstanding education.

Sincerely,

Karen J. Colley

LETTER OF RECOMMENDATION

I am delighted to write you this letter of recommendation for Mr. MD ABRAR, one of my excellent student of 2017 batch. I've known him for almost two years and have taught him on the subject of Manufacturing Process. In Addition, I have also been fortunate enough to be In-charge of his class of Manufacturing Process Lab. I had the opportunity to extensively observe him while instructing, which allow me to quickly assess his skills and abilities.

Mr. Abrar is a dedicated and focused student who takes a rational approach to his studies. His strong points are his exceptional communication skills and his ability to establish a positive relationship with his peers. I am willing to guarantee for his knowledge and understanding of the subject at hand. His academic efforts demonstrate his skill and efficiency, and I consider him to be among the top students I've ever taught.

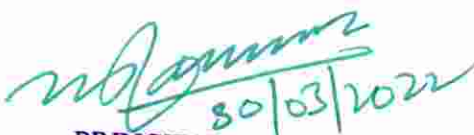

Besides academics he was also involved in a lot of Extracurricular & Co-curricular activities during his course of study which helped him to develop his overall personality.

With all the above said things I strongly recommend him for higher studies in your esteemed institution with necessary financial assistance to enable him in achieving his academic and career goals.

Wishing him a successful, bright and prosperous career ahead.

LETTER OF RECOMMENDATION

I am pleased to recommend the candidature of Mr. Furqan Khan for higher studies in your esteemed university. I have been acquainted with him since 2017 as I taught him the theory and practical's related to "CAD/CAM" and Metallurgy and Material Science.

As a student he displayed exceptional understanding of basic principles of the subjects and had shown profound interest in learning them. I found him to be hard working, diligent and sincere in his efforts and feel that his practical and logical approach of handling the responsibilities should be brought to notice. His analytical ability supported by his excellent communication skills, bring out the intellectual independence in him.

In the view of all the above facts, I am sure you will find him to be a student whose talents will shine further through your graduate program. Therefore, I strongly recommend him, without any hesitation, for admission into your master's program.

LETTER OF RECOMMENDATION

It gives me great pleasure to introduce Mr. Syed Zubair Mujeeb whom I know for the past few years as an undergraduate student of mechanical engineering at Muffakham Jah college of Engineering and Technology.

In this long association I had ample opportunity to assess his professional and personal abilities. He is a person with very good grasping and analyzing capabilities. I was associated with him in both Dynamics of Machines and Industrial Engineering.

Other than his academics he is also one of the best students in the extra-curricular activities. He is successful in implementing mini-projects during his second year. He has very good Oratorical powers and is excellent manager, which was instrumental in his arranging many technical events.

Perseverance, sincerity and thirst for knowledge have always been the hallmark of his personality. He has also taken seminars in his college days. Proficiency in English through knowledge of the subject coupled with the style of his teaching in a clear and lucid manner made his seminars very interesting and informative.

With full confidence in his abilities, I strongly recommend Syed Zubair Mujeeb for his studies in your esteemed University, preferably with a suitable financial aid.

Letter of Recommendation

I have known **Mr. Ismail Ahmed**, for the past 4 years. From my close observation I found him to be verve and the zeal to accomplish and succeed in all his endeavours

I taught him few courses namely **Applied Thermodynamics**. Through that I found him to be an ambitious and sincere student who is diligent in preparation and meticulous in completion of his work. He has been interactive in the class and is well motivated. He is good with the knowledge and keeps all his efforts to enhance skills. He usually plays a role of team lead to his classmates whenever required and exhibits great knowledge.

I see **Mr. Ismail Ahmed**, as a highly determined and capable student to pursue higher studies furnishing his graduate program in your University, you will not only give him an opening for a wonderful career that benefits some one of his abilities, but also helps him reach higher level of accomplishment.

With all these positive attributes, I am sure that **Mr. Ismail Ahmed** will prove himself a worthy candidate for Master's Programme and hence I strongly recommend his admission in your University.

Letter of Recommendation

I am pleased to write a letter of recommendation for **Mr.Abdul Moiz Arbaan Mohammadi**. I have known Aamer for more than three years. I was his Professor during his course of study and the subjects are, **Principles of Management**.

