CIE: Continuous Internal Evaluation

SEE: Semester End Examination (Univ. Exam)

Note-1:

- Each contact hour is a Clock Hour
- The duration of the practical class is two clock hours, however it can be extended wherever necessary, to enable the student to complete the experiment

Note-2:

* The students have to undergo a Summer Internship of four weeks duration after VI semester and credits will be awarded in VII semester after evaluation.

** Subject is not offered to the students of CSE and IT Department.

CIVIL

1604-15-

Non-CBCS

All four year scheme

5. A candidate after he/she been declared successful in the whole examination shall be given certificate setting forth the year of examination, the subjects in which he/she was examined and, the division in which he/she was placed.
6. No candidate shall be allowed to put in attendance for or appear at Examinations for different degrees and different faculties at one and the same time.
7. Students who have appeared once at any examination of the Course, need not put in fresh attendance, if they want to reappear at the corresponding Examinations, notwithstanding the fact that new subjects may have been introduced by the University. They will however, have to appear at the examinations according to the scheme of Examination and Syllabus in force.

PART IX - TRANSITORY REGULATIONS

1. Whenever, course or scheme of instruction is changed in a particular year, two more examinations immediately following thereafter, shall be conducted according to the old syllabus/regulations. Candidates not appearing at the examinations or failing in them shall take the examination subsequently according to the changed syllabus/regulations.

w.e.f. 2014-15

5. A candidate after he/she been declared successful in the whole examination shall be given certificate setting forth the year of examination, the subjects in which he/she was examined and, the division in which he/she was placed.
6. No candidate shall be allowed to put in attendance for or appear at Examinations for different degrees and different faculties at one and the same time.
7. Students who have appeared once at any examination of the Course, need not put in fresh attendance, if they want to reappear at the corresponding Examinations, notwithstanding the fact that new subjects may have been introduced by the University. They will however, have to appear at the examinations according to the scheme of Examination and Syllabus in force.

PART IX - TRANSITORY REGULATIONS

1. Whenever, course or scheme of instruction is changed in a particular year, two more examinations immediately following thereafter, shall be conducted according to the old syllabus/regulations. Candidates not appearing at the examinations or failing in them shall take the examination subsequently according to the changed syllabus/regulations.

Instruction	4 Periods per week
Duration of University Examination	3 Hours
University Examination	75 Marks
Sessional	25 Marks

UNIT-I

Partial differential Equations : Formation of partial-differential equation of first order-Lagrange's solution, Standard types-Charpit's method of solution-partial differential equations of higher order, Monge's method.

UNIT-II

Fourier Series : Expansion of a function in Fourier series for a given range-odd and even functions of Fourier series-change of interval-Applications of Fourier series-square wave forms-saw tooth wave form and modified square saw tooth wave form-half range sine and cosine expansions-complex Fourier series.

UNIT-III

Applications of Partial differential equations : Solution of wave equation, heat equation and Laplace's equation by the method of separation of variables and their use in problems of vibrating string, one dimensional unsteady heat flow and two dimensional steady state heat flow.

UNIT-IV

Numerical methods : Solutions of Algebraic and Transcendental equations - Bisection method, Regula-Falsi method and Newton-Raphson's method-Solution of Linear system of equations, Gauss elimination method, Gauss Seidel iterative method, ill conditioned equations and refinement of solutions, Interpolation, Newton's divided difference interpolation-Numerical differentiation, Solution of differential equations by Euler's method, modified Euler's method and Runge-Kutta Method of 4th order.

DISTRIBUTED SYSTEMS

Instruction 4 Periods per week
 Duration of University Examination 3 Hours
 University Examination 75 Marks
 Sessional 25 Marks

UNIT-I

Characterization of Distributed Systems

Introduction, Examples of distributed systems, Resource sharing and the web, Challenges.

System Models

Introduction, Architectural models, Fundamental models.

Operating System Support

The operating system layer, Protection, Processes and threads, Communication and invocation, Operating system architecture.

UNIT-II

Interprocess communication: Introduction, The API for the internet protocols, External data representation and marshalling.

Client Server communication: Group Communication, Case study: Interprocess communication in UNIX.

Distributed objects and Remote Invocation: Introduction, Communication between distributed objects, Remote procedure call, Events and notifications, Case study: Java RMI.

Name Services : Introduction, Name services and the Domain Name System, Directory services, Case study of the X.500 Directory Service.

UNIT-III

Time and Global States

Introduction, Clocks , Events and process states, Synchronizing physical clocks, Logical clocks, Global states, Distributed debugging.

Coordination and Agreement

Introduction, distributed mutual exclusion, Election, Multicast communication, Consensus and related problems.

CS 433

PROJECT SEMINAR

Instruction 3 Periods per week
 Sessional 25 Marks

The department can initiate the project allotment procedure at the end of III year 2nd semester and finalize it in the first two weeks of IV year Ist semester.

First 4 weeks of IV year Ist semester will be spent on special lectures by faculty members, research scholars, postgraduate students of the department and invited lecturers by engineers from industries and R&D institutions. The objective of these preliminary talks will be to expose the students to real life practical problems and methodology to solve the technical problems.

Seminar schedule will be prepared by the coordinator for all the students from 5th week to the last week of the seminar which should be strictly adhered to.

Each student will be required to :

1. Submit a one page synopsis before the seminar for display on notice board.
2. Give a 20 minute presentation followed by 10 minutes discussion.
3. Submit a technical write-up on the tal.

Atleast two teachers will be associated with the Project Seminar to evaluate students for the award of sessional marks which will be on the basis of performance in all the 3 items stated above.

The seminar presentation should include the following components of the project :

- Problem definition and specification.
- Literature survey, familiarity with research journals.
- Broad knowledge of available techniques to solve a particular problem.
- Planning of the work, preparation of bar (activity) charts
- Presentation - oral and written.

Note : Three periods of contact load will be assigned to each project guide.

POWER SYSTEM OPERATION AND CONTROL

Instruction	4 Periods per week
Duration of University Examination	3 Hours
University Examination	75 Marks
Sessional	25 Marks

UNIT-I

Load Flow Studies: Formulation of Y bus for a system, modeling of tap changing and phase shifting transformer, Formulation of load flow problem, Solution of load flow by Gauss-Seidel, Newton-Raphson, Decoupled and Fast Decoupled methods, comparison of different load flow methods.

UNIT-II

Economic Operation of Power System: Input-Output curves, Heat rates and incremental cost curves, Equal Incremental cost criterion neglecting transmission losses with and without generator limits, B_{min} coefficients, Economic operation including transmission losses.

UNIT-III

Load Frequency Control: Governor Characteristics, Regulation of two generators, coherency, concept of control area, Incremental power balance of a control area, Single area control, Flat frequency control, Flat tie-line frequency control, Tie-line bias control, Advantages of pool operation, Development of model for two-area control.

UNIT-IV

Power System Stability: Definitions of Steady state stability and Transient stability, Steady state stability of a synchronous machine connected to infinite bus, calculation of steady state stability limit, synchronous machine models with and without saliency, Equal area criterion, Application of equal area criterion, Swing equation, Step by step solution of Swing equation, factors effecting transient stability, Auto Reclosures, mathematical formulation of voltage stability problem.

Non-CBCS

5. A candidate after he/she been declared successful in the whole examination shall be given certificate setting forth the year of examination, the subjects in which he/she was examined and, the division in which he/she was placed.
6. No candidate shall be allowed to put in attendance for or appear at Examinations for different degrees and different faculties at one and the same time.
7. Students who have appeared once at any examination of the Course, need not put in fresh attendance, if they want to reappear at the corresponding Examinations, notwithstanding the fact that new subjects may have been introduced by the University. They will however, have to appear at the examinations according to the scheme of Examination and Syllabus in force.

PART IX - TRANSITORY REGULATIONS

1. Whenever, course or scheme of instruction is changed in a particular year, two more examinations immediately following thereafter, shall be conducted according to the old syllabus/regulations. Candidates not appearing at the examinations or failing in them shall take the examination subsequently according to the changed syllabus/regulations.

OPTO-ELECTRONICS INSTRUMENTATION

Instruction	4 Periods per week
Duration of University Examination	3 Hours
University Examination	75 Marks
Sessional	25 Marks

UNIT-I

Laser Fundamentals: Mechanisms, Properties of Laser Generation, Optical Feedback, Classification of LASERS: Solid, Liquid, Gas Lasers and their Respective Energy Level Diagrams. Construction of Dye, Nd-YAG Argon and Carbon dioxide lasers, Characteristics of stabilization, Q-switching and mode locking.

UNIT-II

Laser Instruments: Laser Interferometers, laser strain gauges, Pulse echo technique, Beam modulation telemetry. Laser welding, Laser machining and Laser spectroscopy. Line shape function, lasing threshold, Application of lasers in Engineering and Medicine, Safety with lasers.

UNIT-III

Optical Fiber Fundamentals: Introduction to optical fibers, Fundamentals of Transmission Theory, Fiber Fabrication and Manufacturing techniques, Fiber Splicing, Connectors and Jointing Technique, Electro-optic, Mechano-optic And Acousto-optic modulation techniques, Losses in Optical fibers.

UNIT-IV

Fiber Optic Instrumentation: Classification And Principle of Fiber optic sensors, Optical Time Domain Reflectometer. Multimode passive and active fiber sensors, phase modulated sensors. Measurement of Current, Voltage, Pressure, Temperature, Displacement, Acceleration, Fluid level using optical fibers.

EG 101 UE

ENGLISH (THEORY)

Instruction	3 Periods per week
Duration of University Examination	3 Hours
University Examination	75 Marks
Sessional	25 Marks

UNIT-I

Effective Communication : Role and importance of communication; Features of human communication; Process of communication; Types of communication: Verbal - formal versus informal communication, one way versus two-way communication; Non-verbal communication; Barriers to communication; Importance of listening in effective communication.

UNIT-II

Oral communication: Importance of oral communication; Seminar skills; Speech-making: Types of speeches; Situational dialogues; Speaking strategies; Interpersonal Communication, Models of interpersonal development - Johari Window; Styles of communication, persuasion techniques; Team work.

UNIT-III

Written Communication : Paragraph writing; Report writing; Types of reports, Writing technical reports and scientific papers; Communication through letters; official and personal letters, letters of complaint, letters of enquiry and responses, resume writing; cover letters, memos, circulars, notices, minutes of meeting, writing a statement of purpose, e-mail etiquette.

UNIT-IV

Remedial English : Common errors, words often confused, tense and aspect, articles, prepositions, connectives and correlative conjuncts, voice, concord, direct and indirect speech, question tags, punctuation, homonyms, homophones, synonyms, antonyms, one-word substitutes; Idiomatic usage.

UNIT-V

Reading comprehension, reading strategies. The following four lessons are prescribed :

10. Public Speaking : Advantages of public speaking, essentials of an effective speech, rehearsal techniques, planning and delivering a speech.
11. Role play : Use of dialogues in a variety of situations and settings.
12. Effective use of a dictionary and thesaurus : Advantages of using a dictionary and thesaurus.

Suggested Reading :

1. E. Suresh Kumar et al, *English for Success (with CD)*, Cambridge University Press India Pvt. Ltd. 2010.
2. T. Balasubramanian, *A Textbook of English Phonetics for Indian Students*, Macmillian, 2008.
3. Edgar Thorpe, *Winnings at Interviews*, Pearson Education, 2006.
4. Hari Mohan Prasad, *How to prepare for Group Discussions and Interviews*, Tata McGraw Hill, 2006.
5. J. Sethi et al, *A Practical Course in English Pronunciation (with CD)*, Prentice Hall India, 2005.