He is one of the brightest students I had. Based on his attendance and class participation, I would rate his academic performances very highly. He was dedicated towards his studies and had a helping nature towards his teachers and peers. He has an eye for detail and a devotion to logic. He has an amazing ability to apply theoretical knowledge to practical work. He was always eager to try and learn new things. This is evident from his extracurricular activities and projects he did during his undergraduate course.

In my opinion, He is a well-balanced student who would be an asset to your institution. I recommend him for graduate studies in your university. I wish him the best for his future endeavors.

Letter of Recommendation

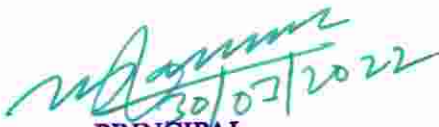

It's my pleasure to introduce **Mr.Syed Asim Hussain** to your University. As his professor, I have had ample opportunity to assess his abilities and characteristics. During his course of Mechanical Engineering, I have been the faculty undertaking his classes, **Metallurgy & Material Science, Design of Machine Elements, Non-conventional Energy Sources** and **CAD/CAM Lab**.

During his class work, **Syed Asim Hussain** has displayed his creativity by expressing his different ideas to problems. He has shown insatiable zeal to learn more about the subject by exploring the depths of it and also applying the concepts to solve real-world problems. Besides his academic interest, he also shows much enthusiasm in extracurricular activities and has participated in many events and competitions.

Throughout the course, he has displayed a strong desire to accomplish goals with his persistent and consistent efforts. He has actively participated in organizing few technical events during our college fest named **Adsophos**.

With his positive mindset, persistent attitude, and versatility, I am sure he will perform well in his field. Mentioning his various co-curricular experiences I give my recommendation for the graduate program at your prestigious University.

I wish him all success in his future endeavours.

LETTER OF RECOMMENDATION

I write this letter of recommendation in support of Mr. Syed Affan Sayeed for application into graduate studies at your esteemed university.

I know Mr. Affan for the past few years as my student. He was my student for the subject 'Applied Thermodynamics' theory and practical. I have found him extremely passionate about the subjects and well-disciplined. His positive outlook, enthusiastic participation and insightful observations made a difference during many of our classroom lectures.

Mr. Affan Sayeed has excellent knowledge of fundamentals, a truly remarkable ability to apply theory to practical solutions. His excellent problem solving skills and grasping power will prove to be an asset for him in his higher studies. He always tries to come up with new ideas, both innovative and creative to solve problems. His academic credentials have been consistently good. He is open to learning new things and keeps himself updated with latest technical developments.

He has a pleasing and well-rounded personality and is liked by both his peers and his teachers. His enthusiasm is infectious and his inter-personal and leadership skills are admirable. Affan is very attentive, contributes to class discussion and respects the views of others. He possesses exemplary managerial qualities, is capable of working with a group of people and is always geared up to share his knowledge with others. As an individual, Affan has a most pleasing personality. He has sound communication skills which enable him to put his thoughts across in a lucid and convincing manner. I got to observe his leadership skills when he took initiative in helping some students who were academically poor in the subject. His ability to express the complex concepts of the subject in a lucid way impressed me. By the end of the year, those students benefited from his guidance.

Affan is undoubtedly the right candidate for Graduate studies in your esteemed University. Hence, I would recommend him zealously for graduate studies at your university with possible full financial assistance. I wish him all the success in his academic pursuits and career.

LETTER OF RECOMMENDATION

It gives me great pleasure to write this recommendation letter for Mr. Syed Faisal Zaheer, a student of mechanical engineering stream who is keen to pursue higher studies at your prestigious institution. He is one of the most exceptional students I have encountered. I taught Ismail in his Bachelor of Engineering and advised him for post-graduation program in your University. As an Associate Professor of Mechanical Engineering, each year I notice that only a few outstanding students offer a unique perspective and really embrace their learning of the subject matter.

I have been associated with him during his course and was his course instructor for subjects "Metal Cutting & Machine Tools" and "Manufacturing Processes". In my course of interaction with him personally as well as in academics I have found his interest towards subjects and he has the capability of grasping concepts very fast and precisely.

Ismail's personal strengths are as impressive as his intellectual accomplishments. He's an active, outgoing person in class with a great sense of humor. Ismail is the perfect person to get a group project rolling, but he also knows how to sit back and let others take the lead, an impressive strength that will continue to serve him well in future.

To conclude, I would like to restate my strong recommendation for Syed Faisal Zaheer for admission in your University for post-graduation program. Ismail has demonstrated excellence in all that he puts his mind to, whether it's designing a project, collaborating with others, or striving for new things. Ismail's endless curiosity, level of motivation combined with his willingness to take risks, leads me to believe there will be no limit to his growth and achievements in university and beyond.

University of New Haven

OFFICE OF GRADUATE ADMISSIONS

March 14, 2022

Shoiba Zaidi
H No: 5-6-136
Jagtial, Telangana 505327
India

Dear Shoiba,

Congratulations! It is my pleasure to inform you of your acceptance to the University of New Haven's Civil Engineering, MS program for the Fall 2022 semester.

At the University of New Haven, we are confident you will have an exceptional graduate experience and will build a strong network necessary for success in today's highly competitive world. Our rigorous academic programs and dedicated faculty will assist you in fulfilling your academic and career goals.

To begin the process of enrolling at the University of New Haven, please submit your enrollment reply form by April 15, 2022. You will also be required to submit an enrollment deposit after you receive your F-1 visa.

On behalf of President Steven H. Kaplan and our family of over 60,000 alumni, it is my pleasure to welcome you as a member of the University of New Haven community. I hope your academic and professional experiences will be memorable and will mark the next chapter of a successful career.

Please don't hesitate to contact the Office of Graduate Admissions if you have any questions. I look forward to welcoming you to campus. Once again, congratulations!

Sincerely,

LETTER OF RECOMMENDATION

I take immense pleasure in recommending Ms. Mahe Mehroz, who is keen to pursue her higher studies in your esteemed University. I have known Mehroz for period of three years from 2018 to 2021. During this period, I was her teacher handling the subject Water Resources Engineering during the V Sem and Project Seminars in the final year of her curriculum and had ample opportunity to observe her in my capacity as a teacher.

Her dedication and sincere application to her tasks have made her stand out among the top 5% among the 135 students in her department. In addition to her academics, she has participated in various extracurricular activities and technical college events.

Having attended seminars given by her, I found her to have profound understanding and knowledge of the subjects of interest along with fine communication skills. I discovered her to be a very quick learner with wonderful analytical skills. She possesses a high level of moral and ethical standards, self confidence, technological and leadership skills. Her views are pragmatic, action decisive and result oriented.

I am confident of her excellence both professionally and in the field of research. She will prove to be an asset to your department. Hence I strongly recommend her candidature for admission to your esteemed University with full financial assistance and wish her all the success in her future endeavors.

LETTER OF RECOMMENDATION

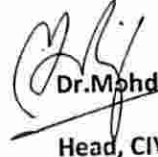

With immense pleasure, I am writing this reference letter in support of candidate Ms. Ahmadi Fatima who is applying to the Master's Program at your esteemed university. I have known Ahmadi in my capacity as her teacher for a period of three years from 2018 to 2021. During this period, I taught the subject "Design of Reinforced Concrete Structures" in her IV Semester and was also associated with Project Seminar and Appraisals in the final semester of her curriculum.

During my three-year interaction with her, I came across a candidate who was attentive, studious and possessed a positive attitude towards her academics. She has a good background for the basic fundamentals of subject domain which encourages pursuing her goal for graduate research. She has promptly accepted every task assigned to her and has worked hard towards its fruitful completion.

Her ability to work with counterparts and even with her seniors is exemplary, along with pleasing manners, and proficiency in communicating her ideas effectively; she establishes an excellent rapport with her fellow students and the faculty. She also exhibits excellent team leadership skills and is competent in extracting the best out of her team members.

I believe she is worth a candidate, who can excel in which ever field she chooses, as she has got the essential qualities to succeed, and above all her endurance and analytical skills can contribute significantly to the research at your institute. I strongly recommend her for the Graduate Program at your university.

Letter of Recommendation

It gives me immense pleasure to write this recommendation letter on behalf of my student Abdullah, who wishes to pursue his graduate studies at your esteemed university.

Abdullah is known to me as an undergraduate student of Civil Engineering for the past 3 years during Academic Year 2018-2021. Throughout these years, he has attended various theory courses as well as labs under my supervision. I have taught him subjects such as Mechanics of Materials as well as the related lab in his 2nd year.