WITH EFFECT FROM THE ACADEMIC YEAR 2011 - 2012

**SCHEME OF INSTRUCTION & EXAMINATION

ME 351

MACHINE DESIGN

Instruction	4	Periods per week
Duration of University Examination	3	Hours
University Examination	75	Marks
Sessional	25	Marks

UNIT-I

Mechanical Springs: Types of springs and materials used. Design of helical springs on stress, deflection and energy considerations. Design for fluctuating loads. Concentric springs. Leaf Springs: Stresses and Deflection. Principles of Limit design. Nipping of Leaf springs.

UNIT-II

Gears: Types of gears and materials used. Standards for gear specifications. Design of Spur, Helical, Bevel and Worm Gears - Strength and Wear considerations. Types of failure of gear tooth and preventive measures.

UNIT-III

Bearings: Materials used for Bearings. Classification of Bearings. Viscosity of Lubricants. Theory of Hydrostatic and Hydrodynamic lubrication. Design of sliding contact bearings - for axial and thrust loads.

Rolling Contact Bearings: Different types of rolling element bearings and their constructional details. Static and Dynamic load carrying capacity, Load-life relationship. Design for cyclic loads.

UNIT-IV

I.C. Engine Parts : Design of piston, connecting rod and crank shafts (single throw and overhang). Design of Flywheels for I.C. Engines and presses.

UNIT-V

Theory of bending: Theory of bending of members with initial curvature - rectangular, circular and Trapezoidal sections. Design of crane Hooks, Machine frames and C-clamps.

ME 382

CAD / CAM LAB

Instruction	3	Periods per week
Duration of University Examination	3	Hours
University Examination	50	Marks
Sessional	25	Marks

1. Practice in the use of some of the packages like: Pro-E / Solid works / MDT / Inventor / CATIA etc., for Geometric modeling of simple parts (sketching).
2. Part modeling and Assembly of simple parts using any of the above packages.
3. Static Analysis of Plane Truss and 2D beam for different type of loads using ANSYS / NASTRAN / ADINA etc.,
4. Static analysis of Plate with a hole to determine the SCF and Deformations and Stresses.
5. Static Analysis of connecting rod, pressure vessels.
6. Dynamic analysis: Modal Analysis of cantilever Beam and Harmonic analysis of Shaft.
7. Steady state heat transfer Analysis Cross section of chimney and Transient heat transfer analysis of solidification of casting.
8. Facing and turning, step turning, taper turning, contouring on CNC lathe.
9. Pocketing and contouring on CNC milling machine.
10. Simulation and development of NC code using any CAM software.
11. Programming for integration of various CNC machines, robots and material handling systems

ME 383

INDUSTRIAL VISIT / STUDY

At least 3 days in a semester	3 x 8 = 24 hours
Sessional	Grade*

A minimum of two industrial visits will be arranged by department and students have to attend the visits and prepare a data report of their visits to the industries and submit to the department. Students are required to present a seminar based on their report which is evaluated by Head of Department and two senior faculty to award the grade.

**Excellent/Very Good/Good/Satisfactory/Unsatisfactory*

Functions of Complex variables : Limit and Continuity of function-Analytic function-Cauchy-Reimann equations - Cartesian and Polar form and Harmonic functions-complex integration - Cauchy's theorem-Derivative of Analytic functions-Cauchy's integral formula and it's applications.

UNIT-II

Taylor's and Laurent's Series Expansions-Zeroes and Singularities-Residues-Residue theorem-Evaluation of real Integrals using Residue theorem-Conformal Mapping-Bilinear transformation.

UNIT-III

Statistics : Random Variables - distributions - density functions-conditional distributions-Bayes's theorem-mathematical expectation-expected values-moments and Moment generating functions - Characteristic function.

UNIT-IV

Distributions : Normal-Gamma - Poisson and Chi-distributions - Tests of Significance - Chi-Square - F and t-tests.

UNIT-V

Curve fitting by method of least squares : Correlation and Regression - lines of regression fitting of curves by the method of least squares (straight line, parabola, exponential curves).

ME 291

MECHANICAL TECHNOLOGY LAB
(For EEE & IE)

Instruction	3	Periods per week
Duration of University Examination	3	Hours
University Examination	50	Marks
Sessional	25	Marks

1. Performance test on multi-cylinder petrol or diesel engine
2. Measurement of discharge by Venturi meter
3. Measurement of velocity by Pitot tube
4. Measurement of discharge by Orifice meter / Rotameter
5. Determination of Flash and Fire points of lubricants
6. Determination of Thermal conductivity of a composite wall
7. Determination of Heat transfer coefficient under Natural convection
9. Determination of volumetric efficiency of multi stage reciprocating air Compressor
10. Study of construction details of a Gear box (for EEE only)
11. Performance of (a) Francis, (b) Kaplan and (c) Pelton wheel Turbines
12. Performance and characteristics of (a) Reciprocating and (b) Centrifugal Pumps.

WITH EFFECT FROM THE ACADEMIC YEAR 2012 - 2013

MP 333

METAL FORMING TECHNOLOGY LAB

Instruction 3 Periods per week
 Duration of University Examination 3 Hours
 University Examination 50 Marks
 Sessional 25 Marks

1. Evaluation of True-Stress and True - Strain characteristics of Ferrous and Non Ferrous metals in a tensile test.
2. Studying the normal anisotropy characteristics of materials.
3. Evaluation of formability of sheet metals in Erichsen Cupping test.
4. Study of simple dies and performing blanking and piercing operations using, mechanical presses and measurement of forces in the operation and comparing with the theoretical loads.
5. Study of compound die and production of a typical component on the same.
6. Study of progressive die and production of a typical component on the same.
7. Study of combination die and production of a cup on the same.
8. Drawing operation to produce cup in a hydraulic press and measurement of load during the operation and comparing with the theoretical loads.
9. Demonstration of wire drawing operation.
10. Demonstration of extrusion of lead material.
11. Forging practice.
12. Sheet metal's die operations for bending.
13. Computer simulation of typical forming operations.
14. Spinning/flow forming exercises.

MP 383

METAL CASTING AND WELDING LAB

Instruction 3 Periods per week
 Duration of University Examination 3 Hours
 University Examination 50 Marks
 Sessional 25 Marks

Foundry:

1. Study of foundry equipment and sand reclamation.
2. Testing of greensand properties.
3. Greensand mould making process with complete sprues, gates risers designs.
4. Melting and casting aluminium metal.
5. Making of a shell using shell moulding machine.
6. Study of defects in castings.

Welding:

7. Making of lap joint by resistance welding process and its strength evaluation
8. Study of different types flames in gas welding process.
9. Study of bead geometry in arc welding process.
10. Determination of weld characteristics using DC and AC power sources.
11. Study of butt joint strength evaluation by GMAW process.
12. Welding of aluminium with GTAW process.

ME 383

INDUSTRIAL VISIT / STUDY

At least 3 days in a semester 3 x 8 = 24 hours
 Sessional Grade*

A minimum of two industrial visits will be arranged by department and students have to attend the visits and prepare a data report of their visits to the industries and submit to the department. Students are required to present a seminar based on their report which is evaluated by Head of Department and two senior faculty to award the grade.

HIERARCHAL ACADEMIC SYSTEM

The hierarchal academic system devised for the implementation of OBE system and to ensure improvement and implementation of pedagogical initiatives is listed below. The teaching-learning process and its assessment is monitored by

- i. Programme Coordinator
- ii. Module Coordinator
- iii. Course Advisor
- iv. Course Coordinator

The hierarchy of the faculty with respect to the Outcome Based Education System is presented as a flow chart in figure below. The structure has program coordinator at the top of the hierarchy, with the module coordinator reporting to program coordinator. Each module coordinator is responsible for a particular specialization of stream of subjects and the Course advisor and course coordinator report to the module coordinator. The duties and responsibilities of personnel serving at each level are clearly defined to facilitate smooth implementation.

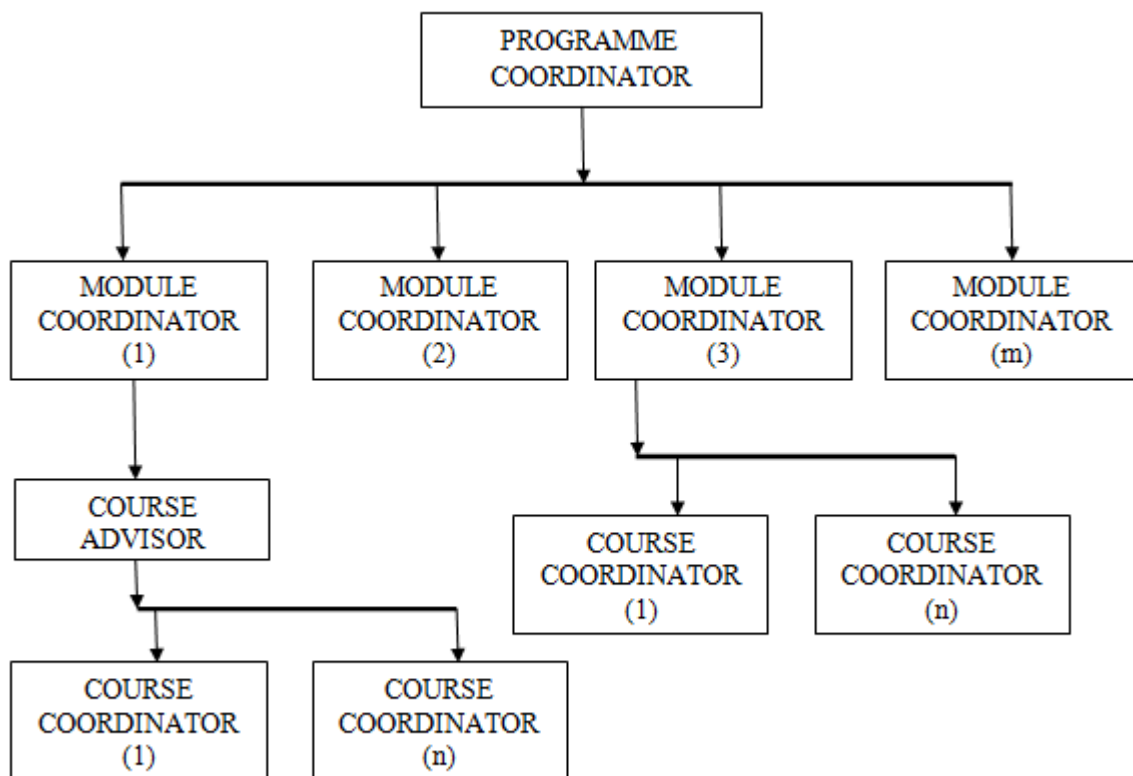

Figure: Academic structure for implementation of OBE

i. DUTIES AND RESPONSIBILITIES OF COURSE COORDINATOR

The course coordinator is responsible for planning, delivering and assessing the outcomes of the courses offered by him/her during the semester/year. Course coordinators are accountable to the Head of the Department for all academic and administrative activities associated with the course.

He/she has to work in coordination with the course advisor and module coordinator for the day to day activities and with the programme coordinator and the HOD for the overall course administration. The course coordinator is expected to maintain academic quality in knowledge, pedagogy and alignment of the learning activities with course outcomes and assessment. The duties and responsibilities of the course coordinator are divided into three phases; prior to start of the semester, during the semester and at the end of the semester.

The responsibility of the course coordinator as documented by NBA manual is to 'Monitor and review the activities related to attainment of course outcomes'. The following activities are proposed a follow up to the broad statement given by NBA.