I have found him to be an active participant in classroom discussions, coming up with valid and genuine doubts which showed his strong pursuit of knowledge and his zeal to learn about the subject and anything in general. I consider him to be one of the most studious, dedicated and sincere students of his class. He possesses a clear understanding of the fundamentals of subjects in his domain.

As of his academic achievements are concerned, he has an aggregate of about 78% in his undergraduate study which demonstrates his scholastic ability. Apart from academics he has attended and took active participation in technical seminars and workshops in and out of campus and won laurels for the department. He continually keeps himself abreast with the latest development on this field by referring to various journals present in college library. I noticed him many times by his activeness and extraordinary abilities in both theory and practical matters.

His motivation towards studies, penchant for research, innovative thinking and academic knowledge impels me to strongly recommend his admission into your esteemed university, with financial assistance.

LETTER OF RECOMMENDATION

As an associate Head of Civil Engineering at Muffakham Jah College of Engineering and Technology (affiliated to Osmania University), it gives me immense pleasure to write this recommendation letter for my student Syed Abdul Rehman, who wishes to pursue his graduate studies at your esteemed university.

Abdul Rehman is known to me as an undergraduate student of Civil Engineering for the past 3 years. I have been associated with him as a teacher for the subject "Transportation Engineering" in his 3rd year of his curriculum. I have found him to be an active participant in classroom discussions during the seminars that came up with valid and genuine questions, which showed his strong pursuit of knowledge and his zeal to learn technology. I consider him to be one of the most eloquent, dedicated, sincere and technically sound students of his class.

As of his academics are concerned, he has an aggregate of 76.8% in his undergraduate study. Apart from academics, he has actively participated in extracurricular activities. His motivation towards studies, enthusiasm for technology, innovative thinking and academic knowledge impels me to strongly recommend his admission into your esteemed university with substantial financial assistance.

LETTER OF RECOMMENDATION

I take immense pleasure in recommending Mr. Mohammed Ragib, who is keen to pursue his higher studies in your esteemed University. I have known Ragib for period of three years from 2018 to 2021. During this period, I was his teacher handling the subject Water Resources Engineering during the V Sem and Project Seminars in the final year of his curriculum and had ample opportunity to observe him in my capacity as a teacher.

His dedication and sincere application to his tasks have made him stand out among the top 5% among the 135 students in his department. In addition to his academics, he has participated in various extracurricular activities and technical college events.

Having attended seminars given by him, I found Ragib to have profound understanding and knowledge of the subjects of interest along with fine communication skills. I discovered him to be a very fast learner with wonderful analytical skills. He possesses a high level of moral and ethical standards, self confidence, technological and leadership skills. His views are pragmatic, action decisive and result oriented.

I am confident of his excellence both professionally and in the field of research. He will prove to be an asset to your department. Hence I strongly recommend his candidature for admission to your esteemed University with full financial assistance and wish him all the success in his future endeavors.

LETTER OF RECOMMADATION

I am pleased to write this letter of recommendation for Mrs.Ummul Qara Simran whom I have known for the past few years as a student of Muffakham Jah College of Engineering and Technology and during all these years she has shown improvement in academic performance time to time.

During my theory and practical classes I have found her to be a hardworking, Intelligent and Sincere student. I would rate her overall performance as excellent, because she has got only excellent marks and has achieved brilliant results in different academic areas.

I have taught her Operating systems and Operating System Lab. Her Lab work is very disciplined and meritorious. Her prospects as a researcher are ably complimented with her experimental skills in the laboratory. She is a person with good grasping and analyzing capabilities.

I highly recommend her to you without any reservation. Her combination of intelligence, commitment and perseverance will certainly make her a valuable member of your regarded university. I encourage you to look favorably upon her application.

LETTER OF RECOMMENDATION

It gives me great pleasure to recommend Ms. Ms.Shahela Qurrath for graduate studies at your acclaimed University. I have known her during my tenure where I taught the courses "Neural Networks, "Artificial Intelligence" and "Data Mining". Through my observation, I can say that she is attentive and always possesses a positive attitude towards academics.

In my opinion, her greatest strengths are her problem-solving skills and attention to detail. Within the period of her studies under my tutelage, she has shown herself as a reliable, diligent and disciplined student with comprehensive knowledge in different areas. I am always impressed by the high quality of her deliverables and her cheerful disposition. Having taught her, I can confidently say that she is one the most promising and hardworking students of her batch.

I sincerely believe she will bring a unique energy, optimism, passion and tireless creativity to your class. As a person who is always ready to take up responsibilities, she carries out her duties with immense dedication. She is a sincere and hardworking student with unparalleled self-drive to excel in her field of study. Her keen interest in programming and thinking out of the box approach.

I strongly believe that with all her skills and assets, she deserves to be a part of your esteemed university which not only gives her an opportunity for career growth, but also helps in achievements to culminate. Considering Shahela Qurrath profound knowledge, I recommend Shahela Qurrath highly and without any reservation for graduate studies in your university with all necessary aid.

LETTER OF RECOMMENDATION

It is with absolute pleasure that I recommend Ms. UmemaTahreem who is applying for admission to your esteemed university graduate program. She has joined our institution owing to a splendid performance in a highly competitive Engineering entrance exam. I have known her for the past 4 years and have noticed her enthusiasm and keen interest while teaching her the courses "Data communication" and "Software engineering" I have also been her mentor and counseled her on numerous occasions. In addition, she is a distinction holder which demonstrates her appetite for knowledge and her own unique learning style.

Ayesha has always been consistent in her classes, her coursework and project work proving her dedication and sincerity. She is quick-witted and intelligent; her grasp of the basic concepts has laid a strong foundation which is demonstrated in her lab work as well as in the advanced subjects. She is observant and has shown the necessary aptitude to take up any difficult assignment in the field of study that she is ardent about. During the pandemic she worked on improving her skill set by enrolling into a value added program in area of AI and ML. She has displayed critical thinking and a remarkable capacity for breaking large issues into manageable segments while working on the project.

Ayesha has proved her strong verbal and analytical aptitude in her remarkable GRE score. She initiates new dialogues boldly and exhibits exceptional communication skills. I am sure she will transmute the knowledge gathered and will be a fine asset to your university. I am glad to strongly recommend her to your university unequivocally with necessary financial aid and assistantship.

LETTER OF RECOMMENDATION

As the Associate Head of the Department of Information Technology at Muffakham Jah College of Engineering and Technology, it is my immense pleasure to recommend Aakifah Sultana to your esteemed University. Over the past four years of interacting with her and mentoring her in the course of her engineering program, I have seen her grow into the diligent, curious, and ethical student that she is today.

Aakifah Sultana has given excellent performance in the freshman year itself, in the university examinations, and has bagged the first rank among all the students across our institution. Her zeal to learn new things is admirable. Her down-to-earth, composed, goal-oriented attitude has won her great appreciation from the professors that are acquainted with her.

During my interactions with her, I have observed that she is open to both criticism and praise alike. Her willingness to accept suggestions and improve herself in different domains shows her humbleness and her appetite for knowledge.

Based on her technical skills and adeptness, I have nominated her as the Chair of the IEEE Circuits And Systems Society Student Chapter of the college. Her amiable, easy-going and organized nature has helped her pick up the baton effortlessly. I was introduced to her passion for tackling new challenges and her leadership skills during the course of years that she has been a part of our institute.

I rank Aakifah Sultana among the top 2% of the students of her class and I enthusiastically recommend her candidature to your program, with all possible financial aid and assistantship.

LETTER OF RECOMMENDATION

It gives me an immense pleasure to recommend Ms. Shazia Fatima for the master's program at your esteemed university. I have known Shazia Fatima in my capacity as a Associate professor for C and Data Structures in fifth semester. She is a student having enthusiasm for her studies and has distinguished herself by submitting an extraordinary performance in all her undertakings.

In my interaction with her, she has expressed her zeal to explore about Data Analytics which helped her to do a small project "Forecasting of covid-19 cases in India" in the initial days of lockdown. The curiosity to explore concepts beyond the prescribed curriculum and find ways to apply them in practical situations make her a research-oriented person. She has taken up all her responsibilities with grace and has given an exceptional performance in all her projects. She carried out all her duties with attentiveness and sincerity.

She is a person who challenges all the tedious tasks and embraces the new, I am very positive that she will succeed in the competitive world tomorrow. Considering her passion and integrity towards her studies, I concur with her decision to pursue graduate studies. I will happy to recommend her candidature in your university for a Master's program in Business Analytics. I am confident you will find Ms. Shazia Fatima an excellent student in your academic program.