Prior to Start of the Semester

- 1.** Prepare the teaching schedule, ideally spread over 12-13 weeks of class work. Hence for 4 hours per week of theory course the number of planned classes would be between 48 to 52.
- 2.** Prepare the course file consisting of teaching schedule, lecture notes, assignment problems with solutions, old university question papers with solutions for at least three years, internal test question papers with solutions, tutorial sheets with solutions, teaching aids etc.
- 3.** Prepare the Course Handout and submit it to the Module Coordinator/Programme Coordinator. The course handout needs to be signed by the course coordinator, module coordinator, programme coordinator and the Head of the Department.
- 4.** Place the teaching schedule, syllabus (optional), Course Handout on the course coordinators webpage
- 5.** Order textbooks/reference books for the course through the module coordinator who would in turn pass it on to the HOD for further processing

6. Develop valid and reliable methods to evaluate course learning outcomes.
7. Intimate the Module Coordinator, Programme Coordinator and HOD about any specific requirements for the course like field visits, guest lectures, seminars etc. for attainment of Course Outcomes
8. Plan a project/mini project/ R & D project and submit details to the module coordinator

During the course of the Semester

1. Make course outcomes clear to students and use engaging ways to begin the course.
2. Communicate clearly with the students and build on their prior knowledge and experience.
3. Follow the syllabus and teaching schedule so as to ensure that course coverage of all units takes place at the same pace. Substantial deviation from the teaching schedule must be approved by the module coordinator.
4. Maintain and update the electronic archive with intended course material, handouts, assignments, internal test papers, learning aids etc. in a timely fashion.
5. Conduct all the planned activities for attainment of the course outcomes
6. Attend the meetings with the module coordinator and furnish relevant information for review and audit of the course
7. Respond to the course advisor as and when approached for mutual discussions regarding course coverage, syllabus for internal assessments, grading of the test papers etc. in order to ensure uniformity between sections.
8. Be available at the designated location during the availability hours as indicated in the Course Handout

At the end of the Semester

1. Administer student evaluation form after completion of the course
2. Carry out the assessment as per laid down norms and provide the information to the Module coordinator
3. Attend the meeting with the Module Coordinator and submit the 'course completion report' in the prescribed format.
4. Carry out annual course review and provide written inputs for Programme Assessment Committee which would meet twice in a year, once after each semester.

ii. DUTIES AND RESPONSIBILITIES OF THE COURSE ADVISOR

Course advisor is designated wherever the same course is offered by different course coordinators to different sections/classes. The following are the envisaged duties of the course advisor:

- i.** To review the teaching schedule of the course coordinators offering the same course
- ii.** By virtue of being more experienced, to advise the other course coordinators regarding relative importance of the units, problems to be solved and pedagogy to be adopted for effective delivery of the course material.
- iii.** To review the course coverage prior to the Internal Assessment tests in order to ensure comparable coverage for all sections
- iv.** To review the grading of internal papers and ensure that evaluation errors (wrong totaling or oversight in evaluation of some answers) are corrected by the course coordinator. Erratic evaluation should be brought to the notice of the programme coordinator and the HOD for necessary action.
- v.** In case of the First year courses and II year Mathematics III and IV courses, the course advisor should obtain the scheme of evaluation and the key from the module coordinator (Head of the Section) and ensure that fair evaluation is done.

iii. DUTIES AND RESPONSIBILITIES OF MODULE CO-ORDINATORS

Each module has a Module Coordinator who is designated by the Head of the Department and ratified by the Internal Quality Assurance Cell. Module Coordinators are responsible for the delivery of the teaching in individual modules and the accompanying administration.

The number of staff involved in teaching a specific module varies with the number of courses in the module. There may be some modules which contain only one course, in which case the course coordinator would also be the module coordinator. The module coordinator decides how to manage the course coordinators; informally in case of few teachers and by adopting a structured approach in case of several teachers. In each case documentation of the processes followed is mandatory.

Each programme may have typically 5 to 10 modules, headed by a module coordinator who typically is the most experienced teacher in that module. In basic sciences and Humanities the Head of the Section would serve as the module coordinator.

Before the commencement of the semester, the Module Coordinator will:

- Conduct a meeting of all the course coordinators in the module and explain the aims, objectives and expected learning outcomes of the module and each individual course in the module
- Brief the course coordinators on current state of knowledge and research in the area of the module
- Present an assessment of the student capabilities and highlight areas of possible learning difficulties
- Provide appropriate introduction as necessary to the new staff involved in teaching the module
- Review and ratify the teaching schedule, course outcomes, course files, lab manuals and proposed teaching and assessment strategy
- Discuss and approve suitable projects/mini projects in the module and assign them to the module teachers. Every teach should offer at least one project which could be a R & D project, a mini project or a final year project.

On commencement of the Semester, the Module Coordinator will:

- Address the classes and communicate clearly with the students about the relevance of the module, what they can expect from the module and its teachers and what is expected of them.
- Provide the students with a module handout outlining the module, relevance of the courses to the module and the expected application of the knowledge and skills gained through the module.
- Brief the students about the opportunities for employment and higher studies, both in India and abroad, in the areas of the module. Alumni assistance may be taken in this.

During the course of semester the module coordinator will:

- Monitor the coverage of syllabus by the course coordinators
- Obtain an oral feedback from the students to ascertain the strengths and weaknesses of teaching team vis. a vis. appropriateness of the course material and attainment of course outcomes
- Disseminate information about possible mini-projects/projects in the module and roll out details of the projects and the associated guides
- Conduct at least one meeting of the course coordinators during the semester
- Devise and implement suitable strategies to overcome shortcomings in the delivery of the module courses
- Review the assignments and other planned activities for attainment of course outcomes
- Review the internal test papers

On the completion of the semester the module coordinator will:

- Audit the sessional marks of the courses in the module. Get valuation errors corrected by the course coordinator and bring valuation inconsistencies to the notice of the Programme Coordinator and HOD.
- Analyses results of particular course and recommend the program coordinator and HOD to take appropriate action
- Make an assessment of the course outcomes in conjunction with the course coordinators
- Conduct a meeting of the course coordinators after module audit in order to disseminate and discuss the results and to decide upon any necessary action to be taken in response to the results.

Other General Responsibilities

1. Liaise with students, faculty, programme coordinator and Head of the Department to determine priorities and policies
2. Recommends and facilitates workshops, faculty development programs, meetings or conferences to meet the course outcomes
3. Responsible for assessment of the course outcomes
4. Advise library about recommended texts and references for procurement
5. In conjunction with the course coordinators provide annual updates for the module data base
6. Participate in the meetings of the Programme Assessment Committee
7. Module coordinators with over 10 years of experience may be permitted by the HOD to participate in the process of faculty selection in his/her area of specialization
8. When module coordinators send out emails to the students, the message should also be copied to the Programme Coordinator and the Head of the Department

iv. DUTIES AND RESPONSIBILITIES OF PROGRAMME COORDINATOR

Every Programme has a designated Programme coordinator, appointed by the Head of the Institution. The Module coordinators report directly to the Programme Coordinator and in some instances the course coordinator may also report to the Programme coordinator.

The primary responsibilities of Programme Coordinator are as follows:

1. Monitor and review the academic activities of the program for all the four years independently through the Module Coordinators.
2. Ensure through module coordinators that the course coordinators prepare the course handouts, assessment plan, assignment sheets, and tutorial sheets well in advance of the semester commencement date.
3. Ensure that the course coordinators upload the mandatory course material on the student resources portal.
4. Schedule program work plan in accordance with specifications of program educational objectives and program outcomes

5. Oversees daily operations and coordinates activities of program with interrelated activities of other programs, departments or staff to ensure optimum efficiency and compliance with appropriate policies, procedures and specifications given by HOD.
6. Interact and maintain liaison with key stake holders, students, faculty, Department Head and employer.
7. Conduct and interpret various surveys required to assess POs and PEOs

Theory Course Assessment Methodology

For every theory courses, the attainment of CO is measured with respect to the following tools:

1. Class Test
2. University Examination
3. Assignment
4. Tutorial / group assignment / quiz etc.

The course coordinator prepares an Assessment plan for all the COs at the beginning of the semester and uploads it on the college web site. A sample of the Assessment plan is presented on the next page.

Attached to the assessment plan is the assessment matrix. During the course of the semester, the course coordinator enters the marks secured by the student under different assessment tools into the assessment matrix. At the end of the semester, the internal marks and the status of CO attainment is obtained from the assessment matrix.

Maximum University Marks	70
CO attainment threshold (40% of 70)	28
Maximum Internal Assessment marks (Scaled down)	30
CO attainment threshold (60% of 30)	18
Maximum University Marks + Maximum Internal Assessment marks	100
CO attainment threshold of University marks + Internal Assessment marks	46

MUFFAKHAM JAH COLLEGE OF ENGINEERING & TECHNOLOGY

ELECTRICAL ENGINEERING DEPARTMENT

Date: 29/10/2019

NOTICE

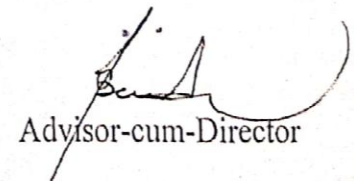

B. E. I SEMESTER

The remedial classes for **Basic Electrical Engineering** are arranged for the students as per the schedule given below. The students other than the Roll Nos. given if interested can also attend the same. The remedial classes starts from 02/11/2019 and will continue till the end of semester. The remedial classes will be conducted in the respective class rooms.

S. No.	Branch	Roll No.	No. of students	Faculty	Day Period
1.	ECE - A	09, 30, 31, 34, 37, 42, 43, 44, 45, 49, 54 58, 60	13	Mr. G. Ravi Kiran	Day 4 Thursday 5,6 Period
2.	ECE - B	63, 66, 74, 79, 82, 90, 92, 94 96, 97, 99, 102, 103, 105, 111, 116, 117, 118, 119, 120	20	Mr. K. Md. Rafi	Day 6 Saturday 5,6 Period
3.	Mech. - A	19, 24, 29, 30, 32 34, 35, 36, 37, 42, 44, 46, 47, 51, 53, 60	16	Mr. Md. Jaffar	Day 2 Tuesday 5,6 Period
4.	Mech. - B	64, 66, 75, 78, 85, 88, 91, 95, 97, 102, 104, 108, 111, 116,	14	Dr. Md. Sajid	Day 2 Tuesday 5,6 Period
5.	IT - A	06, 08, 09, 11, 12, 21, 25, 27, 30, 34, 40, 41, 43, 44, 48, 49, 52, 56, 58, 60	20	Mrs. Bibi Maryam	Day 2 Tuesday 5,6 Period
6.	IT - B	66, 67, 73, 76, 78, 79, 80, 82, 95, 99, 102, 103, 104, 110, 111, 114, 115, 117, 118	19	Mr. P. K. Joshi	Day 1 Monday 5,6 Period
7.	Prod.	001 to 046	46	Mr. Arshad Mohammad	Day 1 Monday 5,6 Period

Microsoft Day &

Training Programs

Helping Students understand about various
Microsoft Academic Programs and help
with Skill Development and Certification