LETTER OF RECOMMENDATION

It is my immense pleasure to recommend one of my best students, *Mr. Quazi Mohammad Suleiman Siddiqui*, for the Master's program at your esteemed university. As the instructor of his "Data Structures and Computer Networks" subject, his intelligence, dedication, and enthusiasm to achieve the tasks/goals given to him outweighed many other students in his class and impressed me very much.

He is an sincere, attentive and a hard-working student. As an attentive student in class, he could understand complex concepts quickly and had much interest in acquiring more subject knowledge. He is a hard-working student who completes the given work and turns in his assignments on time.

I have the deepest personal and professional respect for him, and sincerely believe that *Mr. Quazi Mohammad Suleiman Siddiqui* will bring his unique energy, optimism, dedication, passion and tireless creativity to your university. I strongly recommend him for the Master's admission into your university with possible financial assistance. I wish him all the success in his pursuits of academic achievements.

LETTER OF RECOMMENDATION

It is with great pleasure that I write this recommendation on behalf of Mr. U Jaiswal. I have known Ehetesham for over four years, primarily as a Professor at Muffakham Jah College of Engineering and Technology. I have closely mentored him throughout his undergraduate studies and so can appraise both his technical and managerial abilities. I have taught him *Digital System Design using Verilog and Systems & VLSI Design*, in his third and final year in which he performed very well.

During his junior year, while I was taking the Embedded systems classes, I have noticed a spark in U Jaiswal. He was actively participating and was asking the questions by thinking out of the box. He is a conscientious, motivated, and responsible student who masters theory and applies it well practically. By following his interest and passion for *Machine Learning and Data Science*, he bagged an internship at a start-up company that came to the college in his sophomore year. Out of 150 students, only 3 were selected for this internship and U Jaiswal was one of them.

In addition to his technical capabilities, U Jaiswal has demonstrated excellent leadership and volunteering qualities. He has actively participated and led a team of three students during the Adsophos - 2018 and 2019, a technical event conducted by MJCET. Alongside.

He is well-trained, ambitious, and detail-oriented. His enthusiasm reflects in his work and his team. I strongly recommend him for admission to the graduate program at your university and rank him among the top 3% of students in his class. Please feel free to contact me for any further clarifications.

Letter of Recommendation

I Mrs.Gouri R Patil Associate Professor in Department of Information Technology .I would like to recommend Mr. Mohd Umaama Tayyab for his master's program at your University.

I had interacted with him during his three years at his undergraduate studies at college. I had the opportunity to observe and appreciate his performance. I have taught him Computer networks and Embedded systems in his 6th and final semesters respectively. I also guided him in his major project Social Assistive Humanoid Robot which can be used to help the elderly and disabled people by helping them as an assistant and also as an interacting partner.

To my best understanding and reading of his personality, Tayyab is a dedicated, sincere student. He plays utmost attention and actively participates in academic discussion in and outside the class. Besides this, he is also actively participated in several events and workshops on skill development programs on digital systems and annual technical festival Adsophos organized by the department.

I have observed taht he has continuously improved during his course of study. He is regular in his studies and punctual in his submission of records and assignments. I found him to be a highly motivated, competent student. He is capable of understanding the related practical issues involved in the problem and comes up with practical solutions.

I would strongly recommend Mr. Mohd Umaama Tayyab for his graduate studies at esteemed University. He will add a lot of value to your program. Please feel free to discuss this recommendation, if required. I wish him all the success in his future endeavours.

Letter of Recommendation

I Mrs. Gouri R Patil, Associate Professor at Information Technology Department of MuffakhamJah College of Engineering and Technology, Osmania University. I'm pleased to know that one of my student Fazalur Rahman is enthusiastic to join a graduation course in your recognized university. So, I am delighted to write the recommendation letter to express my complete confidence in his master's degree admissions application.

As the Lecturer of the Computer networks and embedded systems, in his department, I have known Fazalur Rahman to be one of the brightest students in the class, a very compliant as regards to the lecturers. During his semester he was completely committed to excel the concepts in a holistic approach, and he has attained a lot of command on fundamental theories, which he tries to apply in practical application. His outlook for class notes and assignment deadlines were appreciable from the department as well for consistently maintaining promptness and elegance.

His academic achievements and worth of projects along with his presentations affirm his keenness and competence to apply them in real-time practical issues. Furthermore, he also followed the university's rules and maintained a high level of dignity constantly. Thus from my observation, I can ensure you that Fazalur Rahman will make his effort noteworthy and continue his journey for being beneficial at your acclaimed university, and simultaneously shine as an individual.

I bless him for his carrier and am glad to help you in choosing a decision, which could be beneficial for both.

Letter of Recommendation

I recommend Mr. Md Waseem Hussain as a student with great promise and sincerity. I have been closely acquainted with him during his undergraduate studies at Muffakham Jah College of Engineering. I have been teaching Mr. Waseem Hussain since 2018. I have taught him Theory of Automata, in the 5th semester and he scored 8/ 10 points in that subject. Also, I have taught him Compiler Construction, Design and Analysis of Algorithms in the 6th semester. He scored 9/ 10 points in Microprocessors and Microcontrollers laboratory which I have taught him in 6th semester.

I have found him to be an intelligent and enthusiastic learner. He is an intelligent, hardworking student with creative and observation skills. he can carry out practical work independently and also extend good cooperation in teamwork. As a student, he was dedicated to his assignments given to him and finished them on time.

Mr.Waseem has learned the python programming language with his team to give his best to the project and has worked immensely on the project to get the desired and accurate output. In addition, Waseem has shown great interest in practical- aided learning techniques and has displayed good analytical and research- oriented mindset. His research skills are pretty impressive as every day he studies research papers and journal articles to get the better understanding about Neural Networks.

Mr. Waseem also maintains a very good rapport with her instructors and fellow students. He is a very active participant in the class discussions. His presentations of reports and departmental seminars have been very good, indicating impressive communication skills and good command over the English language.

Hence, I strongly recommend him to be considered as the potential candidate for admission to the graduate program in your esteemed university with full financial assistance. I wish him all the success in her pursuits of academic advancements and career.

LETTER OF RECOMMENDATION

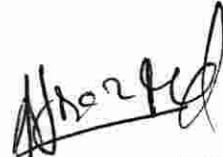

It gives me great pleasure to recommend Mr. Syed Musaib Abdus Salam for graduate studies at your acclaimed University. I have known salam in my capacity for three years in his undergraduate studies during which I taught him the courses "Java Programming, Java Lab, and Web Application Development (WAD) and have monitored him in "Java Programming Lab". Through my observation, I can say that he is attentive and always possesses a positive attitude towards academics. Throughout his course, Syed Musaib Abdus Salam has shown great interest in practical learning.

In my opinion, Syed Musaib Abdus Salam's greatest strengths are his problem-solving skills and attention to detail. He is focused, driven, and always aims to excel. I have always been impressed by his high quality deliverables; his cheerful disposition and helping nature make him stand out in the team.

I sincerely believe Syed Musaib Abdus Salam will bring a unique energy, optimism, passion, and tireless creativity to your class. As a person who is always ready to take up responsibilities, he carries out his duties with immense dedication. He is a sincere and hardworking student with unparalleled self-drive to excel in his field of study. His keen interest in programming and thinking out of the box approach outshines him among his peers.

It is my conviction that Salam depth of understanding will make him a perfect candidate for the master's program at your renowned university. I strongly recommend his candidature for your graduate program.

LETTER OF RECOMMENDATION

I am pleased to endorse Syed Mohd Sarwar Ali's candidature for graduate studies in your esteemed university. I have known him for 4 years and have taught him the courses Java Programming, Java Lab and Mathematical Foundations of Information Technology. My interaction with him in class has introduced me to some of his unique abilities and temperament.

He is interested in strengthening his academic proficiency by pursuing his graduate program at your esteemed university. I believe that his endurance and analytical skills will contribute significantly to the research of your institute. His never ending thirst for knowledge, I am sure, will make him successful when he takes up research at the master's level. Being an IT student, his keen interest in Java Programming, Java Lab, and Mathematical Foundations of Information Technology has impressed me a lot.

I would like to wish Syed Mohd Sarwar Ali all the best in his pursuance and accredit him to you as a deserving candidate for admission in your esteemed university. I rank him among the top 15% of the student in his class. I request your kind cooperation in helping him with available financial support.