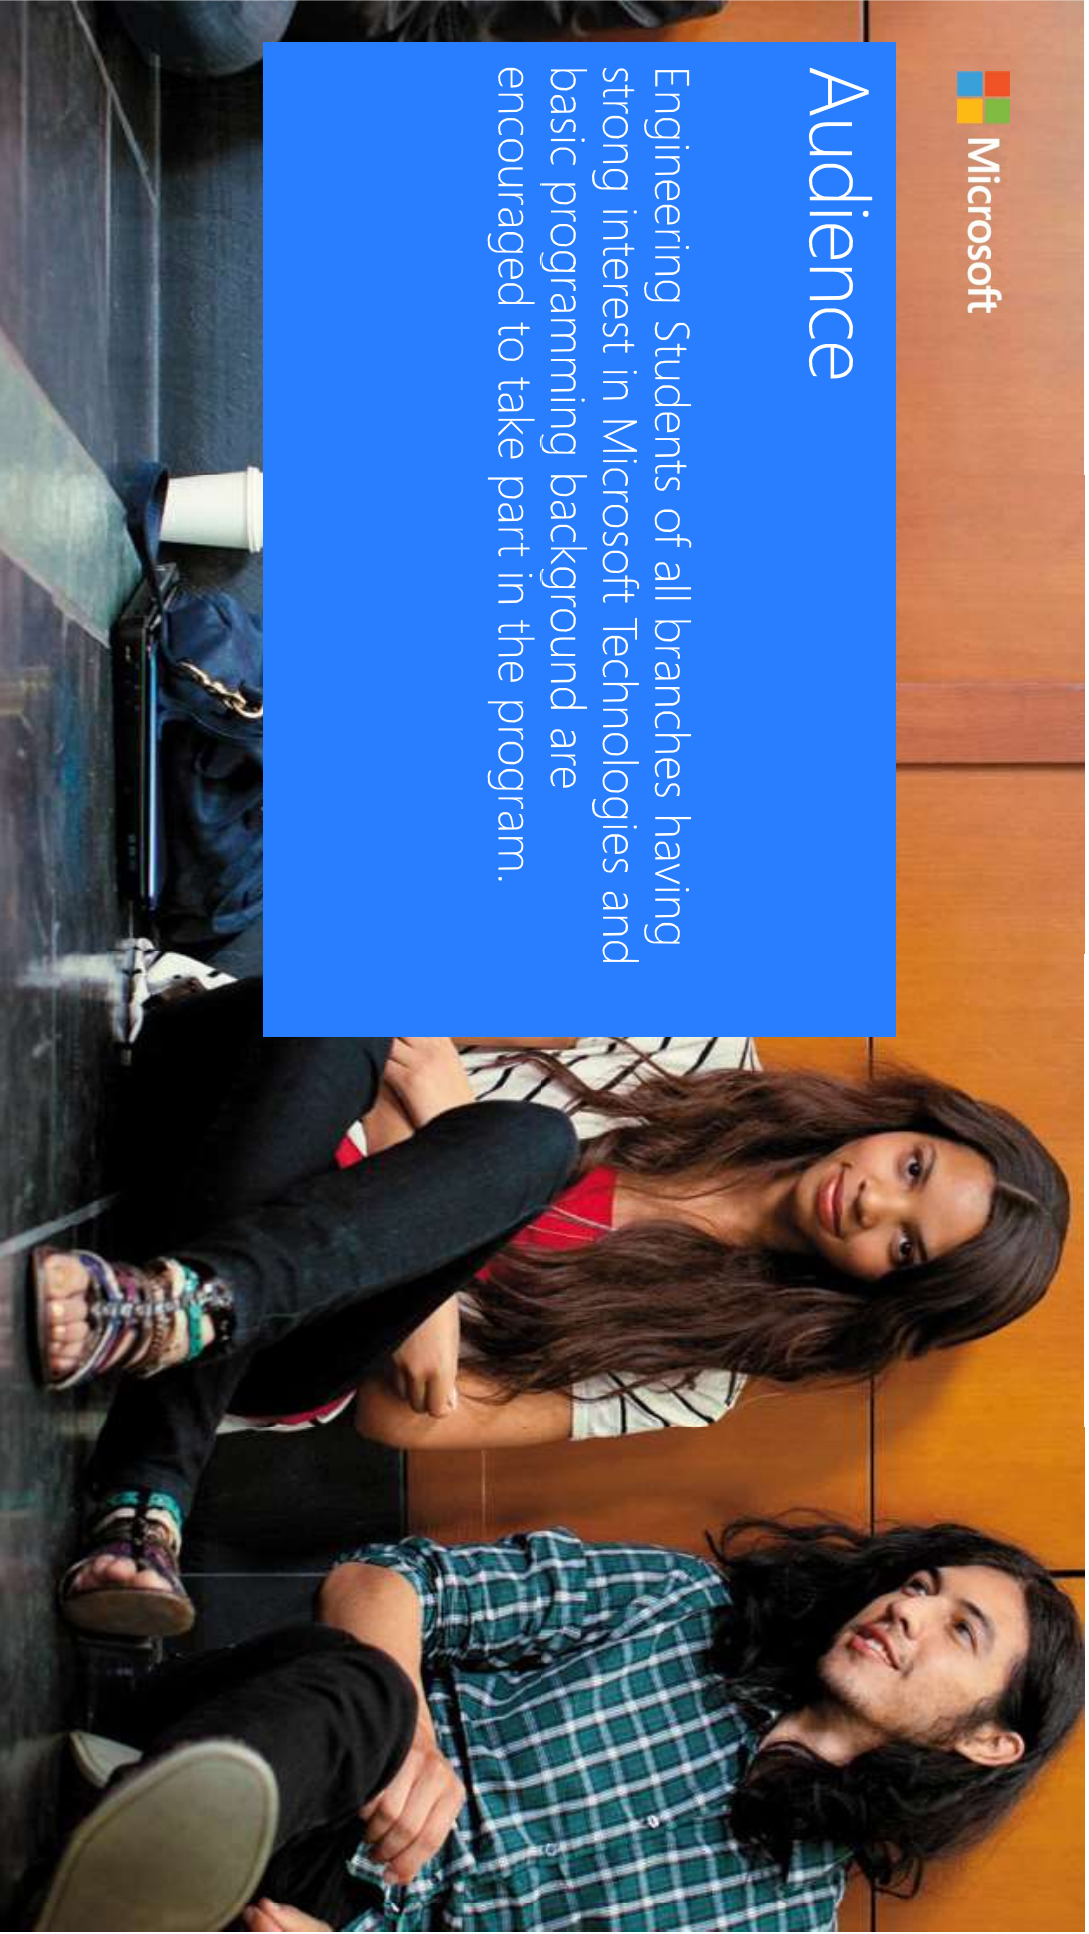

Agenda

- ❑ Introduction to Microsoft Academic Programs and Technology Platforms to Students
- ❑ Introduction to various Certification tracks
- ❑ Awareness of various cutting edge technologies through hands on training programs.
 - **Mobile Phone and Window 8** Application Development – Mobile (Windows Phone, Android, iOS)
 - **Cloud Computing**- Windows Azure
 - **Big Data Applications** – Apache, Hadoop, Pig, Hive, Microsoft HDInsight
 - **Game Development** – Microsoft XNA, Unity3D, Construct2
 - **Internet of Things (IoT)**
- ❑ Introduce to YAPPON-HACKATHON (App development Hackathon) and other Microsoft campaigns to excite and engage students for sustained learning

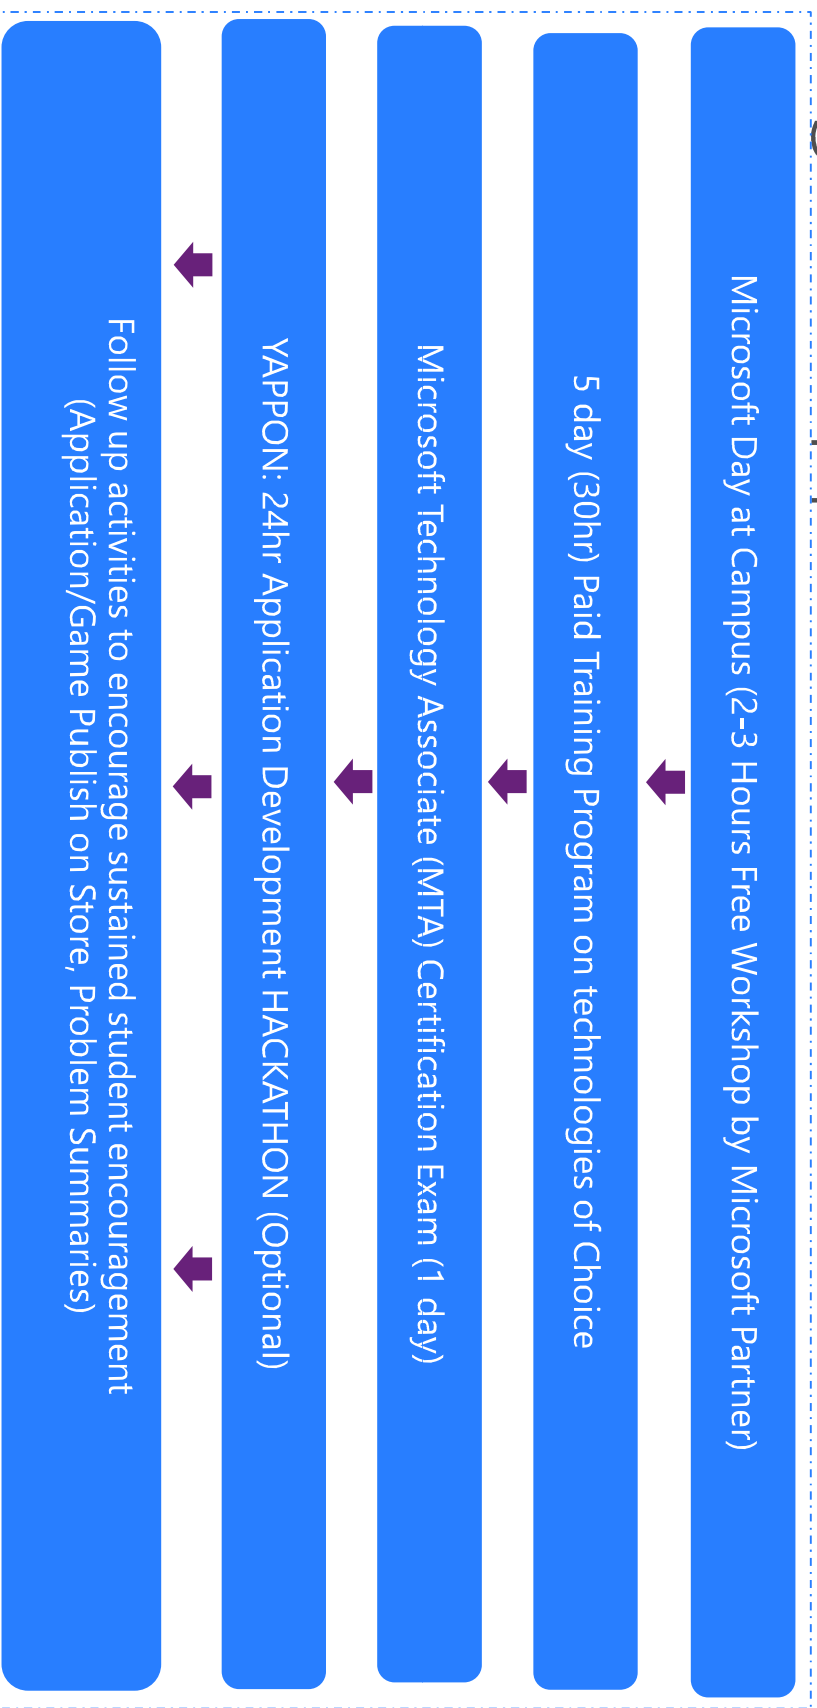

Audience

Engineering Students of all branches having strong interest in Microsoft Technologies and basic programming background are encouraged to take part in the program.

Program Approach

Training Program Tracks

TRACK 1:

Mobile Application Development (Windows Phone, iOS, Android)

- Learn and develop Apps for various mobile platforms – Windows Phone, iOS, Android
- The program is suitable for anyone who has basic knowledge about OOPs concepts.
- Covers C#, HTML5, JS to enable Hybrid and Native application development on these platforms.
- Students can develop apps and publish on store to earn
- MTA Certification

TRACK 2:

Cloud Application Development (Windows Azure)

- Learn basics of Cloud Computing on Microsoft's Windows Azure Platform
- The program is suitable for anyone who has basic knowledge of web programming
- Learn how to configure and use Cloud environment, VMs, Storage, Compute, etc and develop applications on Windows Azure ASP.NET, HTML5
- Students can develop apps and publish on Windows Azure Store
- MTA Certification

Training Program Tracks

TRACK 3:
Big Data Application Development
(Apache Hadoop, Pig, Hive, Microsoft
HDInsight)

- Learn Big Data framework using Apache Hadoop platform. Solve problems related to huge datasets, one of the most important technology these days
- Students with prior experience in OOPs and Web Programming are preferred.
- Learn Apache Hadoop, Pig, Hive and Microsoft HDInsight to solve problems related to TB size datasets
- Work on research projects or publications to publish your findings
- MTA Certification

TRACK 4:
Game Development
(Microsoft XNA, Unity3D, Construct2)

- Learn about the exciting world of Game development for mobile, PC and console platform.
- Students of any year with basic programming experience are eligible
- Learn game development framework such as XNA, Unity3D and Construct2 to develop games for any platform
- Publish games on app stores to earn
- MTA Certification

Program Tracks

TRACK 5: Internet of Things (IOT) (ARM platform using Raspberry Pi)

- Learn ARM architecture, the most popular mobile computing platform and develop projects using Raspberry Pi SBC (Single Board Computer) to understand the scale and application of IOT
- Students with basic experience on electronics and programming can participate (ECE, EEE, CSE, IT students of 2nd year and above)
- Develop projects using Raspberry Pi SBC using Embedded C or Python.
- Hands on working prototype as projects

Program Approach

Training Program Details (Applicable to All Tracks)

- Duration – 5 days, 30hr training program + 1 day for certification (as applicable)
- YAPPON Hackathon – 24hr app development hackathon to start on Saturday morning to conclude on Sunday noon.
- Mode of Delivery – Instructor Led, Hands on Lab
- Batch Size – 60 students/ 1 Instructor
- Requirement – Computer Lab with basic AV arrangement
- Certification Exam – Online Exam which will be conducted in Campus Certipoint/Prometric Centre
- Students are encourage to bring their own laptops/hardware however in case of non-availability we will conduct the program using College's lab infrastructure

Follow up Activities

Depth Training Programs:

Long term training program leading to depth knowledge and professional certifications (e.g. MCSD, MCSE, etc)

Project Mentorship:

Students can get extended mentorship to finish their apps and publish on store after the program through our trainers and online channels

Competition Mentorship:

Support to interested students to apply and participate in various competitions and programs like MICROSOFT IMAGINE CUP

or Diploma or Add-on programs year wise during last five years

Students from MJCET receiving certificates.

Hyderabad: Bolstering efforts towards rolling out industry-ready students for a tech-savvy world, Muffakham Jah College of Engineering and Technology (MJCET) in collaboration with Telangana Academy of Skill and Knowledge (TASK) entered into an agreement with the authorized training partner of world's largest ERP software company SAP (Systems Applications and Products).

The program rhymes with the government's bid to synergize academia and Industry. As part of the training program, nearly 45 MJCET students were trained for SAP ABAP and SAP MM courses, of which 39 students cleared the intrinsic examination. Mr. G. Bhaskar, Director, Corporate Affairs TSTASK presented the course completion certificates.

The MoU encourages students to take global certification. "Students undertaking the SAP Global Certification will be offered 50% of the certification fee by the college management", announced Secretary, Sultan ul Uloom Education Society Mr. Zafar Javeed.

The MoU was signed between MJCET and IPA Education Pvt. Ltd. which is authorized SAP training partner for SAP India in the presence of Mr. G. Bhaskar, and Mr. Zafar Javeed. Mr. BadriNarayan, Executive Director

Speaking on the occasion MJCET Director Dr. Basheer Ahmed said the training program is aimed "to improve the technical calibre of MJCET students and is part of the college's efforts to provide holistic education to students and making them industry-ready."

SUPRA 2019

Mechanical & Production Engineering students of Muffakham Jah College of Engineering and Technology, Banjarahills, Hyderabad, designed and fabricated a Formula Racing Vehicle and participated in the National Level Engineering Student Formula Car Racing Competition **SUPRA SAE INDIA 2019** held at Buddh International Circuit – Country's International Formula car racing track in Greater Noida, scheduled from 15th to 20th July 2019.

1. SAE SUPRA-2017:

Mechanical & Production Engineering students of Muffakham Jah College of Engineering and Technology, Banjarahills, Hyderabad, have designed and fabricated a Formula Racing Vehicle and participated in the National Level Engineering Student Formula Car Racing Competition **SUPRA SAE INDIA** held at Buddh International Circuit – Country's first International Formula car racing track, scheduled from 26th June to 1st July 2017 at Greater Noida.

Supra Team MJCET at Buddh International Circuit - F1 racing track Greater Noida

2. GOKARTING (NKRC-2017)

Team **FALCON RACERS** from Mechanical Engineering Department of Muffakham Jah college of Engineering and Technology had participated in **NATIONAL KART RACING CHAMPIONSHIP – 2017**,

India's Biggest Karting Festival held from 29th September to 3rd October, 2017 at R.P.M. circuit, Bhopal, India.

3. SAE SUPRA-2016:

SAE – Society of Automotive Engineers is one of the largest student organizations in the transport industry. The Formula SAE SUPRA series competitions challenge teams of university undergraduate students to conceive, design, fabricate and compete with formula style racing cars. The SUPRA SAE INDIA 2016 event was scheduled from 4th – 9th July, 2016 at **Buddh International Racing Circuit, Noida** which is the first formula car testing track in the country.

4. GOKARTING (ISK-2017):

The **International Series of Karting** event gives a platform for engineering students to Design and fabricate an innovative Go-Kart as per the rule book. The team “**FACLON RACERS**” of MJCET has participated in a **Gokarting** event held from 21st-24th March, 2017 at Torq03, Bangalore. The team completed all static and dynamic events and completed the final endurance race. The team endured successfully throughout Qualifiers, Quarterfinal, Semi finals and Finals and achieved **All India 8th position among 85 teams** and received “**The Most professional team of ISK 2017**” award.

➤ **GoKart competition:**

Team of 25 students of Mechanical and Production Engineering departments under the guidance of Faculty Advisor Dr. A.S. Reddy, Professor, M.E.D. have fabricated a **GoKart** vehicle and participated in the competition named “International Series of Karting (ISK) 2016” held at Lahari Resort in Hyderabad from 8th to 11th March, 2016.

GoKart Vehicle 2016 and MJCET Team at the event

➤ **EcoKart competition:**

Team of 15 students from Mechanical Engineering Department under the guidance of Faculty Advisor Mr. Suvarna Kumar, Assistant Professor, M.E.D. have fabricated an **EcoKart** Vehicle and participated in the competition held at BML Munjal University, Gurgaon, Haryana from 11th to 13th March 2016. Team Falconz MJCET gained 201 points which make it stand at 15th position.

EcoKart Vehicle 2016 and MJCET Team at the event

SAE BAJA – 2015:

- This year SAE MJCET team have participated in BAJA SAE INDIA 2015 National competition held at *National Automotive Testing Tracks* - NATRIX, Pithampur, near **Indore, M.P.**, India, during 19th to 22nd February 2015. Team Stood **5th** in Business Plan Presentation, **9th** in Cost Analysis, **20th** in Design and stood 53rd from 110 teams participating from all over India.

YEAR 2018-19

Airtel Hyderabad Marathon 2k18

Airtel Hyderabad Marathon - 18

Airtel Hyderabad Marathon was conducted on 26th August 2018. Our EWB MJCET chapter students had volunteered themselves to be part of the marathon. There were 110 volunteers who were stationed at two location along the path of the marathon from 3a.m. to provide the necessary help and support to the people participating in the marathon. EWB-MJCET has been volunteering themselves for the success of the event since 3 years and has been winning accolades for the same from the participants and organizers of the marathon. The marathon was coordinated by the faculty advisor and EWB president – Mr. Faseeuddin and the each of the station was headed, controlled and managed by Mr. Saaduddin Ahmed and Mr. Ikramullah.

Plantation drive

Plantation Drive at Government School - 2018

Phase 2 Plantation drive was conducted on 18th March, 2018 in Erramanzil government school as a continuation of the plantation drive in the year 2017. About 20 EWB-MJCET students has volunteered for this event and carried out the activity. The plantation was carried out in such a way that the waste water released from the RO plant should be redirected for the watering purpose of the plants.

YEAR 2017-18

Airtel Hyderabad Marathon 2k17

Airtel Hyderabad Marathon - 17

EWB-MJCET is quite well known name when it comes to volunteering. Our members have been very enthusiastic in all social causes. Airtel has taken a serious account of this and had signed a Memorandum of Understanding (MOU) with EWB-MJCET chapter for a period of 4 yrs. The chapter also holds the title of the best performing volunteering group in Airtel Hyderabad Marathon for 2 years in a row.

EWB-MJCET members volunteered for the Marathon to contribute towards the spirit of running. Around 60 members volunteered for the event and 2 teams of 30 members were allotted on 2 different stations, which were located at Nagarjuna Circle and KBR Park respectively. The volunteers had to report on 4:30AM at the day of the marathon where they were assigned different tasks like cheering the runners, collection of waste, providing the runners with refreshments etc. The marathon was a huge success and received immense media coverage. EWB-MJCET is looking forward to contribute in the organising of the Marathon this year too.

Solar Fan in the Traffic Police Booth

Solar Fan in the Traffic Booth

A Solar Fan with capacitors which can be used in Day and Night Conditions was prepared and fixed on the Traffic Police Booths at the junctions.

School Infrastructure Development and Improvisation project

This Project was a large scale project for the Chapter and required engineering students from all the fields. The project had to be execution in terms of developing the basic amenities and some improvisation in the infrastructure spread over a large area.

The following sub Projects were executed under the School Project: Drip Irrigation, Drainage system, R O plant, play ground development and others

Erramanzil School Adoption Project Plan

School Infrastructure Development and Improvisation Project

Plantation Drive 2017

Plantation Drive at Government School - 2017

Phase 1 plantation drive was carried out in Erramanzil government school on February 12th, 2017 as a part of Haritha Haram initiative of Telangana government. Around 25 volunteers have participated in the event and have changed the look of the ground as a part of our project- infrastructure development of the school.

Career Counselling for Class 10 Students

Career Counselling

Along with the NIRMAAN- and NGO, EWB students have conducted the career counselling and guidance session for the Erramanzil government high school tenth class students. The activity had different sessions, wherein the students were first taken a feedback as to what their plans are, then they were presented with the various career options they have and finally their aim and goals were fine-tuned as required. The event was carried out on February 10th, 2018 with 12 EWB student volunteers, as the pre-requisite for this activity was telugu speaking capability.