LETTER OF RECOMMENDATION

With immense pleasure, I am writing this reference letter in support of Ms. Fahmeeda Begum who is applying to the Masters at your esteemed university. I have known Fahmeeda Begum in my capacity as her professor and taught her "Operating System Lab" and "Neural Networks". Since, her enrollment into MJCET with remarkable scores in her under graduation, she has shown a constant increase in her scores. Her overall progress graph in laboratory hours, as well as theory classes, has been quite impressive, and is awarded the first rank. She is distinguished among her batch due to her honest, hardworking and dedicated approach in all her undertakings.

Fahmeeda Begum has been an interactive and attentive student during theory classes. She has also shown enthusiasm during the laboratory hours and during workshops that were held for the practical implementation of the concepts taught in the theory classes. She has a good sense of lateral thinking and the ability to associate ideas and concepts, which she has well reflected in her course work.

Fahmeeda Begum has conducted various workshops for her peers and juniors and doesn't shy away from initiating new dialogues. She has also proved her intelligence, strong aptitude, and verbal skills with her remarkable GRE score. Lastly, I want to conclude by saying that Ms. Fahmeeda Begum possess all the qualities of an excellent student. Moreover, she has shown noticeable and considerable efforts in distinguishing herself by volunteering, participating, winning, and working for the betterment of society, I am sure she will evolve further into a seasoned and tenured professional. Due to her strong caliber, she has also been given an offer letter from various top-notch MNC's. I am glad to strongly recommend her to your prestigious university.

LETTER OF RECOMMENDATION

It gives me great pleasure to recommend Mr. Mohammed Abdul Hadi for graduate studies at your acclaimed University. I have known Abdul Hadi in my capacity for three years in his undergraduate studies during which I taught him the courses "Java Programming, Java Lab, Mathematical Foundations of Information Technology and and have monitored him in "Java Programming Lab". Through my observation, I can say that he is attentive and always possesses a positive attitude towards academics. Throughout his course, Abdul Hadi has shown great interest in practical learning.

In my opinion, Abdul Hadi's greatest strengths are his problem-solving skills and attention to detail. He is focused, driven, and always aims to excel. I have always been impressed by his high quality deliverables; his cheerful disposition and helping nature make him stand out in the team.

Within the period of his studies under my tutelage, he has shown himself as a reliable, diligent, and disciplined student with comprehensive knowledge in different areas. Having taught him, I can confidently say that Abdu Salam is one the most promising and hardworking students in his batch.

I sincerely believe Abdul Hadi will bring a unique energy, optimism, passion, and tireless creativity to your class. As a person who is always ready to take up responsibilities, he carries out his duties with immense dedication. He is a sincere and hardworking student with unparalleled self-drive to excel in his field of study. His keen interest in programming and thinking out of the box approach outshines him among his peers.

It is my conviction that Abdul Hadi depth of understanding will make him a perfect candidate for the master's program at your renowned university. I strongly recommend his candidature for your graduate program.

LETTER OF RECOMMENDATION

It gives me immense pleasure to provide a recommendation letter for Mr. Syed Jaanisar Kamran, whom I have known in the capacity of professor and as a mentor throughout his academic journey at MJCET Hyderabad. Kamran is a highly motivated individual with strong analytical abilities. He can analyse enigmatic problems exceptionally well and come up with smart solutions because of his deep sense of reasoning. His knowledge extends beyond the intensive study curriculum to include a wealth of material in other disciplines that involve problem-solving, critical thinking, and teamwork.

Kamran is a great communicator and has excellent interpersonal skills. His work is presented in a straightforward and succinct manner. In his seminar on "Start-up Ecosystem & Registration to Udyam Portal," he discussed the value of leadership and teamwork, urged students to become entrepreneurs, and provided a step-by-step guide on how to establish a firm with the government. Giving back to the community is something he is very enthusiastic about. He created a website specifically for me, and his creativity was visible in his bold yet practical concepts.

I believe that acceptance into your esteemed institution's graduate program would provide him with the necessary skills to conduct impactful research, further his career, and ultimately prove to be of great benefit to both him and your institute. I would rank him among the top 10% of undergraduate students of his class. I offer this recommendation without reservation and would be happy to discuss Kamran's qualifications further should you have any questions.