YEAR 2016-17

Conference on “Technologies for Sustainable Ecosystem 2017”

Conference on Technologies for Sustainable Ecosystems-2017

EWB- MJCET student chapter in collaboration with EWB student chapters of the states of Telangana and Andhra Pradesh organized a 2 Day National Conference titled "Technologies for sustainable Ecosystem- TSE 2K17 " on 23rd and 24th March 2017. The venue for the conference was the very own lush green college campus. The objective of the conference was to cater a platform for engineering students to present their work on ecosystem technologies and to provide a platform for possible implementation of the idea for the betterment of the society. Researchers and speakers from various walks of life but dealing with the ecosystem addressed the young engineers of tomorrow during the 2 day conference and the inaugural session had a talk on sustainable technologies and need for maintaining our Ecosystem by Ms Caitlin(a student from University of Connecticut, USA).

Airtel Hyderabad Marathon 2k16

The Airtel Hyderabad Marathon is the second largest city marathon in India. The 2015 Marathon is their 5th edition and is organized by the Hyderabad Runners Society, a nonprofit organization founded in 2007 to encourage active and healthy lifestyle among all age groups in the cities of Hyderabad and Secunderabad.

Airtel Hyderabad Marathon - 16

YEAR 2015-16

Notebook Donation Campaign

The students belonging to various branches of MJ College actively participated in the campaign and collected around 1400 long notebooks, 300 short notebooks stationery items. The school comprises of around 700 students.

The team reached the Safdaria Girls School premises by 9 A.M. The Head Mistress of the school Mrs. Safia Sultana received the IEEE MJCET team with great pleasure.

Notebook Donation Campaign at Govt. School

Star Program- Environment Awareness Program

Star – An Environment Awareness Program at Govt. School

With intent of spreading awareness about environment, IEEE WIE team conducted our most awaited event of the year 2015-16 “STAR” a one week program at Safdaria Girls High School, Humayun Nagar, Mehdipatnam, from 23rd Jan 2016 to 29th Jan 2016.

Tomorrow's leader need to be equipped for tomorrow's challenges, and we must adequately prepare children for the future they will inherit which requires a commitment to providing children with environmental education. with this prospect in mind, the students of classes 1st - 5th were introduced to environmental education since at this level they have a holistic view of environment.

Conference on “Technologies for Sustainable Ecosystem 2016”

Conference on Technologies for Sustainable Ecosystems-2016

EWB MJCET held an conference on “Technologies for Sustainable Ecosystems” in association with various other student chapters of BITS Hyderabad, GitamUniversity,CBIT, GNITC and TKREC.

The conference was divided into various sessions which covered various topics like clean energy systems, ecological engineering, urban sustainability through smart cities and innovations in waste management. It was discussed how the above topics are important to the society and how they could be practically implemented in modern day conditions and situations for the betterment of the society.

Airtel Hyderabad Marathon 2k15

Airtel Hyderabad Marathon - 15

The Airtel Hyderabad Marathon is the second largest city marathon in India. The 2015 Marathon is their 5th edition and is organized by the Hyderabad Runners Society, a non profit organization founded in 2007 to encourage active and healthy lifestyle among all age groups in the cities of Hyderabad and Secunderabad.

Around 60 members volunteered for the event and 2 teams of 30 members were allotted on 2 different stations, which were located at Nagarjuna Circle and KBR park respectively. The volunteers had to report on 4:30AM at the day of the marathon where they were assigned different tasks like cheering the runners, collection of waste, providing the runners with refreshments etc.

YEAR 2014-2015

Burgula village project (phase-1 completed)

Burgula Village Project

Burgula Village, Mahaboobnagar was decided to be developed by EWB- India and Pragathi Welfare Association, and EWB MJCET has lent its part to the development of Burgula Village by volunteering to do the need assessment survey and give research solutions to their problems. EWB- MJCET visited the Burgula Village and performed the need assessment study of 500 houses with a team of ten students in a single day with tremendous efforts. The data collected, interpreted the needs of the village. The data obtained is compiled into a soft copy for future usage. The next phases will be commencing through the intervention of pragathi welfare association.

School project survey

School Surveys Project

By the inspiration imparted by Dr. Ashok Agarwal Sir, EWB MJCET, has taken up initiative to improve the conditions of poor Govt. Schools. There are many schools, in which students lack the basic requirements. EWB- MJCET has taken up this task as a challenge. Though it is cumbersome, we are successful in creating a database of such schools by travelling round the city and with the help of media. The schools which are most in need will be short listed and will be developed in the next phases.

Kasturba (KGNMT) Project

A group picture of EWB MJCET team members at Kasturba Gandhi Memorial Trust

Kasturba National Memorial Trust is a place for dejected and underprivileged women. The conditions prevailing at the trust were very poor. They lacked basic facilities like residential shelter and roofing, bathrooms etc. This project was to build a residential construction to the inmates of kasturba trust. Pratt and Whitney Aerospace, USA, BELCAN, MTC, UTC, Cyient and their allies came forward with a large donation of \$120,000 which comes to 68 lakhs(INR). We could successfully build an two storey building equipped with E-Learning Centre, Play ground, Bunker Beds, Water Harvesting System, Solar Water heater. Our students could focus on various aspects starting from the Syllabi for E learning Centre, Designing the play ground area, analysis of water heating requirement and make it a success.

Sanitation survey at Musheerabad and Rasoolpura Schools

A group picture of EWB MJCET team members at Govt. High Schools Musheerabad for sanitation survey

EWB MJCET members formed two teams and visited the two Govt High Schools at Musheerabad and Rasoolpura in association with BastiVikasManch and performed the need assessment surveys at these schools. We have supported the initiative by providing the construction designs for the installation of pipelines and the construction of new toilets at these schools

Adoption of Government High School

As per the School survey -2 conducted in May 2015, EWB MJCET initiated the adoption of school project at Govt. High School, Erramanzil, Hyderabad which has a strength of about 524 students with majority girls. It did not have proper black boards, drinking water facility and internal roads. We focused to provide water facility, sanitation facilities, and development of playground, plantation, and repair of black boards. 55 Students belonging to EWB-MJCET conducted the survey and found out the problems in the school. Different teams were formed to resolve various problems in school. The team provided clean drinking water, hand wash with foot operated tap, repaired black boards, made an walk way to enter the school, supplied E - learning materials, improved the play area, conducted plantation drive and conducted Swatch Bharath campaign.

Education through paper donation

A group picture of EWB MJCET team members at Nachiketa Tapovan Vidyamandir donating book and papers collected

EWB MJCET has organized an paper collection drive at college and collected about 300 kgs of used books and paper waste. This materials is donated to “Nachiketa Tapovan Vidyamandir” which sells them to ITC ltd. and funds poor students for education.

Clothes Collection Drive

A group picture of EWB MJCET team members at Kasturba Gandhi National Memorial Trust donating the clothes they collected

To extend our hands and buttress the inmates of Kasturba Gandhi National Memorial Trust, Bandlaguda, while working for their development and lending the intellectual services, our project team has contributed to donate them with a few bags of Clothes which are in good condition.

Airtel Hyderabad Marathon 2k14

It is one of the prestigious and biggest marathons of India. EWB MJCET volunteered to organize 8 kilometers of it total run with about 50 volunteers. EWB MJCET volunteers showed ultimate unity and utmost passion to support this run.

Airtel Hyderabad Marathon - 14

HUL Bus Route Mapping:

HUL BUS Route Mapping

Members of our student chapter interned in Hyderabad Urban Lab where the members were asked to ride the city buses and geocode the City bus route locations. This was done to improve the Traffic system by understanding the bus routes in depth and to provide solutions for better traffic management system.

A Report on sustainability development of

School Adoption Project

at

**Government High school, Erramanzil, Hyderabad
Telangana, India**

Executed by

**EWB India, EWB MJCET Student Chapter and
Nirmaan**

TABLE OF CONTENTS

S.No	Title	Page No.
1	EXECUTIVE SUMMARY	3
2	PROJECT BACKGROUND	4
3	AREAS DEVELOPED	5
4	ANNEXURE-I	7

1. EXECUTIVE SUMMARY

Project Name : School Infrastructure Development

Location : Erramanzil, Khairtabad, Hyderabad, Telangana state, India

Problems Observed:

- 1. Leakage of water from slab**
- 2. Bore well Motor Pump**
- 3. Repairing of R O plant**

Project Emphasis: The main focus of the project is to develop the school and provide it with basic amenities such as drinking water, electricity and to carry out various civil works such as construction of a compound wall, proper drainage system, playground development, hand wash facility etc. so that it can improve the quality of the environment of the school which will provide the students an opportunity to pursue better education in a more favorable academic environment.

Stake Holders: School management, EWB INDIA, EWB MJCET

Project Implementation: A comprehensive survey of school's needs and requirement was done and has been completely accomplished by forming of different teams of engineering students of EWB-MJCET

Impact: After successful execution of problems addressed by schools, the students and management can have proper place to conduct classes, have safe and clean drinking water and utilization of ground water for daily uses.

2. Project Background

As we all are aware that unfortunately the infrastructure and overall conditions of government-run schools in our city are not up to the required standard. So, we the students of Engineers without Borders-MJCET, in collaboration with EWB-India and Nirmaan foundation adopted Government high school, Erramanzil, Hyderabad, Telangana, India for developing the school completely in terms of infrastructure, providing better facilities to the occupants, providing career guidance and showing the importance of hygiene for an overall better quality of education.

This School adoption project was initiated by stake holders and was executed completely last year in 2018. As EWB believes on sustainability of the projects and works for their further advancement. This year further development of this project was carried out.

Govt. High School, Erramanzil, Hyderabad

It consists of a total of 220 students with overall staff (Teaching and Non-Teaching) comprising of 30 members working under government of Telangana established in late 1990's.

3. Areas Developed:

1. Slab leakage

The school management brought to the notice of EWB the issue of slab leakage. After consulting with Structural engineer a slab of 30 ft X 60 ft of sufficient thickness was calculated which could withstand the expected load. The project was executed by civil engineering students of the chapter. It was ensured that the slab material would be of high quality like Dr.Fixit etc so as to prevent any further leakage from the roof top. The slab was layed under supervision of Final Year Civil Engineering Students. The status of the work now stands completed with no leakage whatsoever.

2. R.O plant

R.O plants are quite cost effective if looked after. The annual maintenance check and repair of the R O plant was done. The 16 amp MCB board was changed to 32 amps. New motherboard panel was also installed. With the new installation the plant now can function smoothly without any hassle. The plant was also thoroughly cleaned and chemical refill was done.

Different test were performed in laboratory to check the quality of water. And as per the report the quality water is safe and clean to drink.

Result were as follow

S.no	Test performed	Results	Safe range	Remark
1.	Hardness	88 mg/L	Soft :61-120 mg/L Moderately hard :121-180 mg/L Hard: more than180 mg/L	Safe
2.	pH	6.1	pH: 6 - 8.5	Safe
3.	Alkalinity	29.5mg/L	20-200mg/L	Safe
4.	Odour	Odour less		

3. Bore well Motor

The school bore well was clogged and nonfunctional. The pump at the school was conventional, nonfunctioning and was beyond repair. A new submersible pump was installed and the choked line was cleaned. The flow rate through the bore well now is decent and can handle the school requirements.

(Annexure-I)
Cost Expended

S.No.	Area of work	Amount expended	Amount in \$
1.	Slab Leakage	Rs 58,000/-	\$ 843.51/-
2.	R O Plant	Rs 20,000/-	\$ 290.87/-
3.	Bore well Motor	Rs 18,000/-	\$261.78 /-
	Total	Rs 96,000/-	\$ 1396.16/-

Dear Moiz Khaiser Ahmed Abdul,

Thank you for submitting your order through your chosen reseller KT Technologies. under your Open Value SubscriptionEducation Solutions Agreement. We are pleased to inform you that Microsoft has received and accepted this order for the software licenses or online services as detailed in the table below.

Please note that this notification is a part of proof of license. To help with your record keeping, we ask that you keep all Microsoft notices received during the term of your agreement. Please refer to your Open Value SubscriptionEducation Solutions Agreement for your payment obligations and details on your evidence of license. Order details are retrievable via Volume Licensing Service Center (VLSC) at <https://www.microsoft.com/licensing/servicecenter>

Agreement details:

Program:	Open Value Subscription Education Solutions
Customer Name:	Muffakham Jah College Of Engineering and Technology
Reseller:	KT Technologies.
Agreement Number:	V8632578
Start Effective Date:	2018-06-25
End Effective Date:	2021-06-30

Order Details:

E-Week 2018

Muffakham Jah college of Engineering and Technology was started in the year 1980, at present college B.E. intake is 780 in branches like civil Engineering, Computer Sciences and Engineering , Electronics and Communication Engineering, Electrical and Electronics engineering, Electronic Instrumentation engineering, Information Technology, Mechanical Engineering and Production Engineering. College also offers four M.E. courses.

MJCET is conducting Entrepreneurship week and ADSOPHOS from 10th to 16th February 2018 in collaboration with National Entrepreneurship network(NEN) –Wadhvani Foundation. The theme of the E-Week is be a Job Creator, living your entrepreneurial dream, break barriers, create wealth, change India. E-Week 2018 is the 10th edition. MJCET has been declared champions 4 times and runner up 3 times.

E-Week is being conducted in colleges across 45 cities in India, 5000 events are expected to be conducted.

Following awards will be given in the grand finale to be conducted in Delhi on 24th February 2018:

Ecosystem Awards:

1. Mentor of the Year
2. Romesh Wadhvani Fellowship: Start-up of the Year

Campus Ecosystem Awards:

1. Institute of the Year
2. Educator of the Year
3. E Cell of the Year
4. E Leader of the Year
5. Wadhvani Way Adoption
6. Innovation Award

Special Awards

WF NEN E Week 2018 Stars

E-WEEK 2K16

- **E Week Inauguration Ceremony**

E-cell MJCET kicked off the celebrations of the annual E-week on **February 20**, the whole fun filled week. The inaugural ceremony will be graced by **Mr. K L Kishore (CEO of 100 pins) and Mr. Aneeq Dholakia (Founder of Spaceman and Mammoth)**. The whole event is going to be coordinated under the supervision of the E-cell at MJCET, Mr. Syed Ferhatullah Hussainy (Dean MJCET), Dr. Basheer Ahmed (Director MJCET). The whole week has been planned by chief Coordinators Mr. Shaik Masthan and Ms. Sanjana, the General Secretary Mr. Sami UllahJafri, Mr. Mohammed Kashif -Ur- Rahman and PRM Head Mr. Ethemaad Ahmed.

- **E-week Magazine Launch**

E-Week Magazine Launch was held on 20th February wherein E-leader with the Guest of Honors launched the annual Mag-e-zine. The magazine exhibited the efforts of all NEN, The Wadhvani Foundation and Ecell MJCET in the current and previous years. The whole event was coordinated by Chief coordinators and general secretaries.

Panel Discussion: We can start a business without worrying about the impact it might have on environment. E-CELL took the initiative to motivate the students to start the business in an eco-friendly manner. Many senior experienced entrepreneurs were invited to make the students aware about the existing policies, its benefits and advantages in starting the business. A panel discussion on eco biz was also held by the E-CELL to make a start for setting up a business which is environment friendly.

- **10000+ Balloons outreach:**

Honoring Street Entrepreneurs: A day out well spent by the active members and leaders of E-CELL were given an opportunity to interact with the street entrepreneurs. The students were given a chance to meet them and get all their queries answered. Students participated with full enthusiasm and were motivated and engrossed in the discussions with different entrepreneurs.

The students were also thankful to the people and appreciated their dedication and hard work in setting up the business.

- Project Expo: This event was to bring the talent out of the students in the campus. This was held in the annual technical fest, Adsophos where students belonging to different streams come and showcase their talents and projects.

- Exercises and Games
- Watch the invisible: The team will be shown a small video clip and they'll be asked questions on it. Questions will be on the things that they least notice.
- Dart it: A dart board with famous entrepreneurs will be made. Team of two, one participant describes one of the entrepreneurs on the board by what knowledge he

has about them and the other one silently guesses it and hits a dart. He gets 3 chances to get the correct answer.

- Win-Win: People are given an actual product, given a base price and ask to sell the product. If they manage to sell with profit, they get to keep it. The person with maximum amount wins.
- Decoders: In this event students will be given 5 sentences but these will be in a secret code. The key to cracking the code will be given to them. They have to decode each word and then rearrange the words to form a meaningful sentence. The more number of the sentences they decode with in the time limit, points will be awarded accordingly.
- Reel the real: People are asked to find the freshest startup story and come present it in a skit form. 4-5 people in a group. The best enacted skit with the best story wins.
- Rs. 50 Exercise: In this exercise, participants are given Rs 50 and they need to use these 50 Rupees and make the profit in a given span of time.

Thriveta – The startup Fest

THRIVETA-The Startups Fest, one of the first and largest Indian startup fest, designed especially to promote just "Student Entrepreneurship" & "Social Entrepreneurship".

The biggest entrepreneurship platform in Hyderabad on 24th& 25th February, 2016 at Muffakham Jah College of Engineering and Technology, Banjara hills organized by Entrepreneurship Cell over a course of 2 days which provides a platform for innovative startups, entrepreneur, investor ,students and young people to meet, talk, get inspired and exchange ideas. The main goal of this forum was to inspire people and equip young people who are in the process of initializing their own startup. THRIVETA's main motto was to connect students from different fields with founder, entrepreneur, investors, educators and other inspiration mind in startup scene. This fest has many sequences namely, lectures, workshops, panel discussions, pitching ideas and placements.

- **Celebrating the Spirit of Entrepreneurship:** E-Cell MJCET celebrated the spirit of Entrepreneurship, a fun event organized for promotion of E-week was one of the most fun filled night by lighting sky with lanterns and bonfire. All the team members gathered and stood united with the aim to build up the spirit of entrepreneurship.

- **Village Trip:**

The village trip is an outreach event where E-cell MJCET goes to the village where they educate and encourage rural people about entrepreneurship.

Events like skit, interaction with students and locals, distribution of books, innovative mela (Things made up of waste are set up in the mela), etc.

Muffakham Jah college of Engineering and Technology was declared E week champion award and NEN Anthem Social Media Champ Award at a function held in Bangalore on 5th March 2016. Muffakham Jah College has won the championship award for the third time successively.

The student coordinators are Mastan Shaik 4th Year ECE student and Ms. Sanjana B. 4th Year ECE student. Mr. Zafar Javeed Hon. Secretary and Dr. Basheer Ahmed appreciated the students on their achievements. Prof. Syed Farhathullah, Dean, is the Faculty Advisor.

National Entrepreneurship Network [NEN], Wadhvani Foundation felicitated institutes which best demonstrated the spirit of E Week, providing extraordinary leadership, while sustaining and growing a strong entrepreneurship ecosystem on their campuses through the year.

The theme of E-Week 2016 *"Innovative Ideas for a Better World"* focused on encouraging educators and students to become 'innovation catalysts' by making deep investments in ideas and innovations that guarantee market success. The st

Campaign which covered 45 cities, 1500 events and 8,00,000 participants, in 245 colleges in south India, the NEN 9th E-Week 2016

Information Technology Department

Report on Competitive Exams and Career Counseling Session

30/08/2018

The Information Technology department has conducted placement counseling for all its students as per the following schedule. A presentation regarding career opportunities in the IT domain was given by the Placement coordinator. Students were advised to focus on programming for problem solving through programming languages like C, C++, Java, Python, and App development. Students were asked to prepare for the campus placement well in advance as the skills that would be tested are Quantitative, Analytical, English and Reasoning which are not dependent on engineering courses.

Further, the relevance of GATE examination and Telangana State PGECET for admission into Postgraduate program at IITs and state level universities was also discussed by Head of Department. The appropriate time frame for taking up Competitive exams like GRE, TOEFL/IELTS, GMAT, IES with cut off scores for getting admission into higher education institutes was provided. In conclusion, the various requirements for pursuing higher education in USA, UK, Australia, Europe and other foreign countries were highlighted.

Further, the relevance of GATE examination and Telangana State PGCET for admission into Postgraduate program at IITs and state level universities was also discussed by Head of Department. The appropriate time frame for taking up Competitive exams like GRE, TOEFL/IELTS, GMAT, IES with cut off scores for getting admission into higher education institutes was provided. In conclusion, the various requirements for pursuing higher education in USA, UK, Australia, Europe and other foreign countries were highlighted. IT Department also organized "Department Campus Recruitment Training" (DCRT) for BE III year students during second semester for enhancing the programming skills by a team of in-house faculty members.

DEPARTMENT VISION: Fostering a bright technological future by enabling the students to function as leaders in software industry and serve as means of transformation to empower society through ITeS.

DEPARTMENT MISSION: To create an ambience of academic excellence through state of art infrastructure and learner-centric pedagogy leading to employability in multi-disciplinary fields.

Muffakham Jah College of Engineering and Technology

Information Technology Department

Report on Competitive exams and Career Counseling session

06/10/2015

The Information Technology department has conducted placement counseling for all its students as per the following schedule. A presentation regarding career opportunities in the IT domain was given by the Placement coordinator. Students were advised to focus on programming for problem solving thru programming languages like C, C++, and Java. Students were asked to prepare for the campus placement well in advance as the skills that would be tested are Quantitative, Analytical, English and Reasoning which are not dependent on engineering courses.

Further, the relevance of GATE examination and Telangana State PGCET for admission into Postgraduate program at IITs and state level universities was also discussed by Head of Department. The appropriate time frame for taking up Competitive exams like GRE, TOEFL/IELTS, GMAT, IES with cut off scores for getting admission into higher education institutes was provided. In conclusion, the various requirements for pursuing higher education in USA, UK, Australia, Europe and other foreign countries were highlighted.

MEMORANDUM OF UNDERSTANDING

Prometheus Patent Services Pvt Ltd.

and

Muffakham Jah College of Engineering and Technology

Re: Patent Search, Patent Drafting & Filing.

THIS MEMORANDUM OF UNDERSTANDING made this 26th day of November 2018 between Prometheus Patent Services Private Limited having office at Plot No. 34B, Sai Dwaraka Sinman, 1st Floor, HUDA Heights, Near Lotus Pond, MLA Colony, Road No. 12, Banjara Hills, Hyderabad-500034, Telangana, India, hereinafter referred to as "PROMETHEUS" of the ONE PART and Muffakham Jah College of Engineering and Technology having office at Rd Number 3, Venkateshwara Hills, Banjara Hills, Hyderabad-500034, Telangana, India, hereinafter referred to as "MJCET" of the SECOND PART:

AND WHEREAS the parties hereto are desirous of recording the terms and conditions of their agreement in writing

NOW THIS MEMORANDUM OF UNDERSTANDING WITNESSETH AS UNDER:-

1. PROMETHEUS agreed to provide Patent Search, Patent Drafting and Patent filing services to MJCET.
2. It has been mutually agreed that the Patent search and Patent drafting will be charged at INR 30,000/- (including applicable tax) per patent application from 26th November 2018 till next three years.
3. It is further agreed that PROMETHEUS will raise an invoice at the start of the patent search work and MJCET will release 100% of the invoice amount as the payment before initiating the work.

SULTAN-UL-ULOOM EDUCATION SOCIETY

Road No.3, Banjara Hills, Hyderabad-500 034.

476/SUES/2018/4027

Date : 6.2.2018

To

~~Dr. M. Suman Roy~~

Thro' Principal, Ghulam Ahmed College of Education

We take pleasure in appointing you as "Counsellor" for the Students of Campus Institutions in Sultan-ul-Uloom Education Society, on part-time basis, i.e. thrice a week on Monday, Tuesday and Wednesday from 10:00 a.m. to 3:30 p.m., on a consolidated pay of Rs.20,000/- per month for a period of one year under the following terms and conditions:

1. The appointment shall take effect from ~~2-2-2018~~ 2-2-2018.
2. The appointment shall be subject to termination on one month's notice on either side. However, you will not be relieved during the middle of the academic year and you must continuously work for atleast one academic year, subject to the Management being at liberty to accept the resignation or terminate your service in the middle of the year.
3. You shall abide by the Service Rules and Regulations as framed by the Society.

You are advised to report to Hony. Secretary, Sultan-ul-Uloom Education Society immediately.

Please sign the duplicate copy of this letter as token of your acceptance of the offer and return it to the Office of Sultan-ul-Uloom Education Society.

HONY. SECRETARY

- Copy to : 1) The Heads of Institutions (Campus)
2) P.O., SUES
3) A.O. (Accts.), SUES
4) Society's office

Mant

Women Grievance & Redressal Cell

Objectives:

- The Cell will deal with the cases / complaints of sexual harassment and any other type of harassment of the female students, teaching and non-teaching women staff of the college.
- The Cell shall process all the individual complaints and take immediate suitable action.
- The Cell will provide assistance to the Faculty/College for taking preventive steps in the matter of gender discrimination and sexual harassment.
- The head of the institution shall appoint a senior lady faculty as chairperson of the cell.
- The Cell may form / review the guidelines / policy for redressal of the grievance as required from time to time, which may be in accordance with those issued by Supreme Court and Government Agencies.

Composition:

Women Grievance & Redressal Cell (WGRC) consists of six full time women faculty members and five girl students from across the institution. One of the faculty members is designated as the chairperson of the cell.

Grievance Redressal Procedure:

- Any women employee or female student will have the right to lodge a complaint concerning sexual harassment against a male student or the employee of the institute by writing a letter to chairperson WGRC.
- The complaint will be afforded full confidentiality at this stage.

- After receiving the complaint, the chairperson shall convene the meeting of the cell.
- The chairperson will appoint investigation committee and coordinator will convene the meetings.
- The investigation committee shall then decide the course of action to proceed.
- The complaint will stand dropped if in accordance to the committee the complaint has not been able to establish authenticity of the grievance.
- In case the grievance is found to be genuine, the investigation committee will recommend a suitable redressal for further action by the head of the institution.

2nd January 2014

The Principal
Muffakham Jah College of Engineering and Technology
Hyderabad - 500034

A fund-generating application to enhance alumni networks and digitize college communications.

Dear Sir:

Thank you for giving us time to see the list management application that we at 100pins.com have created.

The main problems that the application solves for colleges are the following:

[Handwritten notes]
Please read
take instant action
upto March '15.
H/V

1. Most colleges face high difficulty tracking many of their alumni
2. Keeping updated whatever alumni database has been created, is also problematic since alumni do not have the motivation (or details) to log in to an alumni portal regularly and **update their data**
3. Alumni can help current students and other alumni in many ways, but the alumni databases of most colleges do not have many features to **allow – and encourage – interaction between members**
4. Creating an evolved student/alumni portal, and working continuously to add features to it to keep members engaged, is quite **expensive**
5. **Faculty interaction with specific sets of students** (e. g. a lecturer wanting to send an email to only students of 2nd year B. Tech. (Mechanical Engineering), Section A) is not usually possible from a single list, with multiple lists needing to be created for different groups of students
6. Some **faculty members are slow to adopt technology** in education, since they perceive it as either complicated or unnecessary
7. There is usually **no direct financial benefit from using technology in education** – it is only a cost source

The 100pins.com list management application that we showed you **solves all of these problems, in the following ways:**

1. The application is built on the common belief that **70-80% of alumni of a college are connected among themselves on Facebook/LinkedIn already**. Thus, it is innovatively designed in a fashion that if just the current students of a college sign up with the application, recent alumni get to know of it through repeated notifications appearing on their Facebook/LinkedIn feeds, and as more alumni sign up in response, even more alumni get to know of it and sign up. Thus, with almost zero effort, the college creates a far more populous database that it would by its own current and significant efforts.
2. The application is also a **highly-evolved and extremely simple-to-use mailing list**, where members **can interact** over email (even though email addresses are not displayed), either individually or in groups. So a member can send emails to another member, her entire batch, all alumni in a particular city/country, all alumni of a particular year etc – and they can create their own custom emails (e. g. mybatch@100pins.com), to which they can write directly. This helps faculty, students and alumni interact extensively, helping everyone, and increasing the enthusiasm of the members to use the application regularly.

3. The above feature also means that the data can be kept updated through the college sending a periodic email to all members (say once every 6 months) using the application itself, **asking alumni to update their own data.**
4. The application can **generate funds for MJCET**— several lakhs of rupees a year potentially – if you use it for communications.
5. The application costs **just Rs. 1,975 a month** (when paid in advance annually) per college, irrespective of number of users or emails, which makes it highly affordable.

In addition:

Aug 2014 to March 2015
 $1975 \times 8 =$ + 12.36% ST

6. The application is **professionally designed**, and has an **elegant interface**, creating a positive impression among users and encouraging them to explore and use it.
7. It has **many more features**:
 - Each college can have any number of member groups (students/alumni, faculty and non-teaching staff are typical groups), and any number of fields to collect data for each member group
 - There can be any number of administrators for a college's list, with various different permissions
 - Any amount of information can be stored for each member, including notes by faculty members
 - Membership and conversations can be moderated
 - Faculty can interact with current students completely over email to send notifications / course material etc. (or even by SMS, though SMS is not covered in the monthly fee and is charge extra)
 - Both membership and emails can be fully moderated by the administrators
 - The college can itself fill all the data for each student/alumnus and send them an email, where they can just see the data and authenticate it
 - ...and a lot more.
8. All members are **authenticated by a rigorous process**, making members feel comfortable that the application is quite safe.
9. It keeps getting better, with **newer features being added regularly**, at the same price.
10. It **enhances MJCET's reputation further** by making a public page that has glowing reviews for MJCET by current students and alumni, **rank high on search engines and get shared on Facebook.**

The student/alumni application on 100pins.com is extremely evolved, and extremely competitively priced. Needless to say, many leading colleges have signed up for it within just a few months. This is just a **partial** list, of **30 top colleges/groups**, that have signed up or are in advanced stages of signing up:

1. IIT Madras
2. R V College of Engineering, Bangalore
3. University of Hyderabad
4. Bangalore Medical College, Bangalore
5. College of Engineering Guindy, Chennai (Anna University)
6. Osmania University College of Engineering
7. Osmania University Arts College
8. Osmania University College for Women
9. Osmania University College for Commerce and Business Management
10. Osmania University College of Science, Saifabad
11. Osmania University PG College, Secunderabad
12. IIIT Hyderabad
13. JNAFAU, Hyderabad
14. Chaitanya Bharathi Institute of Technology, Hyderabad (CBIT)
15. Mahatma Gandhi Institute of Technology, Hyderabad (MGIT)

16. CVR College of Engineering, Hyderabad
17. VNR VJIEIT, Hyderabad
18. MVSR Engineering College, Hyderabad
19. Sreenidhi Institute of Science & Technology, Hyderabad
20. G Narayanamma Institute of Technology and Sciences, Hyderabad
21. Vishnu Group of Colleges, Hyderabad (4 colleges including BVRIT)
22. JB Group Of Educational Institutions, Hyderabad (7 colleges including JBIET)
23. St. Francis College for Women, Hyderabad
24. St. Mary's College, Hyderabad
25. Loyola Academy, Hyderabad
26. Reddy Women's College, Hyderabad
27. Nizam College, Hyderabad
28. Pragati Mahavidyalaya, Hyderabad
29. A V College, Hyderabad
30. MLR Group, Hyderabad (3 colleges including MLRIT)

Price: Rs. 1,975 per month (paid once a year in advance) + service tax

We hope that you will see it fit to implement this product at MJCET. We await your response. Thanking you,

Date : 6.2.2018

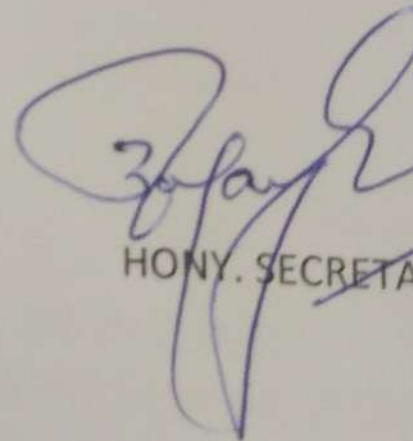

To
~~Dr. M. Suman Roy~~
Thro' Principal, Ghulam Ahmed College of Education

We take pleasure in appointing you as "Counsellor" for the Students of Campus Institutions in Sultan-ul-Uloom Education Society, on part-time basis, i.e. thrice a week on Monday, Tuesday and Wednesday from 10:00 a.m. to 3:30 p.m., on a consolidated pay of Rs.20,000/- per month for a period of one year under the following terms and conditions:

1. The appointment shall take effect from 2.4.2018.
2. The appointment shall be subject to termination on one month's notice on either side. However, you will not be relieved during the middle of the academic year and you must continuously work for atleast one academic year, subject to the Management being at liberty to accept the resignation or terminate your service in the middle of the year.
3. You shall abide by the Service Rules and Regulations as framed by the Society.

You are advised to report to Hony. Secretary, Sultan-ul-Uloom Education Society immediately.

Please sign the duplicate copy of this letter as token of your acceptance of the offer and return it to the Office of Sultan-ul-Uloom Education Society.

INTERNATIONAL DAY AGAINST DRUG ABUSE AND ILLICIT TRAFFICKING
26.JUNE.2019

WORLD SUICIDE PREVENTION DAY SEP.10.2018

“INTERNATIONAL WOMEN’S DAY 2019: BALANCE FOR BETTER”

Better the balance, better the world

2019 marks the beginning of celebrating a gender balanced world to commemorate, the achievements of women through the ages. Let’s assemble to acknowledge their contribution to society and at the same time strive for gender balance.

Gloria Steinem, world-renowned feminist, journalist and activist once explained, "The story of women's struggle for equality belongs to no single feminist nor to any one organization but to the collective efforts of all who care about human rights."

Right now is a great and important time in history to do everything possible to help forge a more gender-balanced world. Women have come a long way, yet there's still more to be achieved.

Think special, build smart, and innovate for change

As we arrive at International Women's Day 2019, there is worldwide call-to-action for driving gender balance across the world. How can we make a difference? Innovation and technology provide unprecedented opportunities, yet trends indicate a growing gender digital divide and women are under-represented in the field of science, technology, engineering, mathematics and design. It prevents them from developing and influencing gender-responsive innovations to achieve transformative gains for society.

Gender balance is essential for economies & communities to thrive. So let’s progress towards a more balanced world through innovation for change.
